

MURDER ON ELM STREET

TEUTONS ATTEMPT TO
CLEAR WAY TO WARSAWRussians Still in Retreat—German
Water Attack on Windau Re-
pulsed—British Ship Sunk

The Russian lines are still being
wrecked in northern Galicia and
southern Poland in an apparent effort
to clear the way for a determined move on War-
saw.

The Russians admit a continuation of
an enemy offensive being the Bug
and the Vistula. At the junction of the
Vistula river with the Bug in Poland
is a Russian observation post. It is believed
is the immediate object of the
Austro-German forces in this re-
gion. It is believed that the Russian
lines are little more than
miles southeast of Warsaw.

German Records Repulse

Just at present the chief Russian
aiding power seems to be along the
line of the western Bug and the Gal-
icia in Galicia. Petrograd records a
repulse of an attempt by the Teutons
to cross the Dniester near Halycz in-
dicating that the line of the Dniester
south of that place is still well held
by the Grand Duke Nicholas' forces.

Torpedo Boat Blown Up

A German attack by water on Win-
dau on the Baltic just south of the
mouth of the Vistula was repulsed by
the Russians, their official statement says.
Five cruisers and many torpedo boats
participated in the attack, and an at-
tempt is declared to have been made
to land troops. One of the torpedo
boats was blown up before the fleet
retired.

Allied Successes in Dardanelles

Eyes are being turned towards the
Dardanelles from which stirring
news has recently come, and there
are signs from the side of the entente
allies that success just reported are
to be followed by still more deter-
mined attempts to carry dominating
Turkish positions.

Another British Ship Sunk

German submarine activity brought
harshly to the front by the sinking of
the steamer Armenian with the loss
of eleven or more Americans, is fur-
ther shown in the sinking of the Brit-
ish bark Thistlebank and the Norwe-
gian steamer Marna through torpedo
attacks.

The case of the Armenian is being
held in abeyance in Washington until
the status of the vessel and the cir-
cumstances in which she was sunk
are fully determined.

ANOTHER BRUTAL MURDER
OF THE GINGRAS TYPEJohn Demos, Mill Operative, Found
Hacked to Death in Tenement in
Elm Place—John Comatos Held on
Suspicion—Victim Had \$800 in Belt
Which is Gone

Lowell has another murder of the
Gingras type, as John Demos, the
victim, hacked to death in his home at
2 Elm place last night, carried \$800 in
his belt and the money is missing
while a man named John Comatos is
held on suspicion.

Story of the Crime

Lying on his back in a pool of his
own lifeblood, with his body stretched
out under the bed in which he had
slept, John Demos, a mill hand be-
tween 40 and 50 years of age, was
found murdered in a tenement occu-
pied by the victim and four other
men at 2 Elm place last night. The

murder was committed with a knife
or some sharp instrument with which
the man's body is hacked.

John Comatos, a companion of the
dead man, is being held at police
headquarters as a suspect, the police
claiming that traces of blood have
been found upon his clothing.

The gruesome discovery of the
body was made by Arthur George, a
close friend of the dead man and an
occupant of the same tenement, who
returned home about 9.30 o'clock after
visiting friends on Fayette street.

Comatos Held

An all night investigation by the

police brought out what is believed to
be significant developments, and
Comatos who also resided in the tenement
with the dead man, is being held
on suspicion. Medical Examiner
Meigs and City Physician Tighe, upon
examining the hands of this man,
found small particles of blood under
the cuticle of the finger nails, and
bloody streaks were noted under each
arm of his undershirt. In explanation,
Comatos stated that his nose had bled
yesterday. It was further brought out
at the examination of the man that
Demos, while at the Lowell, General
hospital to undergo an operation, wore

STRIKE IN ROCHESTER

ELECTRICAL WORKERS EMPLOY-
ED BY TELEPHONE COMPANY
QUIT

ROCHESTER, N. Y., July 1.—A
strike that may affect all the independ-
ent telephone system in western New
York, was inaugurated here today
when electrical workers employed by
the Rochester Home Telephone Co. quit.

ARCHBISHOP QUIGLEY BETTER
ROCHESTER, N. Y., July 1.—Arch-
bishop Quigley of Chicago, stricken
with paralysis at the home of his
brother, Chief of Police Quigley, spent
a fairly comfortable night, with inter-
vals of consciousness, his physicians
announced today. Two operations have
been performed to relieve pressure on
the brain.

FUNERALS

LAUGHTON.—The funeral of Abel
A. Laughton took place from his home,
43 Dover street, yesterday afternoon.
The services were conducted by
Rev. Edward H. Newcomb, pastor of
the First Congregational church. The
bearers were Messrs. W. H. Lynde, H.
L. Bishop, Allan Fraser and James
Hunt. Highland-Veritas lodge, I. O. O.
F., was represented by W. O. and W.

FUNERAL NOTICES

GRONIN.—The funeral of Cornelius J.
Gronin will take place Friday morn-
ing from the home of his brother,
Patrick J. Gronin, 221 Plain street,
8 o'clock. High funeral mass will be
sung at the Sacred Heart church at
9 o'clock. Burial will take place in
St. Mary's cemetery. Quincey, Mass.
Funeral in charge of Undertakers
Higgins Bros.

MURPHY.—The funeral of Mrs. Jer-
mie Murphy will take place Friday
morning from her home, 231 Woburn
street at 9 o'clock. At the Sacred
Heart church a funeral mass will be
sung at 10 o'clock. Burial will take
place in St. Patrick's cemetery. Un-
dertakers J. J. O'Connell in charge.

EVELYN THAW REFUSES
TO HONOR SUBPOENAServed on Her Yesterday, Sum-
moning Her to New York to
Testify at Sanity Trial

MALONE, N. Y., July 1.—Evelyn Nes-
bit Thaw has refused to honor the sub-
poena served on her yesterday, sum-
moning her to New York to testify at
the jury proceedings to determine the
sanity of her husband, Harry K. Thaw.
Mrs. Thaw, it became known today,
told William J. McGuire, the state's
process server, that she was in poor
health and feared for her life should
she be compelled to undergo the ordeal
on the witness stand to which she
thought she would be subjected in
cross examination by Thaw's counsel.
She said that she would furnish a
doctor's certificate if required to do so
by the court.

TRIAL RESUMED
NEW YORK, July 1.—Transcripts of

the testimony given in Harry K.
Thaw's two trials for killing Stan-
ford White were in the possession of
state's attorneys today and prepara-
tions had been made to read liberal
extracts in his sanity trial now in
progress. The records, the state ex-
pects, will support its contention that
Thaw is insane. Reading of the evi-
dence given by Mrs. Mary Copley
Thaw, his mother, in the second trial
had not been concluded when the
court adjourned yesterday and was
continued today. Mrs. Thaw, in the
portions of her story read to the jury
told of her son's early life, and his
eccentric actions prior to the killing
of White, and of the insanity taint
which affected some of Thaw's rela-
tives.

THE MEXICAN SITUATION

Huerta and Others Arraigned on
Conspiracy Charge—Anarchy
in Mexico City

EL PASO, Tex., July 1.—Victoriano
Huerta, former president of Mexico,
was to be arraigned today before
United States Commissioner Oliver, on
charges of conspiring to launch a new
revolutionary movement in Mexico,
thereby violating American neutrality.
Accused with him were two former
Mexican federal generals, and three
Mexican residents of El Paso.

Those held are: General Victoriano
Huerta, Gen. Pascual Orozco, Gen.
Marcelino Caraveo and Jose Zozaya, El
Alderete and Frank Alderete of El
Paso.

For weeks government officials here
have been cognizant of activity among
refugees on this side of the border.
Supplies of machine guns, rifles and
ammunition said to have been assem-
bled in connection with the new move-
ment had been located in El Paso.
Since Huerta's detention Sunday con-
tinued activity has been noted in Cle-
mentino circles here, and some observers
express the belief that the present plan
is to attempt to launch the movement
even should Huerta be held for the
federal grand jury.

CONDITIONS IN MEXICO

CITY MORE CHAOTIC
WASHINGTON, July 1.—Conditions
in Mexico City, described as growing
more chaotic, loomed largest today in
the official view of the complex Mexi-
can situation.

The situation in the Mexican capital,
made more dangerous for foreigners
by the battling armies in the suburbs,
is causing Washington officials more
worry just now than any other phase
of conditions in the southern republic.
Latest reports from Mexico City,
which came by way of courier to Vera
Cruz and were cabled to the state de-
partment several days late, said condi-
tions bordering on anarchy prevailed
there with unchecked mobs rioting and
looting stores. These advices made no
mention, however, of foreigners having
been harmed.

The situation was laid before Secre-
tary Lansing upon his return today.
President Wilson, at Corvish, N. H.,
also has been advised.

ARMENIAN "ENGAGED"
ON ADMIRALTY BUSINESSLiner Sunk by Germans With Loss of
American Lives Was Under Orders
of British Admiralty—All Americans
Who Perished Were Members of Crew

WASHINGTON, July 1.—The Leyland
line steamer Armenian was "engaged on
admiralty business" when she was sunk
by a German submarine off the Corn-
wall coast of England two days ago,
with the loss of a score of American
lives.

Ambassador Page at London reported
to the state department he had been
so informed by British admiralty of-
ficials.

Report 21 Americans Lost

Consul Armstrong at Bristol, who
sent first word of the destruction of the
steamer yesterday, reported to Amba-
sador Page today that 21 of the 29
men lost with the Armenian were
Americans. He gave no additional
names. The ambassador's despatch

gave no additional details on which
the state department could base con-
sideration of the case. He said that
as the Armenian carried no passengers,
presumably all Americans who per-
ished, were members of the crew.

It was pointed out here, however,
that Americans seeking cheap trans-
portation frequently travel upon such
ships as passengers, although they are
signed on the ship's roll as members
of the crew.

The department expected further de-
spatches from Ambassador Page and
Consul Armstrong giving reports of
survivors to show whether the ship
was duly warned by the German sub-
marine commander and those aboard
her given an opportunity to escape.
Officials of the steamship company

have stated that the Armenian was not
under charter to the British admiralty,
but was sailing merely as a merchan-
tman carrying contraband.

SAYS 11 AMERICANS LOST

AVONMOUTH, England, July 1, 12.25
p. m.—There were 11 Americans among
the 19 members of the crew who lost
their lives in the sinking of the Ley-
land line freight steamer Armenian by
the German submarine U-35 off Tra-
voz Head, Cornwall, on Monday. Some
members of the crew were killed en-
route when the German torpedo struck
the ship.

Carried 1422 Miles

When sunk by the German subma-
rine. Continued on page three

EDITOR DIED SUDDENLY

ROCKLAND, Me., July 1.—Olive
Otis, editor and proprietor of the
Rockland Opinion and one of the best
known weekly newspaper publishers in
Maine, died suddenly today following
an operation. He was born in 1845 and
had been engaged in newspaper work
either as printer or editor since he was
13. He had been located at Farming-
ton, Augusta and Auburn before com-
ing here in 1913. He was a member
of the legislature in 1911 and promi-
nent in state democratic politics.

ARMENIAN SUNK

Continued

rine, the Armenian was carrying a cargo of 1122 mules from Newport News to Avonmouth, the animals to be used by the French army in Belgium and France. The vessel had a crew of 72 men and carried 36 men as mule-tenders.

The submarine was first sighted by the man at the wheel and though the ship was pushed to the limit, the mosquito craft rapidly overhauled her and commenced shelling. The Armenians' efforts to keep her stern to the submarine were futile.

Ordered to Surrender

The faster vessel circled the freighter and the German commander, speaking through a megaphone ordered the Armenian commander to surrender or he would sink the ship.

The skipper of the Leyland liner struggled hard to evade the under-sea boat, but the latter dropped a shell through a skylight into the steamer's engine room, putting the engines out of action. The Armenian then surrendered.

Lifeboats Lowered

Lifeboats were lowered and the crew and some 70 mule tenders, nearly all Americans, scrambled into them.

As one of the boats were being lowered a shell from the submarine out the falls of the boat. The occupants were spilled into the water and, presumably, were drowned.

Five boats loaded with survivors got away. The submarine then fired two torpedoes into the Armenian, and the vessel sank within 30 minutes.

The survivors rowed around in the boats till Tuesday morning, when a steam trawler picked them up and landed them at Avonmouth.

NEW CONVENT BOUGHT

REV. DR. KELEHER PROVIDES

PERMANENT HOME FOR NUNS OF

ST. PETER'S SCHOOL

Parishioners of St. Peter's will be

pleased to learn that Rev. Dr. Keleher

has purchased a permanent home for

the Sisters of Charity connected with

St. Peter's parochial school, the com-

modious dwelling house at the cor-

ner of Highland and Thorne streets,

overlooking the South common, which

has been occupied by them since the

opening of the school, and owned by

James P. O'Donnell.

The building is a large dwelling

with mansard roof and all modern im-

provements, and upon taking it Dr.

Keleher had the interior remodelled to

meet the purposes of a convent, in-

cluding the installation of a cosy

chapel, with the result that it has

proved eminently satisfactory to the

Sisters, a fact which caused Rev. Dr.

Keleher to purchase it at this time.

Additional room will be provided as it

becomes required. At present there are

nine nuns at the convent while two

more will take up their duties here at

the opening of the school in September.

It is expected that two nuns will be

added to the teaching force each term

until the total number of 20 has been

reached. The school has shown a

steady increase in numbers and has

been a decided success educationally.

The Sisters of Charity of Halifax, N. S.,

are a teaching order with large schools

throughout the country and the British

provinces. They are a separate order

from the Sisters of Charity at St.

John's hospital, whose mother house is

at Emmitsburg, Md., and who are doing

hospital and orphanage work in addition

to school and academic teaching.

Interest begins Saturday, July 3rd,

at The Lowell Five Cent Savings Bank.

WOMAN LOST HER PAY

AND HAD RUN-IN WITH CONDUCTOR

TO ADD TO HER DISCOMFORTURE

ON TRAIN FROM BOSTON

According to passengers on one of

the afternoon trains from Boston to

Lowell yesterday, a woman named

Mary Simpson, residing in East Biller-

ica and employed as a car-cleaner by

the Boston and Maine, had a most un-

pleasant experience which, it is al-

leged, will be aired before the B. and

M. authorities. The story is to the

effect that the woman, who is of for-

eign extraction, shortly after entering

the train discovered that she had lost

\$42, which had just been paid to her

by the Boston and Maine. In a state

of excitement she was scouring the

car for her lost pay when approached

by the conductor for her ticket. She

presented an employee's pass, but it is

alleged, when asked to sign her name

to it was unable to do so, whereupon

it is claimed, the conductor demanded

a ticket or the price of one, declining

to honor the pass. A well known citi-

zen among the passengers, according

to report, sought to explain the situ-

ation to the conductor, but the latter

wasn't taking any suggestions from

passengers, and made the fact known

in no uncertain language. Finally the

conductor signed the pass himself

and the woman reached her destination.

Several passengers, it is said, were

most pronounced in their criticism of

the attitude of the conductor, in the

matter and expressed their intention of

presenting the case before the general

superintendent.

MURDER ON ELM STREET

Continued.

a belt about his body containing about \$800. This belt could not be found last night.

Weapons Missing

Although the police subjected the tenement in which the men resided to a thorough search, the instrument with which about 15 stab wounds had been inflicted was missing. A knife was found in the coat pocket of the dead man and two others were found in a trunk in the room, but none of these contained the slightest trace of blood. A loaded revolver was also taken from the trunk. The police who notified the fire department sent a squad of officers to the scene and an investigation was begun.

Cuts on Body

The man's body was literally covered with long deep incisions, undoubtedly inflicted with a very sharp knife or a stiletto. About 16 cuts of various sizes were distributed over the upper part of the body, the back, chest, face and chin being deeply scarred. One deep incision directly over the man's heart was probably the thrust that caused death.

The room in which the body was found showed no signs of a struggle with the exception of the bed which was covered with the blood-soaked clothes of which were in disorder. Subsequent inquiries among other tenants of the block, failed to bring out any evidence of a struggle, as nobody had heard any unusual noise coming from the tenement.

Scene of Murder

The room in which the man was found and in which the murder was most likely committed, was a small bedroom occupied by the dead man. The sleeping apartment was of a size usually found in large tenement blocks with a single window. The walls were covered with pictures and trophies of all descriptions, but nothing about the room appeared to be in good order with the exception of the bed clothes.

The man was found with his head drawn up against the wall of the room with his lower limbs stretched out under the bed. His arms were thrown outward, the shirt-sleeves being open and rolled up.

Discoverer Tells Story

According to the story of Arthur George, who discovered the body, Demos had come home from work about 4 o'clock last night. He had been employed in the spinning department of the Boot-mills for about two years. George and the murdered man waited around for some time until George Capopoulos and John Camatos, who were visiting in the Greek district, got home. The latter two and George went to the Boot-mills and purchased provisions while away, and they were handed to Demos, who prepared the supper. During the supper, George said, the men talked and joked, and when supper was over they all helped in clearing away the dishes. Tony Horax, the fifth resident of the tenement, was working nights in the Boot-mills and was not present at the supper. George then went out to visit Samuel Pappas, who resides at 235 Fayette street, and left the victim and Camatos and Capopoulos talking together. He returned to the house about 9:30 and upon entering the tenement he found all the doors open and the lights on. After striking a light he found the body of Demos lying in the bedroom.

Instead of at once notifying the police, George in his excitement first went back to the home of his friend, Pappas, in Fayette street, and told him of his discovery. Pappas, who speaks English fluently, accompanied him to the police station and notified Captain Atkinson, who immediately dispatched Lieut. Duncan, Sergt. Ryan, Inspectors Walsh and Clark and Officer Noyes to the scene. Supt. Welch, Lieut. Martin Maher, Inspector David Petrie and Officer Quinlan arrived at the house shortly after.

Comatos Missing

When the police arrived, Comatos and Capopoulos, who were last seen talking to the victim, were missing, but they showed up shortly after 11 o'clock. When acquainted with the news of the murder, both manifested surprise and seemed willing enough to answer all the questions fired at them by the police. George, Comatos and Capopoulos in turn were taken into a small bedroom and questioned by the police, but their statements did not disclose anything of importance. Later they were taken to police headquarters where they were put through a more rigid examination.

Victim Married

From questions put by the police it was learned that Demos came to this past two years he has worked at the Boot-mills. He has been between 35 and 40 years of age and had a wife living in Greece. Among his effects were found a number of bills from the Lowell General hospital for an operation which he had recently undergone at that institution. According to a statement made by one of his roommates, the man intended to return to his native country as soon as he had completely recovered from the effects of the operation.

Always Got Along Together

In answer to a question by one of the inspectors, George said that the men always got along happily together and there was never any quarrelling. The living apartments of the men were very tidy, considering the fact that there is no woman in the house.

Comatos Changed Shirt

Before going out last evening, Comatos wore a clean outer shirt, but did not change the undershirt on which the blood streaks were found. When questioned at the house before being taken to the police station, he showed less signs of excitement than his fellow roommates, and told a straightforward story. Capopoulos was very nervous and talked in a high pitched voice in answer to the questions of the police. George was visibly affected by his friend's death, but did everything he could to help the police. Pappas who went to the station with George to notify the police headquarters later in

Conference of Leaders With the Municipal Council This Fore- noon—Parade Features Unique

Another conference having to do with Lowell's big celebration on July 4 was held in the mayor's reception room at city hall this forenoon. Present at the conference were Mayor Murphy, Commissioners Morse, Carmichael and Putnam, Major Kittredge and Lieutenants MacBrayne and Sheldon; Capt. of Police Richmond Welch, Fire Chief Edward F. Saunders, Supt. Farrington of the Bay State Street Railway company, and John W. Kerann, superintendent of parks.

It was stated that the parade would be between four and five miles long and that it will require four miles more of wire than is already on hand to wire the streets. The arrangements having to do with the fire department will be such as to obviate the necessity of the department going through Merrimack square except in case of a fire in the center of the city. Apparatus enough will be placed in Centralville and Belvidere to take care of those sections without calling on the center or any other section of the city for assistance. There will be at least five bands and eight drum corps in the parade.

Very Elaborate Feature

The most elaborate feature of the parade, perhaps, will be supplied by the Chinese who will come here from Boston, Haverhill, Nashua and Lawrence. They will be the guests of their Lowell brethren and it is expected that the feature to be presented by them will be a most remarkable one. They will have an elegant float laden with the choicest of flowers and decorated with banners and flags of all descriptions. The 300 or more Chinese who will participate will wear imported silk gowns and the cost of the feature, presented by them will exceed \$1000.

The Ambulance Service

Major Kittredge stated today that he was not sure if it would be possible to get state ambulances. He said that the Sixth regiment would bring its own ambulance corps and suggested that the city ambulances be stationed along the route of parade. It was decided, however, to allow the city ambulances to remain in their accustomed places as persons had become used to calling for them there and no putting in the street might mean delay in the serious cases. Major Kittredge stated that proven guards would be stationed at different sections included in the parade and if they saw soldiers who were misbehaving in any way they would take care of them, and the major also told the superintendent of police that there would be two automobiles, one at the armory and the other in the line of march, to take care of soldiers who stray from the straight and narrow path. He said if the police would telephone the armory the ambulances would go right after the soldier or soldiers.

Start Sharp on Time

Major Kittredge stated that the parade would start promptly on the tick of ten regardless of everything. Chief Saunders will cause one stroke of the fire bell to sound at 10 o'clock and everybody in the city will then know that the parade is in motion. Before that hour the street railway company will halt its cars so as to keep them out of the line of parade and if plans carry, everything ought to work itself out to a nicety. The street railway company will use Page and John streets for parking purposes, and further details as to the parking of automobiles will be given later by the police. The route of the parade must be kept clear of anything in the line of a vehicle and, according to present plans, Warren, Market, Palmer and Prescott streets will also be kept clear. Persons living in the outskirts are advised to view the parade from the point most convenient to them. It was the superintendent of police who offered this advice. He said that the downtown section would be crowded with visitors and he thought persons living in the Highlands and out-Gorham street way would get a better view of the parade and have greater comfort to remain in the outskirts.

Governor and Staff

Mayor Murphy said he would take care of the governor and staff after the review. He said that a buffet lunch would be served either in the public reception room or the aldermanic chamber and that he would arrange to accommodate 100 or thereabout. These would include field officers and officers of the line. It is expected that the Lancers or Troop A of Boston, will be selected for the duty of accompanying Governor Walsh. This troop has always done escort duty to the chief executive of the state. Their uniforms are showy, and they have a long and interesting history. Therefore, they usually claim the right to appear at all state functions.

Municipal Council Invited

At the conference this forenoon Mayor Murphy read a letter from Col. Warren E. Sweetser of the 6th regiment inviting them to spend as much of Sunday at camp as possible, and Major Kittredge said that the council would receive a like invitation from the 8th regiment.

Robert F. Marden, president of the board of trade, appeared at the conference this morning with a sample route or road sign. These signs are to be put up on the outskirts to direct persons from other cities how to get back home and others of them to get the way to Lowell. There was some question as to the advisability of putting up signs to show people out of Lowell, but Commissioner Morse thought it was a good scheme inasmuch as we couldn't keep them here forever. The signs will point the way to Boston, Haverhill, Lawrence, Nashua, Newburyport and other points.

The Marine Militia

The marine militia, the only marine guard in the United States, will participate in the parade. Massachusetts is the only state in the Union to maintain a marine militia, which, so far as its duties are concerned, compares with other marines who do duty aboard warships or at navy yards.

Walter Powers is first lieutenant of the Massachusetts marine guard. The first sergeant of the marine guard is Roy Greenleaf, formerly smoke inspector in this city. The men come from Boston.

STRUCK BY LIGHTNING

HOUSE ON BRIDGE STREET DAMAGED THIS AFTERNOON—PLASTER TORN FROM ROOFS

A ball of lightning struck the chimney of the four tenement dwelling house at 332 Bridge street owned by Maurice Lemplin during the short thunder shower this afternoon. Fortunately, no members of the families living in the house were injured seriously and but little property damage resulted.

Mrs. Joseph P. Gallagher, who occupies one of the upstairs tenements, was struck by a heavy picture which was hurled from the wall as the bolt traveled down the chimney. She was working in one of the bedrooms at the time.

NEW SHOE SHOP

Geo. H. Snow Co. of
Brockton Purchases the
Field-Lumbert Plant

The plant of the Field & Lumbert Shoe Co. in West Adams street has been purchased outright by the Geo. H. Snow Co. of Brockton. The coming of the new concern was made possible through the efforts of the Lowell board of trade through its committee on new industries.

The new owners will continue operating the West Adams street plant, but it is anticipated that the normal growth of the new company will mean enlarged quarters and perhaps a most important shoe shop employing far more help than the present equipment. The deal was consummated late last night, the final papers being made out to the George H. Snow Co., which is one of the largest and most important shoe concerns in Brockton. It is understood that plans are already arranged to double the capacity of the Lowell plant and many new hands will be employed. Russell L. Goggin, who has been superintendent of the Field & Lumbert Shoe Co., is to remain as superintendent under the new management. The company manufactures a slightly higher grade of shoe than has ever been attempted in this city.

and only a thin partition separated her from the lighted room. The plastering of both upstairs rooms between which runs the chimney was torn off as though by an explosion and the mural decorations scattered about the floor. The scared gaps in the wall give mute evidence of the terrific force exerted. Mrs. Gallagher was badly frightened at her narrow escape but suffered no more serious injury than a severe shock to her nerves as the flying picture only struck her a glancing blow.

The firemen were hastily summoned to the house but there was no sign of fire. The bolt evidently took its way straight down the chimney to the ground.

MATRIMONIAL

A double marriage took place this afternoon at St. Michael's rectory, when two sisters, Misses Elizabeth Sullivan and Julia F. Sullivan, were united in the bonds of matrimony to Messrs. Edmund Dery and Hugh F. Reilly, respectively, the ceremony being performed at 5 o'clock by Rev. Joseph A. Curtin. The first couple were attended by the other couple and vice versa. Miss Elizabeth Sullivan was attired in white silk and carried a bouquet of white lilies of the valley, and she carried a shower bouquet. At the close of the ceremony the couple were taken to the home of the bride's parents, 223 Cross street, where a brief reception was held. Mr. and Mrs. Dery will leave this evening for New York and Sherbrook, Que. They will make their home at 3 Dana street, where they will be at home to their friends after Dec. 5. Mr. and Mrs. Reilly will leave for their home in the state of Maine and Providence, R. I. They will be at home after July 10 at 3 Bolton place.

MCCARTHY-REED

Joseph J. McCarthy and Miss Margaret F. Reed were married this morning, the ceremony being performed at 10 o'clock at St. Michael's rectory, the officiating clergyman being the pastor, Rev. John J. Shaw. The bride was attended by her sister, Miss Gertrude Reed, and she wore a gray crepe de chine and a picture hat and carried a shower bouquet of lilies of the valley. The bridegroom wore white embroidered vest and picture hat and carried roses. The best man was Albert Wilcox. At the close of the ceremony the bride and groom were taken to the home of the bride's parents, where a wedding breakfast was served to the immediate families of the couple. Mr. and Mrs. McCarthy were the recipients of numerous costly gifts. This afternoon they left on an extended wedding tour to Providence, R. I. They will be at home to their friends after July 15 at 45 Everett street, Jamaica Plain, Mass. The bridegroom's gift to the best man was a gold mounted pipe, while the bride's gift, the bridesmaid was a solid gold pendant.

MONTY-DONAGHEY

The marriage of Donaghue, a Monty and Miss Lucy Donaghue, two well known residents of this city, took place this afternoon at 3 o'clock at the parsonage of the Lawrence Street Primitive Methodist church, the ceremony being performed by Rev. Alexander Herford. The bridegroom was Miss Mildred Pringle and the best man, Harry Patterson. At the close of the ceremony a reception was held at the home of the bridegroom, Whipple street, West Tewksbury, where the happy couple will make their home.

OSBORN-JAMIESON

William Fairbanks Jamieson and Miss Anna Jane Osborn were married Monday evening at the home of the bride, 20 Burnside street, the officiating clergyman being Rev. Raymond C. Clapp, pastor of the Trinitarian Congregational church. The best man was Arthur Chadwick, and the bridesmaid, Miss Lena D. Fry of Lebanon. The couple are enjoying their honeymoon in the White mountains.

WESTON-ROARKE

A very pretty wedding took place this morning at St. Peter's rectory, when Clarence W. Weston of Manchester, N. H., and Agnes Gertrude Roarke were married by the pastor, Rev. D. J. Keleher. D. D. The bridesmaid was M. Elizabeth Connelin, cousin of the bride, and the best man was the bride's brother, Joseph F. Roarke. Both the bride and bridesmaid were beautifully dressed. After the ceremony a wedding dinner was served at the home of the bride's aunt, Mrs. A. Connelin, 251 Stevens street, but owing to the recent death of the bride's mother, the wedding was restricted to the immediate relatives. The happy couple received many beautiful and costly gifts. After a brief honeymoon trip, Mr. and Mrs. Weston will reside at Chief road, Manchester, N. H. No cards.

DEATHS

HYNES—Mrs. Annie Hynes, widow of the late Thomas Hynes, a Civil war veteran, died today at the state sanitarium, Tewksbury, after a lingering illness. Her remains were removed to the Undertaking rooms of James W. McKenna, 119 Bridge street.

JITNEY BUS IS HERE

Two in Operation on Gorham Street Today—Ten May be Put on Later

Lowell had its first experience with jitney buses today when two machines, belonging to J. C. Scribner and John J. Gardner, Jr., both of Pawtucket, were put into operation for the purpose of carrying passengers from Merrimack square to Gorham street and return. The jitneys proved an innovation to the public of this city and many who seemed to prefer the machines to the street cars were passed because they were not accustomed to signalling the driver.

The jitneys made their first appearance shortly before noon and made several trips from the square to the Edson cemetery and back. No scheduled trips as fast as possible. It was stated that many of the passengers were visitors to the city who have been patronizing the machines in their home cities.

It would appear that local men intend to take advantage of the absence of a city ordinance relative to the operation of vehicles to transfer passengers. City Solicitor Hennessy recently ruled that the license commission did not have the power to grant permits to jitney drivers, and authority would have to be obtained from the municipal council before any action could be taken. The council will consider this matter at its regular meeting next Tuesday.

Relative to his intentions for the future, Mr. Scribner said that if his first machine is a success he will start about 10 vehicles on different routes inside the city limits. His plan is to have the machines on the street in time to accommodate the mill help in the morning and run practically all day if business warrants.

FUNERALS

CONNOR—The funeral of the late William Connor took place this morning at 8:15 o'clock from his home, 6 Oak street and was largely attended. The cortege proceeded to the Immaculate Conception church where at 9 o'clock a funeral mass was sung by Rev. Denis Sullivan, O. M. I. The bearers were James Haley, James O'Connor, John O'Connor, John McNamara, John O'Brien and Fred Wilson. At the grave, Father Sullivan read the committal prayers and the burial was in St. Patrick's cemetery in charge of Undertakers James F. O'Donnell and Sons.

O'BRIEN—The funeral of the late Mrs. Elizabeth O'Brien took place this morning at 8:30 o'clock from her late home, 153 Warren street and was well attended. The funeral cortege proceeded to St. Peter's church where at 9 o'clock a funeral mass was sung by Rev. W. George Mullin. Among the many floral tributes were pieces from Mr. and Mrs. M. J. Monahan, Mr. and Mrs. James Drayton, Miss Catherine and Della McAlley, Mr. and Mrs. J. E. Warren, Mrs. Fred Billingsley, Mary A. Dillon, Maria J. Markham, Mrs. John Gilbride and a friend. Burial followed at St. Patrick's cemetery, where the final prayers were read by Rev. Fr. Mullin. The bearers were Michael Warren, Michael Monahan, John Lamb, Michael O'Connell, Joseph Lambert and Charles Kendall. Undertakers M. H. McDonough Sons had charge of the arrangements.

PERSONALS

Mrs. Nellie Eno of Merrimack street will spend her vacation at Standbridge, Que.

Mrs. A. W. Hughes and daughters, of June street, will spend the summer in Quebec.

Miss Helena Coughlin of Lakeview avenue will spend the next week at Concord Junction, Mass.

Miss Mollie Murphy is spending the summer with her sister, Mrs. William Jordan at Salisbury Beach.

Mrs. F. A. Hardy and daughters, Hazel and Helena, are spending their vacation with relatives at Peak's Island, N. H.

Mr. George Johnston of San Francisco is visiting at the home of his nephew, Mr. Paul Ambrose Johnston, 176 Adams st., this city.

Mrs. George E. Mongeau, her son and daughter, Mrs. Arthur Bernier, are spending the summer at their summer home at Salisbury beach.

Mr. George F. Fralick, of Nineteenth street, has gone on his annual vacation for the rest of the summer to Camp Nanaschaug, Spofford, N. H.

Mr. and Mrs. George W. Foster of Westport and Mr. and Mrs. Walter Gardner of Billerica have returned from an automobile trip to Raymond, N. H.

The following patrolmen are enjoying their annual vacation of two weeks: Messrs. Conway, Ealy, Tansey, Huse, Gorgan, Regan, P. Sullivan, General, Whitworth and Hessian.

Miss Helen Hennessy and Miss Mollie Baysmith will spend their vacation at Moncton, N. B. They left Boston, Monday by boat for St. John and they will go by train from St. John to Moncton.

The many friends of J. J. Z. Roblin

MAN AND SON KILLED

WIFE AND TWO DAUGHTERS UNCONSCIOUS—ATTEMPT TO ASPHYXATE FAMILY

PORT WATNE, Ind., June 30.—Matthew Cooley, 50, and his son, Donald, 16, are dead and Mrs. Cooley and two daughters are unconscious, as the result of what the police say, was a plan of Cooley's to asphyxiate the entire family. When the police forced open the doors of the home they found gas pouring from open jets.

Neighbors say Cooley had threatened to kill himself and family.

REV. DR. MESICK DEAD

WAS OLDEST COLLEGE GRADUATE IN THE UNITED STATES AND 102 YEARS OF AGE

YORK, Pa., June 30.—The Rev. Dr. John Fryer Mesick, who claimed the distinction of being the oldest college graduate in the United States, died at his home here today at the age of 102 years. He was valedictorian of the class of 1834 at Rutgers college.

TO DROP THE CHARGES

NO STRONG EVIDENCE OF ESPIONAGE FOUND AGAINST RAYMOND SMOBODA

PARIS, June 30, 5:30 a. m.—Charges of espionage against Raymond Smoboda, who claims to have been born in San Francisco, will be dropped, the Petit Parisien says, as no strong evidence of his guilt has been developed. The charge of being responsible for the fire aboard the steamship La Touraine has also been dropped.

ARCHBISHOP QUEIGLY DYING

ROCHESTER, N. Y., June 30.—Archbishop James Edward Quigley of Chicago, stricken with paralysis at the home of his brother here, is not expected to survive the day, according to the announcement today of physicians attending him.

THE BEST MADE

WHETHER or not you go in for sports, you're always meeting people before whom you want to make a good appearance.

Well made, well finished footwear lends a dignity and distinction to your dress, added comfort to your feelings, and creates a positive saving in your annual shoe expense.

For the man of exacting taste we recommend the Nettleton make. Their designs are a little more pleasing and refined, and more satisfactory than those less carefully constructed.

Now is the time for best selection.

PORTLAND WON SCOUT SCOUTIN'

First Game of Maine
Trip Goes to Duffs'—
Rain Interfered

(Special to The Sun)
PORTLAND, Me., July 1.—In a game played for the most part with showers falling, Portland beat Lowell at Bay-side Park here yesterday afternoon 9 to 2, the game being called after six full innings, Umpire Bransfield offering "darkness" as the reason.
Paddy Green, on the rubber for Lowell, was effective and Jordan twirling for Portland kept the hits of the visitors down well but runs just would be tallied and that was all there was to it. Lowell's run-getting was begun and finished in short order in the third inning. Ahearn slashed a single and then Paddy Green stepped into one and lifted it over the fence in right field for a home run. It was one of the longest hits ever made here and one of a very few ever placed over the fence.
In the first inning, Portland collected a couple of runs with never a hit nor an error behind either. A base on balls, two futile fielder's choices and three stolen bases, telling the story. In the second session, a base on balls, passed ball, stolen base and then a hit by Jordan scored another run. In the third, Farrell had scored and the bases were filled when Fahey pulled a laugh-provoker through the oddity of the play. He took Hayden's ground-out well but threw wild to first and before the ball was returned to the diamond, the three base runners and Hayden had scampered across with tallies. There had been two out when the foolery was made. In the fifth, Johnny Dowell felt so happy over his hit that he stole second, stole third and then scored on Wright's sacrifice fly.
Catcher Ahearn hurt a finger and retired in the fifth in favor of Green-halge, Lohman going to first base. The score:

NEWARK TRANSFERRED

NEW YORK, July 1.—The Newark, N. J., International league club yesterday was transferred to Harrisburg, Pa., for the remainder of the season. This decision was reached at a league meeting called to act upon the request of the Newark club that the franchise be temporarily transferred. An announcement was made that the first game at Harrisburg will be played with Jersey City Friday. Officials of the league said that no other changes were contemplated.

Kelchener of St. Louis
Americans Has Eye
on Local Club

Charlie Kelchener, scout of the St. Louis American league club in the summer and college professor at other times, has his eye fastened on some player or players of the local team unless all signs fail.
Kelchener has put through the majority of the trades effected by the Lowell team since the franchise was taken up by the present management. Just who the scout has his eye upon now is not known, however, for Charlie never was noted for saying much about his business.
Probably, though, a young man by the name of James Greenhalge, alias "Snubber," is being given careful consideration by the big league speculator. His work with the stick has earned him a reputation all over the league and there isn't a pitcher or a manager in the circuit who does not fear him when he steps up there to the plate. The trouble with Greenhalge is that he hasn't a position. He's too small for a catcher and has never proved himself either an infielder nor a worthy tender of the far pastures. But he surely can clout that ball. If "Snubber" was a second baseman on a left fielder or anything else on a ball club there'd be nothing to it, in fact Lowell would be fortunate in keeping him the remainder of the season.

BRADY LEADS THE FIELD

MAKES ROUNDS OF 73 AND 71 IN MASS. OPEN GOLF CHAMPIONSHIP AT COUNTRY CLUB

BROOKLINE, July 1.—Two brilliant rounds of 73 and 71 were made yesterday by Michael J. Brady of the Wollaston G. C. in the Massachusetts open golf championship at the Country club. Brady finished in the 72 holes stroke competition for the state title. Brady led the field at the conclusion of the day's play by two shots. His total of 144 was two strokes better than Walter C. Hogan of Rochester, N. Y., national open champion last year, whose two rounds of 73 gave him 146.
Close on the heels of the two leaders in Gilbert Nicholls, eastern open champion, with 149. Jim Barnes, the rangy golfer from the Whitehall Valley C. C. finished in fourth place, one shot behind Nicholls, while Francis Quimet of the Woodland Golf club, national amateur champion, and Tom McNamara, runner-up in the recent United States open tournament at Baltusrol, tied for fifth place with 151.
Louis Teller, the French professional, and two local players, Tommy Kerrigan, Dedham Country and Polo club, and George Bowden, Tedesco, tied at 153. Pat Doyle of the Myopia Hunt club had 157 for his two rounds, and Orin Terry of Belmont was runner-up for Brady last year, had 159.

GAMES TOMORROW

New England League	
Lowell at Lewiston.	
Lawrence at Manchester.	
Lynn at Fitchburg.	
Worcester at Portland.	
American League	
Philadelphia at Boston.	
Washington at New York.	
St. Louis at Detroit.	
Cleveland at St. Louis.	
National League	
Boston at Philadelphia.	
New York at Brooklyn.	
Pittsburgh at Cincinnati.	
St. Louis at Cincinnati.	
Federal League	
Chicago at Pittsburgh.	

YESTERDAY'S RESULTS

New England League	
Lynn-Lawrence—rain.	
Pittsburgh-Manchester—rain.	
Portland 9; Lowell, 2 (6 innings, called darkness.)	
Worcester, 7; Lewiston, 2.	
American League	
Boston, 10; Philadelphia, 5 (first game.)	
Boston, 10; Philadelphia, 7, (second game.)	
New York, 4; Washington, 1.	
Detroit, 7; Cleveland, 2.	
Chicago, 8; St. Louis, 6.	
National League	
Philadelphia, 5; Boston, 5.	
Brooklyn, 7; New York, 0.	
Cincinnati, 1; Chicago, 0 (first game.)	
Cincinnati, 2; Cincinnati, 0 (second game.)	
St. Louis, 2; Pittsburgh, 0 (first game.)	
Pittsburgh, 4; St. Louis, 2 (second game, 10 innings.)	
Federal League	
Chicago, 7; Newark, 6 (12 innings.)	
Buffalo, 9; St. Louis, 1.	
Kansas City, 11; Brooklyn, 2.	
Pittsburgh, 6; Baltimore, 1.	

PITCHER BOB SHAWKEY SHOULD BE
BENEFITED BY CHANGE OF SCENE

NEW YORK, July 1.—Bob Shawkey, considered by many the pick of Connie Mack's young pitching stable, has been purchased by the Yankees to strengthen the Yank's overworked pitching corps. Mack took hold of Shawkey when Bob was quite a youth and farmed him out to Harrisburg and Baltimore before he gave him a regular job with the Athletics in 1913. In that year Shawkey won seven games and lost five, while in 1914 he did considerably better, winning sixteen and dropping only two. This year Bob has not gone very well, but there is no questioning his baseball ability. Shawkey should prove a valuable acquisition to the New York brigade, and no doubt he will aid materially in keeping the Yankees well up in the race. The transaction was strictly cash, no other player on either team being involved.

ATHLETES AND ATHLETICS

The Manchester business men certainly appreciate the benefits of a ball club in their city even if the fans do not take kindly to the New England league. A \$3000 was subscribed last night at the mass meeting and this sum purchased half the stock of the team. If the other league owners with the exception of Portland, perhaps could get \$6000 for their franchises right now they'd all go out of business with a rush.

Billy McMahon, the local boy who played the hot corner for us before Fahey's arrival, is giving a correct imitation of efficient shortstop leading over in Worcester. Yesterday Billy clipped out four hits, two of them doubles and turned in a perfect fielding average.

The Worcester scribes appear to be rather tired of the Burket regime in baseball. Although Jesse has always put out a good club over there, the sporting writers are "on him" now. Worcester is in third place at that. What do they expect in Worcester—a championship club every season?

The Red Sox picked up a couple of games at the expense of the lowly Athletics and climbed a little nearer those White Sox. Coniskey's club moved down St. Louis again, making a clean sweep of the series. Tommy Daly, former Lowell catcher, relieved Schalk behind the bat.

Ahearn's split finger which he got yesterday may keep him out of the Lowell lineup for several days. "Snubber" Greenhalge will don the mask and protector in case the manager cannot play and Lohman will fill in at first base. Jack Estes, former Al-bion's league first sacker, was expected to report at Portland yesterday but did not put in an appearance.

Poor Johnny Evers hurt his ankle again yesterday. It is probable that the Braves' captain got into a quarrel too soon for the day before he did not move about with anything like his usual freedom of action. If Evers is laid up for long Stallings' club might just as well give up all thoughts of another crack at the world series money.

The summer inhabitants of Greenfield are greatly pleased over the retention of the Manchester team. After Tom Heady took them into his confidence and told about the unfavorable conditions existing in the New Hampshire city Greenfield thought sure that they had procured a ball club. If the town was just a little nearer and a mile bigger it would be welcomed with open arms.

Ty Cobb didn't get a hit yesterday in the Detroit-Cleveland game. Just think of it! Also he made a misplay in the outfield and failed to swine even one base. We expect those sort of days with other stars but it looks as though Ty must have been sick.

The International league is the latest baseball organization to experience discontent among its magnates. The Newark club has not been drawing well this season and a shift was made in the franchise. From now on Harrisburg will have an opportunity of watching International league baseball.

Victor Linart established a new hour record for motor paced going at the Revue track last night, making 43 1/2 miles in the 60 minutes of pedaling. Leon Didier, the French cyclist, was second but lagged over a mile in the race at the finish.

SOMERS REFUSED \$15,000

DETROIT, July 1.—It was reported yesterday that Charles A. Coniskey, owner of the Chicago White Sox, had made an offer of \$15,000 to the Cleveland club for Roy Chapman, the shortstop, and that Charley Somers had turned it down.

This week is "Quarter Week" at The Lowell Five Cent Savings Bank.

BURNS IS THERE

Portland Centerfielder
Looks Like One of the
Best of 'Em

We hear a great deal of talk about the sprinting abilities of Porter of Lynn, O'Connell of Lawrence and of Moloney and Becker of Lewiston but there's one outfielder in the circuit that seems to be overlooked when the speed boys are coming in for honorable mention. Joe Burns, Hugo Duffy's center fielder, looks as good to us as any of 'em and then some.
Burns in our estimation is a faster man than any of the outfielders referred to with the possible exception of O'Connell of Lawrence when it comes to pulling down long drives. He has the true outfielder's instinct of judging a line drive the moment it leaves the bat.
He is a big man and can pound the dirt going around those bases. His home run in Lowell Tuesday would have been a triple for the majority of the league's speediest men. Burns looks to be just about the cream of the New England outfielders.

MANCHESTER TO STAY

WILL CONTINUE AS A MEMBER OF NEW ENGLAND LEAGUE—BUSINESS MEN BUY STOCK

MANCHESTER, N. H., July 1.—Manchester will continue in the New England league. This was determined at a meeting in city hall last night over which Mayor Spaulding presided. The hall was crowded with enthusiasts, and \$1 shares of the value of \$25 each were subscribed at the meeting and A. B. Jenks, president of the Manchester Publicity association, guaranteed an amount sufficient to make \$3000.
Messrs. Kierman, Smith and Ready, owners of the club heretofore, will be members of the board of directors and Mayor Spaulding and three other Manchester men will be added, making a majority of the directors Manchester men.
Enthusiastic addresses were made by Mayor Spaulding, Mr. Jenks, ex-Congressman Eugene E. Reed, W. C. Carroll, Arthur W. Childs, Jos. R. Pradd, John Smith, Albert Ruemely and Everett Staples.

A committee consisting of Mayor Spaulding, ex-Congressman Reed, P. P. Pillsbury, A. W. Ruemely, E. W. Bourne, A. B. Jenks, Carroll, E. King and Edwin A. DuBar was appointed to canvass for stock subscriptions. The meeting is taken as a guarantee that Manchester will be more of a factor in the New England league race than heretofore.

AMATEUR BASEBALL

Ha! Ha! Here we are—the Young Red Sox. You can tell us by our stockings. Everybody knows the Young Red Sox are the greatest team of their size in the city. We want to challenge any 7 or 8 year old team in the city. We can bat and run bases to the band and know a lot of inside dope. If you want to get beat, play us. Here's our lineup: J. Mack, E. Lindville, A. Alfano, R. Foster, B. G. O'Loughlin, B. T. Durant, L. Gail, J. R. F. O'Connor, E. O'Connor. Send all challenges through this paper.

The Hildreth A. C. would like a game for Saturday, July 3d, with any 12-14 year old team in the city. The Hildreth A. C. is a fine bunch of ball players. We have bent teams that are 15 years old, but we ain't as old as that. You can challenge us through this column or through Albert Coan, 125 West street.

Did you ever hear of the Rovers? If you didn't you can't know much that's going on. The Rovers are one of the finest ball teams in the city. They are about 12 years old but one or two fellows are 15. They can play ball as fast as some of the league players. They have won five games and lost none. They are giving the other teams the lid.

The Franklin A. C. Seconds is the team that is making them all take to the tail timbers. This team is so good that they have hard work finding anybody to play with. Sometimes we have to play with the other fellows so as to give the other fellows a chance, but we always beat 'em just the same for we got some awful sluggers. We are 10 years old, but we ain't as old as that. You can challenge us through p. T. Prindville, c. E. Donovan, 11, W. Boland, ss, J. Prindville, 2b, T. Stapleton, 3b, J. Cassidy, rf, J. Mack, cf, E. Prindville, lf.

DIAMOND DAZZLES

Since Charlie Press, Clarence Robinson, "Alfie" Moulton and Jack Hoey have been released by Lynn and gone to Fitchburg there is more than one critic around the circuit singing out that old cry of syndicate baseball. Louis Pieper and Dan Noonan are probably the five baseball city, and that's about all there is to it. These players would not have left Lynn if it was thought that they were needed here.—Lynn Telegram.

Disgusted with the general conditions and weak support given the clubs throughout the circuit and satisfied that a change is needed in the New England league magnates are now

ELIENSKY WILL TEST ENDURANCE TO
LIMIT IN SWIM OF NIAGARA RAPIDS

Harry Eliensky, the famous swimmer who has performed some remarkable feats of strength and endurance in the water during the past few years, has declared his intention of swimming the Niagara rapids some time in August. This feat, which caused the death of Captain Matthew Webb some years ago and has been tried since with all manner of safety appliances by a number of aspiring amateur and professional swimmers without success, will put Eliensky's endurance and swimming ability to a severe test. The blonde aquatic marvel, however, is not worrying over the possible outcome of his attempt. On the contrary, he is supremely confident that he will accomplish the feat with comparative ease.

looking with an anxious eye at Springfield and Hartford, two fine baseball cities, which were not considered good enough for the league early in the spring. The members of the Murrane league, who refused to listen to the plea of the fans and scribbles to consolidate their best cities with those of the Nutmeg state, are now entirely converted to the fact that the fans are much wiser than they thought, and are now kicking themselves that they did not join hands with the Eastern Association forces, instead of trying to plod along at the same old lifeless pace. Opportunity knocked at their door and they refused it, and now they are praying for its return so they can get a strange hold on it. Once it gets away again.—Worcester Post.

Tanny White, the New England league umpire, anticipated Boston's latest American league edict by several days, so far as the New England league is concerned. Tanny took rasin away from Barron, the Lawrence pitcher, at Portland two weeks ago.—Boston Journal.

Sherwood Magee has proved a disappointment to Stallings, who traded White and Duffy for him. It looks as though the Phillies got all the best of the deal.

WILSON GROWS STRONGER

The influence of President Wilson on the country grows stronger as his problems grow in magnitude, and at this time he would, without question, be the choice of the country for chief executive, should his popularity be put to such a test. He has not failed the American public in any important matter, but he has shown real greatness in handling the most delicate international questions. The grave issues of the war have overshadowed every domestic policy, and while the war lasts or while there is any danger of this country getting into trouble with any foreign power, the American people are willing to follow the guidance of the rarely prudent and patriotic man who has shown so many great qualities of statesmanship.

When, recently, William Jennings Bryan let himself out of the cabinet for reasons which only he really knows, some prominent papers referred to the resignation as the political death of President Wilson. Remembering that the support of Bryan was the strongest factor in the famous Baltimore convention, many superficial commentators believed or professed to believe that the withdrawal of that support would endanger the president's political future. They forgot that circumstances had altered the situation very materially since the Baltimore convention and that Wilson had arisen in the popular estimation in the same proportion as Bryan had lost caste. Few believe that the professed admiration of Bryan for his former chief is sincere, but it is the growing conviction of the country that the opposition of Bryan would be a benefit instead of a detriment to President Wilson.

It is not unusual today to find some very prominent republicans coming out in unqualified commendation of President Wilson and pledging him their support. A notable instance is that of E. T. Bedford, capitalist and life-long republican—published in the Brooklyn Eagle, a republican journal. Mr. Bedford, who approves of the president's trust policy and war policy, is quoted as saying in part:

"President Wilson has been weighed in the balance and hasn't been found wanting. Big business, little business and every kind of legitimate and wholesome business have watched him for the past two years and the conclusion of all honest investigation is that the country is commercially, industrially, financially and politically safe in his hands. At first, I will admit, I was a little timid regarding him, but that timidity has given place to enduring confidence. I am convinced that no wholesome or legitimate business has anything to fear from him. This coming from a life-long republican may sound strange in your ears, but the words express my honest convictions."

It is only by comparison with some recent presidents that the real strength of Wilson can be estimated. Ex-President Roosevelt has a large following still in the country, but who, outside of the rabid jingoes, would want to see him president at this juncture? The man on the street persists in declaring that were the strenuous statesman in office now we would be in the world war, and the country does not doubt it. One false step by President Wilson would create a critical situation, and it would be the easiest thing in the world for the chief executive to manufacture an artificial war sentiment. Now, the American people have thought our various war problems over, and there is no unqualified support for the dignified and vigilant peace policy of the administration.

Ex-President Taft would no doubt make an excellent president at this time, but we know his attitude. He has declared himself in absolute support of President Wilson and asked that the American people give their leader a full measure of loyalty. Aside from a very small knot of malcontents, this support of the administration is universal, and it is not confined to the democratic party by any means. Financiers, manufacturers and leaders of big business who professed fear of Wilson at time of peace now make no secret of their gratification that the country has such an ideal president at this time of danger to the nation and its interests. Unless something unforeseen happens, or unless the world situation changes very suddenly, the man is not in sight who can beat President Wilson for re-election in 1916.

THE BRIDGE PLANS

The municipal council, or at least those members of it who voted to build a new bridge contrary to the spirit of the charter, business methods and common-sense has something to think about just at present. Serious doubts have been expressed as to the proposed plans, and from a quarter that commands attention. Engineer Mills of the Locks and Canals corporation has protested strongly to the land and harbor commission, declaring that the proposed arches of the new bridge may so impede the flow of water as to constitute a serious menace. The Locks and Canals corporation does not oppose a new bridge, but does emphatically oppose the style of bridge selected by our officials on the unsupported word of an out-of-town "seller of bridges."

If any body of men in Lowell are fitted to speak with authority on the technical problems of the new bridge, it is the officials of the corporation in question. It is their opinion to study freshets, keep records of water pressure at various times, watch the rise and fall of the river and estimate the volume and force of the currents passing through the arches. Consequently when they allege in a letter to a state commission that the proposed style of arches is dangerous, Lowell cannot laugh at the charges. Neither can the municipal council satisfy the Lowell public by quoting Mr. Denman to the contrary. The proposed bridge will cost altogether too much to reconcile us to any possibility of seeing it fall down the next time a freshet starts on the river.

The engineers of the Locks and Canals state that the thick arches will offer too much obstruction to the river and that therefore the strain from the force of the current may be greater than the bridge can stand. They evidently think that Mr. Denman does not take this into consideration and merely plans for a new bridge as though it were to span still water. Prof. Swain will also pass upon the plans assuming that the chief question is to get a bridge that will bear its own weight and whatever weight may be superimposed. In the present case the bridge in question will also have to withstand floods and freshets, ice gorges and water pressure of vast momentum. The bridge must be strong enough to withstand the shock and it must not be so massive as to obstruct the free passage of the water. This phase of the problem should be fully investigated before a hand is laid to the actual construction. We do not care to take a chance in giving Mr. Denman a proof that his bridges sometimes fall down.

If anything further were needed to

prove the folly of the action of the municipal council in this whole matter, it is afforded by this development. There should have been no guesswork or uncertainty but definite plans drawn up by an expert of unquestionable authority, with every technical point worked out in the fullest detail. The four members of the municipal council who have muddled this matter so thoroughly have assumed an enormous responsibility without justification, and they now stand in the position of backing one out-of-town authority—who can hardly be called disinterested—in opposition to the experts of the leading water power company in the city. Lowell would like to get the individual views of the four members of the council who want a bridge built backwards, on the letter of Mr. Mills and the serious possibilities it portends.

Will the mayor be as contemptuous on this phase of the matter as he was concerning the possible attitude of the Bay State railroad? Then he declared that he did not care a straw for the opinion of the company, or something to that effect—something catchy to the ears of the voters. He has declared that he will have the bridge inspected, before he accepts it. Probably that should make us feel safe—the Locks and Canals experts to the contrary, only if Mayor Murphy still persists in his original intention, he ought to plan for an expert examination of the arches every spring when the freshest season is on. Eighty thousand dollars would be a lot of money to throw away on wreckage. Safety first applies here very directly, and the wise city official will heed it.

ASQUITH ADVISES THRIFT

The serious economic problems confronting England were very strongly outlined by Premier Asquith in a meeting held last Tuesday in London. In the interest of national economy, the nation that set out to starve Germany financially and literally cannot disguise the fact that there is a possibility of that fate overtaking itself. It is to avert such a catastrophe, which would nullify the splendid effects of England's fighting everywhere, that Asquith and Lloyd George are now appealing in plain terms to the British peoples.

Premier Asquith told the English public that the first year of the war will cost England at least five billion dollars, and that the nation will have to save and become highly efficient to meet this without general hardship. He stated that under normal conditions England can spare only three or four hundred millions a year, and that the present state of the trade balance affords ground for serious thought.

The daily expenditure now is something like \$15,000,000, and to meet it the general thrift is strictly necessary. The premier put the case strongly and directly in the following words: "Waste on the part of either individuals or classes, which always is foolish and short-sighted, is in these times nothing short of a national danger."

Taking these plain statements and those of Lloyd George as to the need for increased munitions of war in connection with the prediction that the war may last two or three years, it may be seen that England's position is by no means enviable. Such things justify one in thinking that in this war, neither side can win, for the drain will be so enormous that nothing but time can repair the injury. So far as one may judge over here, England has been inclined to look upon victory as assured, and the masses have not regarded the war in its true light. The gravity of the situation is now only too apparent in the speeches that the government makes to the English people.

A CONTRAST

A report of the 19th general assembly of Illinois which has just come to hand affords an opportunity for a very significant comparison with the report of the Massachusetts legislature which closed a few weeks ago. According to this record 316 bills have been submitted to the governor of Illinois; 1531 bills were presented in all—394 in the house and 554 in the senate.

How does this compare with Massachusetts? Our legislature had enacted 304 general acts and 354 special acts in that time, with 117 resolves, making a total of 515, as compared with the 316 of Illinois. This comparison would lose its especial force were it not remembered that the Illinois body meets only every two years, while we have annual sessions and long sessions to boot. If all of our laws are necessary, Illinois, which has almost three million people more, must be in sad need of legislation, but apparently such is not the case, since Illinois is a law-abiding and thriving state, full of wealth and enterprise.

Massachusetts has too many laws, and the grist piles up year after year. A combination of causes has created a situation in which quantity and not quality seems to be the aim of our legislature, and the most trivial things are made the subject of legislative interference.

Tired, Aching Muscles Relieved

Hard work, over-exertion, mean stiff, sore muscles. Sloan's Liniment, highly applied, a little quiet, and your soreness disappears like magic. "Nothing ever helped like your Sloan's Liniment. I can never thank you enough," writes one grateful user. Stops suffering, aches and pains. An excellent counter-irritant, better and cleaner than mustard. All Druggists, 25c. Get a bottle today. Penetrates without rubbing.

investigation and activity. Instead of aiming to teach the immigrant the American laws, the state will soon be compelled to educate its people on the laws passed by the legislature, if the present tendency keeps up. When lawyers give up the struggle of trying to keep posted on our annual list of state laws, how can the ordinary citizen hope to keep track of them? It is about time that we demanded quality on Beacon hill and condemned the enormous quantity of legislative acts. If Illinois can get along with 316 laws every two years, we ought to be able to.

O'DONOVAN ROSSA

The passing of the fiery-souled O'Donovan Rossa, whose name was once a power to be reckoned with in Ireland, England and America, will wake a thrill of sad recollection in Irish hearts in all parts of the globe, for the dead patriot was most intimately linked with the Irish cause. Before the days of later parliamentary agitation, the Fenian movement and the various ideals which kindled around it did a great deal to keep the spark of nationality alive in Ireland, and no individual had a holdier part than the fine old man who, for the first time in his long life, is really at rest. O'Donovan Rossa was a rebel of the rebels, but he was sincere in his convictions and lofty in his motives. He honestly believed that only by physical force could Ireland be made what he wished to see it, and he held to his views in days of a more gentle creed.

SEEN AND HEARD

Owen Monahan says lots of garden snakes pass over the back fence.

An Illinois editor has discovered a way to get rid of mosquitoes. All you have to do is rub alum on your face and hands. "When Mr. Mosquito bites you, the alum puckers up his little whanderson so he can't sting. Then he becomes alarmed and sits down in a damp place and tries to dig the pucker loose. This takes him so long that he catches cold and dies of pneumonia."

NOT TAKING ANY CHANCES

Clanney and Brophy had been elected delegates to the national convention of an organization of which both were members. The convention was held in New York, and the first night they were there they decided to eat in the swell restaurant of the hotel. The waiter and tango stunts amazed them a little, but they managed to get a square meal. When they had finished, the waiter said: "I shall bring you a couple of demitasses."

"I should say not," replied Clanney. "Somebody might see them sitting here with us and tell our wives."

HURRAH FOR LOWELL

The editor of this column has received a letter mailed in St. John, N. B., relating a little incident on the boat to St. John. Our correspondent is a Lowell man and this is what he wrote: "I met a couple

and when the hope of attaining success by force was practically crushed. Many of his former associates lived long enough to see that other times called for other methods, but Rossa was the implacable foe of what was to him, tyranny and injustice, and he died with the same sentiments he held when he suffered so grievously in English prisons, and when his fiery appeals waked a sense of shame in the heart of England. Many who do not now believe as Rossa always believed will mourn him as a noble patriot and a man of exalted character who, by his life and teachings left a high ideal to his countrymen. Rossa was a consistent rebel who, however, never did anything to hinder any movement that would benefit Ireland."

AN ANXIOUS TIME

No move of the war has been watched more eagerly throughout the world than the present drive of the Austro-Germans against the Russians, for on its outcome a great deal depends. Up to the present unprecedented success has graced German defensive tactics, but now that the Russians have been driven into their own territory, the outcome is in doubt. Should Russia be able to make a determined stand, German success will mean little in a broad sense, as a large German army must still remain in the east. Should the German forces succeed in reaching Warsaw as they apparently desire, Russia will be of little use to its allies for many months to come.

of Lowell girls on the boat coming down and one of them was seasick. She was leaning over the railing when a big red-faced individual came along and said to her: "What's the matter, little o-o, feeling the seas?" The question annoyed her and turning her ashen face to him she said: "No, I'm a German spy and I'm signaling to the submarines." We know the girl and just for that we believe the story.

HONORED THE FLAG

"The greatest tribute I ever saw paid to the Stars and Stripes," says Col. Payson Bradley, past commander of the Mass. C. A. R., a former Methuen resident, "was not on American soil. When the Ancient and Honorable Artillery landed at Liverpool on its visit to England in 1886 the line of march was crowded with over 100,000 persons. When we unfolded 'Old Glory' we were struck with surprise at the cheers which went up from those English people. As we marched along, every man from the Prince of Wales to the lowest hooligan took off his hat while the Stars and Stripes passed. I would like to see that happen once in Boston or New York before I die."—Lawrence Telegram.

TEMPORARY MADNESS

The fashions are undeniably charming, and an episode in their honor was related the other day by Lieut. Barnes at Annapolis.

"A very pretty girl," he said, "was

motoring on a recent afternoon with a young man when, without a word of warning, he put his arms around her neck and kissed her.

"She was terribly enraged. She had the young man arrested. And she described angrily court how he had seized at her in silence, and then had seized and kissed her on the lips.

"The young man, making no defense, the jury retired. A verdict of guilty was confidently expected. But on the jury's return, the foreman asked permission to put two questions to the plaintiff.

"Were you wearing, Miss—so ran his first question—were you wearing, when this young man, that black velvet turban cocked over your left eye?"

"Yes," she answered, smiling.

"And you were wearing," the foreman pursued, "that sable mantle with the Elizabethan ruff?"

"Yes," she said again.

"Then," said the foreman, firmly, "I have to announce that this jury acquits this defendant on the ground of emotional insanity."

THE LAND OF "PRETTY SOON"

I know of a land where the streets are paved with things we meant to achieve. It is called with the money we meant to have retired. A verdict of guilty. And the pleasures for which we grieve.

The kind words unspoken, the promises broken. And many a coveted boon Are stowed away there in that land The land of "Pretty Soon."

There are uncut jewels, of possible lying about in the dust, And many a noble and lofty aim Covered with mold and rust.

And oh, this place, while it seems so near, Is farther away than the moon! Though our purpose is fair, we never get there— The land of "Pretty Soon."

It is farther at noon than it is at dawn, Farther at night than at noon; Oh! let us beware of that land down there— The land of "Pretty Soon."

—The King's Own.

Luke McLuke says:

The reason why a woman never succeeds when she marries a man to reform him is because she forgets to take a course of lessons in the art of snake charming.

This is a queer world. In one end

Your Opportunity to Visit California

No doubt you would like to visit California this year, during the Expositions at San Diego and San Francisco.

But how to go, and what will it cost? I want to tell you all about our "Personally Conducted" Parties, and how you can join one, travel comfortably in through cars at much less cost than by the usual way, and at the same time see the most famous and interesting mountain scenery in the world. Denver—the Colorado Rocky Mounts—Salt Lake City and the Sierra Nevada. That's the Route, and our special all the way conductor is on hand to tell you about it and look after all the details.

Call or write and let me tell you about these "Personally Conducted," low fare parties to California that have helped to make the "Burlington Route" service famous. Alex. Stocks, New England Passenger Agent, C. B. & Q. R. R., 261 Washington St., Boston.

or town a woman who has denied herself enough to eat so that the children might have milk for supper will pick up a piece of newspaper and see a big headline over the news that a woman in the other end of the town has just paid \$10,000 for a Pekinese poodle.

After they have been married for a few years a woman begins to notice that her husband doesn't look at her as eagerly as he looks at other women.

So many men are wearing those passionate, wide-collared, open-at-the-snowy-white-throat shirts this summer that a common, ordinary mutt doesn't know what to think of things in general.

The reason why a girl hates to hear you say that she is pretty is because you have to hear her say that she is ugly. A man doesn't mind paying his hear bill, but it is different when his water bill comes in.

Start to praise a man and your audience will begin to yawn. Start to praise a man and your audience will sit up and pay attention.

When a man can't make a living any other way he becomes a reformer and finds plenty of grouches to finance a Society for the Prevention of Something.

After a man has been married for a while he begins to wonder why they were ever called the weaker sex.

When a man hates another man he goes around and tells everybody but the man he hates that he hates him.

The woman who spends all of her time trying to shine in society always gets mad when her nose gets the heat.

The fellow who remains in the hay and pounds his ear until noon usually spends the rest of the day whining that he can't get up in the world.

A man doesn't mind paying his hear bill, but it is different when his water bill comes in.

Start to praise a man and your audience will begin to yawn. Start to praise a man and your audience will sit up and pay attention.

When a man can't make a living any other way he becomes a reformer and finds plenty of grouches to finance a Society for the Prevention of Something.

EDITORIAL COMMENT

AMERICA FOR PEACE

At Springfield somebody asked the president to keep them out of the war, and he promised to do it if he could. The sentiment of the mass of humans in this country is for peace if it can be kept with any degree of honor, and to stand by a list of other now and then rather than to plunge into the mire, bother that might mean loss of lives and limbs and health.—Brooklyn Enterprise.

SOME SARCASTIC

The New York Times has discovered a piscatorial trainer who teaches dogfish to announce the approach of submarines by arising to the surface and barking. This should appeal to the visionary mind of Secretary Daniels. Their education could doubtless be extended to trailing our broken down submarines.—Portland Express.

A KIND WORD

As for the former secretary in retirement, what are we to do save to wish him well? Mr. Bryan's true character has been distorted by his sworn foes. One can hardly blame him for his bitter outbreak against the metropolitan press which has left him returned to defend him. He was a misfit in the state department and would be, we believe, in any executive office. But he knows it, and it is better that he probably does. He has plenty of opportunities for usefulness left.—Woonsocket Call.

HOLLAND

Belgium has been a frightful object lesson to Holland. One person in every seven in Holland at the present time is a Belgian refugee. These people have brought with them into almost every home in Holland stories of German rule and German oppression. Holland can hardly avoid contracting strong feelings on the subject, especially when the question is put, "What if it should be of military advantage to Germany to do to Holland what has been done to Belgium?" German strategy believes that a strong offensive is the best defensive. Holland may take the same idea for itself and put it to application.—Lynn News.

MAKE IT SANE

For two years New York has had no Fourth of July fatalities, although each year some injuries, as against 22 deaths so recently as 1907. The sane Fourth Idea has thus proved practically. Keep up the good work there here and everywhere.—Boston Herald.

HAT BLEACHERY

The Last Drop as Good as the First

SOCONY Motor Gasoline—"Standard Gasoline" as veteran motorists know it—is a straight-distilled, homogeneous product, every drop the same as every other drop. It makes your engine quick-starting always—whether your tank is full or nearly empty. It is the best gasoline that can be made. It is the cheapest to buy, because there are more miles in a gallon.

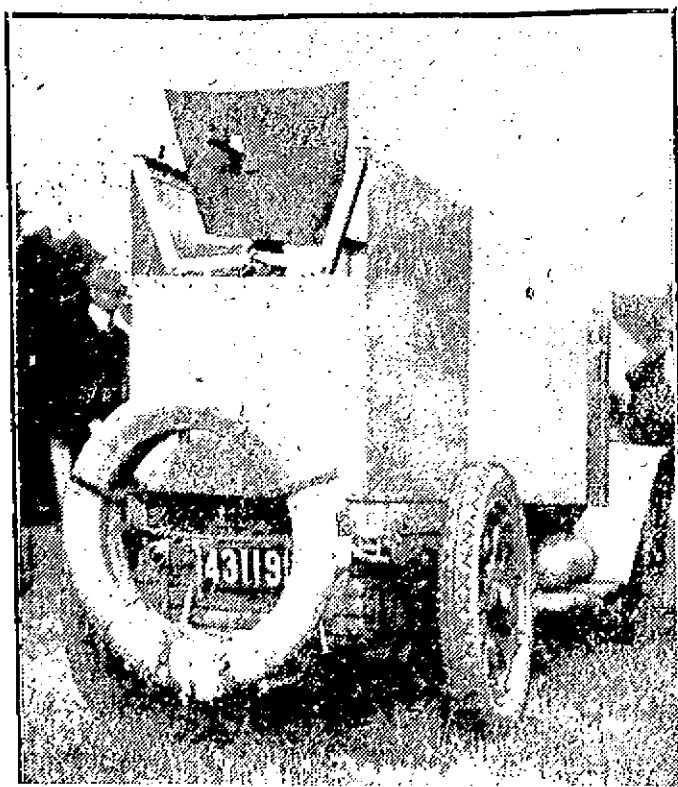

SOCONY Motor Gasoline and POLARINE, the cold-proof, carbon-proof oil for all motors, are on sale at garages and supply stations displaying the red, white and blue SOCONY Sign.

Look for the sign—It is the sign of quality.

ARMORED AUTO TO APPEAR IN MONDAY'S PARADE WITH 8th REGT.

ARMORED AUTOMOBILE

The above picture is that of the armored car of the Eighth regiment, M. V. M., which will take part in the July 6th parade to be held in this city. This car is the only one of its kind in New England attached to a regiment and will undoubtedly attract considerable attention.

The car will be brought over the road Saturday night and all day Sunday will be located at the camping grounds of the Eighth regiment in Andover street, the regiment coming from

Lynnfield, where its members are now doing camp duty.

The car is armored with steel plates thick enough to stop rifle fire. There are port holes in the front, rear and sides for rifle fire or machine gun work. The gun is mounted for rear guard action, in case of retreat. The front of the car is also armored so that the chauffeur is thoroughly protected. The car is quite an attraction and this will be its first appearance in Lowell.

VERY SEVERE LOSSES VIOLATING LIQUOR LAW

CONSTANTINOPLE REPORTS ANGLI-FRENCH FORCES REPULSED BY THE TURKS

AMSTERDAM, via London, June 30. 4.37 p. m.—An official communication issued at Constantinople today announces that the Anglo-French forces on June 28 thrice attacked the Turkish left wing at Avri Burn and the Turkish right wing at Seddul Bahr, but that they were repulsed on both occasions with very severe losses.

The Turkish center, the statement adds, in the course of counter-attacks captured two lines of allied trenches, inflicting great loss, and silenced the allied batteries on Cape Teph.

ACQUISITION OF LAND

CITY CAN ACQUIRE LAND BY RIGHT OF EMINENT DOMAIN WITHOUT LEGISLATION

There has been more or less talk at city hall and elsewhere as to the acquisition of land by cities, the question arising as the result of the proposition to seize land in connection with the proposed bridge at Pawtucket falls and the extension of Dunmer street.

In answer to this, attention is called to the fact that Governor Walsh has signed the bill providing for the acquisition of land by cities. Under the new law a city by vote of its council and with the approval of the mayor, and towns by a vote of the town meeting, may acquire land for municipal purposes and in case the price asked exceeds the assessed valuation by more than 25 per cent, the city may take land by right of eminent domain without going to the legislature. The owner of property still has recourse to the courts.

REV. W. F. BERRY CHARGES LAW NOT ENFORCED IN THREE MAINE COUNTIES

AUGUSTA, Me., June 30.—Charges that the prohibitory liquor law is not being enforced in Penobscot, Knox and Androscoggin counties were made today by Rev. Wilbur F. Berry, secretary of the Christian Civic League of Maine, in a long statement which he read to the governor and council. When it had been concluded, he was questioned by Gov. Curtis about different phases of the enforcement or alleged non-enforcement of the law in those counties, but no action was taken.

Dr. Berry described the results of investigations of conditions in the three counties by agents of the society, whose reports were said to show that the law is being violated especially in the cities of Bangor, Oldtown, Lewiston and Rockland.

TO CLEAN THE STREETS

COMMISSIONER MORSE WILL PUT STREETS IN CONDITION FOR JULY 5—SALE OF LOTS

Charles J. Morse, commissioner of streets and highways, will see to it that the streets are in the pink of condition for the parade on July 5. It was suggested to Mr. Morse that the streets be cleaned on Saturday night, but Mr. Morse said that would be a useless effort as the clean-up wouldn't last over Sunday. Mr. Morse will put gangs of men at work early Monday morning and all of the streets included in the route of parade will be given a thorough cleaning before 10 o'clock.

Sale of Lots on Commons
John W. Kernan, superintendent of parks, gave out today that the money collected on lots on the South common exceeded \$3500 and there are 70 more

FRACTIONAL DECLINES

FURTHER UNCERTAINTY REFLECTED IN EARLY DEALINGS—STAGNATION IN AFTERNOON

NEW YORK, June 30.—Further uncertainty was reflected in initial dealings on the stock exchange today with fractional declines in a number of leading shares. The low priced railways showed increased heaviness, Missouri Pacific falling 1/4 to 120 3/4, repeating its low record of the early year. United States Rubber was the only industrial to manifest strength, retaining 2 points of its recent loss. War shares were neglected with a decline of a point in Goodrich. Reading soon recovered from its opening setback with general improvement elsewhere. Every important stock in the international list was lower in London declines extending to a point in Canadian Pacific, St. Paul and Pennsylvania.

Prices continued to fluctuate irregularly during the dull first hour with increases on the part of the New York Central and Canadian Pacific were among the few railway issues to make any headway. Bethlehem Steel, American Smelting and other metal stocks were fairly strong, as also was Mexican Petroleum. Rubber lost much of its advance, but other active industries, notably United States Steel, Western Union, further weakness in foreign exchange exercised a restraining influence. Bonds were heavy.

Stagnation prevailed in the early afternoon when the reactionary trend became more pronounced. Minor railway shares showed increasing weakness, Missouri, Kansas & Texas preferred losing a total of 1/2 points, and making a new low record at 24. Standard issues made general recovery in the final dealings with some heaviness in specialties. The closing was steady.

MONEY MARKET

NEW YORK, June 30.—Mercantile paper, 3 and 6 months, 4 1/2; demand, 4 1/2; cables, 4 1/2. Demand, 5 1/2; cables, 5 1/2. Demand, 5 1/2; cables, 5 1/2. Demand, 5 1/2; cables, 5 1/2.

COTTON MARKET

NEW YORK, June 30.—Cotton futures opened steady. July 5, 33 1/4; August 5, 33 1/4; September 5, 33 1/4; October 5, 33 1/4; November 5, 33 1/4; December 5, 33 1/4; January 5, 33 1/4; February 5, 33 1/4; March 5, 33 1/4; April 5, 33 1/4; May 5, 33 1/4; June 5, 33 1/4.

EXCHANGES

NEW YORK, June 30.—Exchanges, 129,426,531; balances, 116,735,251.

good lots for sale there. Mr. Kernan says he will sell 100 lots on the North common, but that the sale will not take place until the morning of July 5 and the purchasers will be obliged to remain on their lots. They will not be allowed to go about the common selling their wares.

TO THE ZIONIST CAUSE

NATHAN STRAUSS DONATED HIS STEAM YACHT, SICILIAN, VALUED AT \$35,000

BOSTON, June 30.—Nathan Strauss of New York today donated to the Zionist cause his steam yacht, the Sicilian, valued at \$35,000. The presentation was made at the conclusion of the day's business session of the Zionist convention. The yacht has been turned over to a provisional committee and the proceeds resulting from its sale will be added to the fund of \$100,000 pledged since the convention opened.

The Federation of American Zionists voted today to combine with the Hebrew Teachers' association of the United States and Canada in the organization and maintenance of Hebrew schools for the purpose of inculcating more firmly in the minds of Jewish children the ideals of the Hebrew race and to foster the teaching of the ancient Hebrew language.

It was announced today that the Order of the Sons of Zion had received from the state a corporation charter permitting it to do business as a fraternal insurance society.

CARPET MILLS TO CLOSE

Notice has been given out at the Bigelow-Hartford Carpet mills that on July 3 work will be suspended for two weeks for the purpose of stocktaking. It is denied that the company intends to remove its business from this city.

REAL NAME IS C. BACON, According to Mrs. S. N. Denham

NEW YORK, June 30.—The real name of the mysterious Oliver Osborne is C. Bacon, according to Mrs. S. N. Denham, his landlady, who testified today as a witness at the trial of Maxwell and David Slade, lawyers, and Albert J. McCullough, a private detective, in the federal court. It was in her home that the trunks of Oliver were located by postoffice inspectors.

Mrs. Denham identified clothing passed to her from the trunks, which were at the court room as that which she had seen Bacon, or Oliver Osborne, wear. On cross examination, the witness said that mail addressed to Oliver Osborne had been delivered at her house. The first two letters she marked "not here" and re-posted. The third was a registered letter and she signed for it. Because, she said, she knew by that time that Bacon went under the name of Oliver Osborne.

She said she placed the letter on her boarder's table and that the following day he handed it back to her with "opened by mistake" written on the envelope. Other letters delivered by messenger and addressed to Oliver Osborne, were turned over to Bacon, a witness said, and he kept them.

Mrs. Denham said two girls had inquired at her home for Oliver Osborne but were told no such man lived there. Miss Blanche Ungar, a stenographer who worked across the way from the boarding house, testified that Oliver had sent her three notes asking her to meet him. She refused to do so.

The first one, she said, was handed her after Oliver had stood at his window and attracted her attention by waving at her. The notes, couched in evasive terms, were read to the jury. Later Oliver was introduced to her in her office, she said, by another girl. He called a second time at her office last February and she saw him no more.

SUES THREE CONDUCTORS
SPRINGFIELD, June 30.—The suits of the Springfield street railway against three conductors to decide a question that resulted in a strike of the trolley employees, which began April 1, was begun before Judge Walter Perley Hall in a special jury-waived sitting of superior court. The defendants and the amount which the company alleges they converted to their own use, are: Timothy B. McCarthy, \$225; Lawrence J. Ryan, \$435, and Francis Mulehry, \$225. It is asserted that if the court finds for the defendants the men are to be reinstated with pay.

WHAT THE FRENCH MAID SAID

MAKING HANDY SCRAP BOXES

"All the girls are making something for our lawn fête, now what can I make?" questioned puzzled Marjorie. "Why not make some scrap boxes," suggested Marie. "They are pretty and make a brave showing at very little cost."

"You would be just the thing if you would tell me how to make them," pleaded Marjorie.

"Use a foundation of stiff cardboard, the covering for these boxes usually matching the furnishings of the rooms for which they are intended. Tapes, trines, durable denim, flowered cretonnes, and heavy silk serve for this purpose, while embroidery in bold designs enhance the unique effect," responded Marie.

"Some of the boxes are matched with moire silk. Plain blue, rose or lavender moire in a long wide strip is embroidered with peony or iris blooms in crinkled split silk, showing pastel colorings. Only one of the single blossoms is employed, but sprinkled in among them, leaves and tiny flowers of embroidery worked in narrow pastel ribbons, render such a covering a rare piece of hand work."

"The moire stretched over a square foundation of pasteboard, has the raw edges concealed beneath a blue and pink lining, run with threads of gold. While a box of this sort is most elaborate and suitable only for an exquisitely decorated boudoir, it gives some idea of the really magnificent hand embroidery that is lavished on the onetime insignificant scrap basket."

"The five piece scrap box made from tapering widths of pasteboard covered with cretonne and embroidered linen, and tied together by cords or ribbon, is sometimes decorated with colorful flags or insignia. Where two colors made up the fraternity or university emblem, the darker color in linen or denim is employed as a background, while the name and representative crest are embroidered in the other color, and applied to the darker linen by the buttonhole stitch."

"As a lining for these boxes there is a finished paper gaily bedecked with flower patterns. Holly, mistletoe, violets, roses and chrysanthemums stand out from contrasting backgrounds, and add a wonderfully bright touch as a lining, not only for the scrap box, but for all the other pretty dressing table boxes which are a faithful present."

Thomson went north on their honeymoon. Some of the Wedding Gifts. The wedding presents were many and costly. President Wilson sent two silver caskets; members of the house of representatives of the 63d and 64th congresses gave a necklace containing 250 diamonds.

Sec. and Mrs. McAdoo sent a solid silver pitcher; Justice and Mrs. Lamar a silver stater; Mr. and Mrs. William Randolph Hearst, two silver dishes; Col. Watterston, a silver pitcher; Max Curley of Boston, a set of cut-glass lemonade and tea glasses.

DEATHS

MURPHY—Mrs. Jeremiah Murphy, a well known and highly respected member of the Sacred Heart church, died yesterday at her home, 234 Woburn street, after a lingering illness which she bore with fortitude and resignation. She is survived by her husband, James Murphy, one son, Jeremiah, Jr., and three nephews, David, Frank and James Anglin.

SPRIGGIN, TROTTER SOLD LAST YEAR, WINS TWENTY THOUSAND DOLLAR STAKE AT THE EXPOSITION

SAN FRANCISCO, July 1.—The richest stake in the country, the \$20,000 stake in the 2.10 trot, recently was captured by Spriggin, a beautiful bay gelding, in three straight heats on the Panama-Pacific exposition race track. Thousands of spectators hailed the victory with cheers, as it registered an upset in form and calculations and also brought Spriggin, the horse that sold for a song last December, into the limelight over a field of light harness favorites, every one of which was valued away up into the thousands.

That the event was won in three one mile heats was an upset, but the easy manner in which the big gelding turned the trick by far overshadowed the performance. Here was a horse that would have been as good as a 25 to 1 shot if wagering had been permitted at the track. Last winter he was discarded from the R. J. McKenzie string and put up at public auction. He had shown speed, but was never able to get the races. Charles L. De Ryder induced his brother Will, who has been associated with amateur games at the San Francisco stadium, to take a chance with the trotter. When a bid of \$700 won Spriggin no one dreamed that a few months later this same horse would trot off with the richest stake in the country.

Garvey-Dillon

John C. Garvey of Worcester and Miss May Dillon of this city were married Tuesday afternoon, the ceremony being performed at St. Peter's rectory by Rev. P. L. Crayton. The bride was gown in sheer white lace and she wore a picture hat of shirred brim and carried a shower bouquet of lilies of the valley and roses. She was attended by her sister, Miss Florence E. Dillon, who wore pink embroidered net with picture hat to match. She carried pink carnations. The best man was Thomas J. Garvey, brother of the bridegroom. At the close of the ceremony a reception was held at the home of the bride's parents, 10 Royal street, for the immediate relatives and friends. The happy couple received a large number of valuable and useful gifts. They will be at home to their friends at 32 Dale street, Worcester, after Aug. 1. No cards.

If you want help at home or in your business, try The Sun "Want" column.

Unasked and unwelcome, Charles J. Odell, sheriff of Suffolk county, N. Y., has begun an investigation of the \$50,000 pearl necklace theft from the home of Sherwood Aldrich, mining magnate, at Southampton, N. Y. He was somewhat hampered by a faithful butler, who kept him waiting outside the fashionable home from 5.30 o'clock until Mr. and Mrs. Aldrich arrived at 10, but he finally was admitted, made an exhaustive search of the house and particularly of the bedroom from which the jewels were missed and of the grounds. Then he sent a number of his deputies post haste to New York in an automobile on a mission as mysterious as those which lead private detectives to embark upon long tours of the countryside hereabouts, questioning farmers and exhibiting pictures of famous crooks. Sheriff Odell is indignant that a big robbery should be entrusted to private detectives and concealed from the regular authorities, and it was his dissatisfaction with those which had been circulated since the robbery that led him to enter the case.

MRS. SHERWOOD ALDRICH

He was somewhat hampered by a faithful butler, who kept him waiting outside the fashionable home from 5.30 o'clock until Mr. and Mrs. Aldrich arrived at 10, but he finally was admitted, made an exhaustive search of the house and particularly of the bedroom from which the jewels were missed and of the grounds. Then he sent a number of his deputies post haste to New York in an automobile on a mission as mysterious as those which lead private detectives to embark upon long tours of the countryside hereabouts, questioning farmers and exhibiting pictures of famous crooks. Sheriff Odell is indignant that a big robbery should be entrusted to private detectives and concealed from the regular authorities, and it was his dissatisfaction with those which had been circulated since the robbery that led him to enter the case.

THOUSANDS AT WEDDING

MISS GENEVIEVE CLARK MARRIED TO JAMES M. THOMSON—CEREMONY UNDER PERGOLA

BOWLING GREEN, Mo., July 1.—Miss Genevieve Clark, 20-year-old daughter of Speaker Champ Clark of the national house of representatives, was married last yesterday afternoon to James M. Thomson, editor of the New Orleans Item.

The ceremony took place on the lawn of "Honey Shack," the Clark home—so-called because of the large honey locust trees that adorn the ground. The bride party stood under a white pergola built under a honey locust tree and almost hidden in the foliage.

Promptly at 4 o'clock an orchestra, concealed in foliage, began the Lohengrin wedding march and Miss Clark, leaning on her father's arm and preceded by eight ushers, eight maids of honor and the bridesmaid, walked from the old-fashioned house to the pergola. The ceremony was performed by Rev. Robert S. Boyd of the First Presbyterian church of Louisville, Ky.

Never before in the state has there been a similar wedding. A general invitation was issued to the people of Missouri, and from all parts of the state they came by train, carriage or automobile. Thousands of Missourians mingled on the lawn with social and political notables from all sections of the country.

Bowling Green Decorated
This town of 2000 inhabitants celebrated the event as though it were a

royal occasion. From every window a flag was flying, the streets were gay with bunting and the townspeople vied with each other in welcoming the wedding guests.

Wedding cakes were baked by scores of Bowling Green housewives and hundreds of cakes were sent from other towns. Tables were set on the lawn and in the house for the wedding supper.

The maids of honor were Misses Anne and Sue Bennett of Kansas City, cousins of the bride; Misses Imogene and Dorothy Thomson, sisters of the groom; Miss Helen Morton Hobnett of Columbia, Mo., fiancée of Bennett Clark, brother of the bride; Miss Murray Sanderson of Bowling Green; Miss Agnes Wilson, daughter of the secretary of labor; and Miss Vera Holcomb. The bridesmaid was Miss Jean Roberts of Alexandria, Va.

Among the guests were Col. George M. Harvey, the magazine publisher, and Mrs. Harvey; Mr. and Mrs. Henry Waterson, James A. Mann, republican house leader, and Mrs. Mann. After the festivities, Mr. and Mrs.

Thomson went north on their honeymoon. Some of the Wedding Gifts. The wedding presents were many and costly. President Wilson sent two silver caskets; members of the house of representatives of the 63d and 64th congresses gave a necklace containing 250 diamonds.

Sec. and Mrs. McAdoo sent a solid silver pitcher; Justice and Mrs. Lamar a silver stater; Mr. and Mrs. William Randolph Hearst, two silver dishes; Col. Watterston, a silver pitcher; Max Curley of Boston, a set of cut-glass lemonade and tea glasses.

DEATHS
MURPHY—Mrs. Jeremiah Murphy, a well known and highly respected member of the Sacred Heart church, died yesterday at her home, 234 Woburn street, after a lingering illness which she bore with fortitude and resignation. She is survived by her husband, James Murphy, one son, Jeremiah, Jr., and three nephews, David, Frank and James Anglin.

SPRIGGIN, TROTTER SOLD LAST YEAR, WINS TWENTY THOUSAND DOLLAR STAKE AT THE EXPOSITION

SAN FRANCISCO, July 1.—The richest stake in the country, the \$20,000 stake in the 2.10 trot, recently was captured by Spriggin, a beautiful bay gelding, in three straight heats on the Panama-Pacific exposition race track. Thousands of spectators hailed the victory with cheers, as it registered an upset in form and calculations and also brought Spriggin, the horse that sold for a song last December, into the limelight over a field of light harness favorites, every one of which was valued away up into the thousands.

That the event was won in three one mile heats was an upset, but the easy manner in which the big gelding turned the trick by far overshadowed the performance. Here was a horse that would have been as good as a 25 to 1 shot if wagering had been permitted at the track. Last winter he was discarded from the R. J. McKenzie string and put up at public auction. He had shown speed, but was never able to get the races. Charles L. De Ryder induced his brother Will, who has been associated with amateur games at the San Francisco stadium, to take a chance with the trotter. When a bid of \$

SPECIAL TOWN MEETING

Warrant Out in Billerica for Meeting on July 12—Money is Wanted for Improvements

The warrant for the special meeting of the town of Billerica to be held on the evening of July 12 has been signed by the selectmen and will be posted tomorrow. The special session promises to be a busy one as 29 articles, many of which call for the appropriation of large sums of money, will be considered.

Several of the articles have to do with water loans, among them being \$1400 for the connection of water mains in Lexington road, \$1500 to lay the extension of the water mains at Riverdale, \$1800 to extend the water mains from near the property of Roger Barrington to the town farm, \$1000 to extend mains from the present line in Webb Brook road 4500 feet along the Allen road, \$1120 to extend mains 1400 feet from Concord road to Parker street, to see if the town will extend the water mains a distance of 1000 feet down Bridge road and an extension in Holt street in the North Village. Ten thousand dollars will be required for the purchase of land and increasing the water supply at the pumping station and \$1200 for repairs at the pumping station. An extension of the mains in the Boston road from the Allen road to the Burlington line is desired at a cost of \$3500.

Another article of interest is one calling for \$300 for the construction of a baseball diamond on the Kohlrausch playground. Another water item is that calling for the borrowing of \$3500 to lay the water mains from the pumping station to Treble Cove road. This would give a double connection for the town's water supply. The sum of \$1300 is asked for a truck for the water department. Other articles of interest are those calling for the appropriation of \$1800 for a new stone crusher and \$450 for repairs of the engine and boiler at the stone crushing plant. An article to make the increase in salary granted the board of fire engineers at the last annual town meeting effective from May 1, 1914, may cause some discussion. The town will also act in relation to procuring land for the new fire station voted at town meeting. Twelve hundred dollars is also desired for equipment in the new fire station.

Other articles are those calling for the erection of three electric light poles in Twombly avenue, the construction of a new stretch of road east of the town part toward High street; the approval of a bill of the Killbuck Construction Co.; to see if the town will borrow money and issue bonds, notes or scrip (therefor to an amount not exceeding \$50,000 for the purposes and under the authority of chapter 337 of the acts of 1915 known as "An act to authorize the town of Billerica to make an additional water loan"; to see if the town will vote to place a sidewalk on the contemplated concrete bridge across the Shawshen river in the Boston road. The reports of various committees appointed at the last annual town meeting will also be heard, so a long and interesting session is promised.

SPECIALISTS STRIVE TO SAVE LIFE OF THE SULTAN OF TURKEY

Noted German specialists have been called in to attend the sultan of Turkey, whose illness has grown worse in the past few days. Official circles in Berlin and Constantinople are alarmed at the sudden change for the worse in the condition of the Turkish ruler. Professor Israel, a noted German specialist, operated on the sultan several days ago for stone in the bladder.

ton road. The reports of various committees appointed at the last annual town meeting will also be heard, so a long and interesting session is promised.

ORGANIZE NEW BUREAU

STATES RELATIONS SERVICE COMES INTO EXISTENCE TOMORROW

WASHINGTON, June 30.—One of the largest bureaus of the department of agriculture will come into existence tomorrow with the organization of the states relations service.

The new bureau will take over the work of the department connected with farmers' cooperative demonstration work, investigations relating to agricultural schools, farmers' institutes, the relative utility and economy of the various uses of agricultural products, agricultural products used for food, clothing and other uses in the home and the maintenance of agricultural experiment stations in Alaska, Hawaii, Porto Rico and Guam. Its organization is an outgrowth of the enactment of the Smith-Lever extension agricultural bill.

A. C. True, head of the office of experiment stations, will be the chief of the new service. Officials in charge of various features of the service will continue as subordinates in the new bureau.

last night saw a violent cannonade, together with some infantry engagements. To the north of the Chateau of Carleul we made slight progress; to the south, at the Carre Rouge, a German attack was repulsed.

In the Vosges, German troops endeavored, at about 2 o'clock to deliver a fresh attack against our positions, to the east of Metzeral. This movement was easily checked.

ENROUTE FOR GERMANY

GERMAN DOCTORS AND NURSES CAPTURED EARLY IN WAR ON WAY TO NEW YORK

SAN FRANCISCO, June 30.—The last of the German doctors and hospital nurses from Tsing Tau, China, captured by the Japanese early in the war, are on their way to New York today en route for Germany. The party, which includes 102 members, arrived here yesterday from the Orient and is headed by Dr. L. Foerster of the German navy, who was surgeon-general of the German forces in the far east. Several of the doctors are accompanied by their families.

OPERATIONS RESUMED

SHARON, PA., PLANT OF CARNEGIE STEEL CO. REOPENS—500 MEN EMPLOYED

SHARON, Pa., June 30.—Operations at the local plant of the Carnegie Steel Co. have been resumed after 15 months' idleness. Five hundred men are employed.

FREE TRIPS

TO NOVA SCOTIA AND THE MARITIME PROVINCES OFFERED BY THE Eastern S. S. Corporation AND THE Yarmouth Line

Everything included covering transportation, hotels, etc. Each Company offers three free round trips as follows:

- 1.—Via Yarmouth to Halifax, Sydney, Charlottetown, St. John, thence to Boston.
- 2.—Via Yarmouth to Halifax, and return.
- 3.—Via Yarmouth to Digby and return.

Three trips via International Line covering the same places, in order reversed.

The only conditions of the contest are:

The three trips will be given by the Yarmouth Line to the three persons sending in the largest list of bona fide names, with correct addresses of persons and descendants now living in New England formerly from Nova Scotia and Cape Breton. The three trips via International Line will be given to the three persons sending in the largest list of names of persons now living in New England formerly from New Brunswick and P. E. Island.

Lists must be sent in not later than Aug. 15th. Trips available beginning Sept. 1st.

A rare opportunity to obtain a holiday outing free so get the cooperation of your friends.

PUT TO DEATH

Warden Osborne Not at Execution of Ferri at Sing Sing

OSSENING, N. Y., June 30.—As protest against capital punishment, Thomas M. Osborne, warden of Sing Sing prison, did not attend the execution of Joseph Ferri, at Sing Sing today. Mr. Osborne went to New York last night and his place at the execution was taken by Deputy Warden Johnson. "I am leaving because that is the only way that I have to protest against the law which makes the execution necessary," said Mr. Osborne before going.

Ferri was put to death for shooting and killing, on August 24, 1914, his brother-in-law, Florentino di Giovanni, with whom he worked at times as gardener at their home in Inwood, L. I. They had a dispute over a debt and after a fight with fists on the street, Ferri went home, got his revolver and shot Giovanni through the head.

If you want help at home or in your business, try The Sun "Want" column.

ALLEGED RIOTERS

Indictments Against 26 Men Arrested Near Slaton's Home

ATLANTA, Ga., June 30.—The Fulton county grand jury today returned indictments charging riot against the 26 men arrested by the militia last Saturday in the vicinity of former Gov. Slaton's home. The offense charged is a misdemeanor under the Georgia law, punishable by imprisonment not exceeding one year or a fine not exceeding \$1000, or both.

"BILL" BOWERS ARRESTED

HELD ON CHARGE OF CONSPIRACY TO COMMIT A FELONY IN ALLEGED ASSAULT

WASHINGTON, June 30.—"Bill" Bowers was arrested here today at the request of the Pittsburgh police, in connection with the assault upon T. Franklin Schneider in Pittsburgh, last Thursday and held on a charge of conspiracy to commit a felony.

A promissory note for \$4000 alleged to have been given by Thomas G. Forney, Schneider's son-in-law, of this city, "to pay Bill and George" for "putting this man out of the way," is in the hands of the Pittsburgh police. George McHenry, a waiter, charged with being one of Forney's accomplices in the plot to kill Schneider, also is under arrest. The detectives who brought Bowers in say "he confessed everything."

Bowers was located by a note said to have been found in Forney's pocket-book, giving a Washington address. Bowers told the police a story which the detectives say, included statements that he was offered \$2000 of the sum promised by the note for his participation in the attack upon Schneider and that he refused to join. With that, Bowers said, his connection with the affair ended and his next knowledge of it was when he saw his name published. He had no doubt, he said, he was the "Bill" referred to but stoutly protested that at no time had he any connection with the conspiracy.

FRANCE FIGHTING WAR

England "Laying Down," Says Dorchester Man, Back From Europe—In London During Raid

BOSTON, July 1.—William D. Taylor of Dorchester, who has been touring Europe for the past four months placing orders for army shoes, has just returned to this city. He has had unusual opportunity to study conditions regarding the war, and secured the first-hand information he says. Among other opinions he expressed yesterday was that England was "laying-down" and placing the great burden of fighting upon the shoulders of the French nation.

"It is really France and not England that is fighting this war," he declared. "France has given all its men. England only an army of volunteers. England claims to have three-quarters of a million men in France fighting in the British army. France has several millions. An English war office bulletin that I saw stated that Belgium was guarding 17 miles of trenches, England 31 and France 512 miles."

He said that in Paris there was none left but children and old men. "The cafes and restaurants in Paris close every night at 8 o'clock," he said. "There is no business to speak of. This month France will call out the class of 1917, the 18-year-old boys. The class comprises about 500,000 youths. Germany has called her 19-year-old boys. England does not seem to warm up to it much. They do not seem to realize it."

He said the English had full confidence in the ultimate victory of the allies. He said he was in London during the Zeppelin raids and no great damage was done by the Germans, and the

THE SPELLBINDER

It was Laura Jean Libbey, I believe, who once wrote a heart-puncturing novel, entitled "Lovers Once, but Strangers Now." If Laura Jean, whoever she or she may have been, were in Lowell today he or she would enjoy hugely the latest film in our city hall movies, also entitled: "Lovers Once but Strangers Now," with Mayor Murphy and Commissioner Morse as the leading characters.

Only one short year ago the mayor and the street commissioner were far from each other's necks at every opportunity, figuratively, of course. Mr. Morse said he didn't care how much he was knocked so long as the mayor got credit for his great accomplishments, or words to that effect, while it was recalled that it was the mayor who presented a very readable account of the street work of the past year, to the reporters, with a personal tribute to Commissioner Morse.

Now it's different and, barring the Pawtucket bridge matter, on which they appear to be sewed together, His Honor, it would appear, never loses an opportunity to "get after," or in the picturesque language of the commissioner himself, to apply "the gaff" to Commissioner Morse, to get by him.

And in getting after Commissioner Morse the mayor has several times exposed things that are far from being to his own credit as a public and paid official of the city.

For instance, speaking of the cost of sewer work, Mayor Murphy said: "I have been here 14 months and I haven't seen it yet."

Of course, His Honor has been there 18 months instead of 14, but one can't blame him for trying to forget some of it. But what an admission from a paid official, who is supposed to be cognizant of the work and the cost of work not only in his own department but in all others. The municipal council is ordered by the charter to determine the policies to be pursued and the work to be undertaken in each department, and now comes the mayor after 18 months in office and states that he does not know the cost of sewer work, and he has never before in his Honor in his attack upon the cost of the sewer department made the statement that the work can be done by contract at 33 1-3 per cent less than it is being done by the men of the sewer department. A few weeks ago he declared himself vigorously to the labor men as opposed to contract work of all kinds. Now he is defending it. If His Honor believes that the city can build sewers 33 1-3 per cent cheaper by contract than by day labor, why doesn't he attempt to save all that money? As a member of the municipal council, he is empowered to advocate the change of policy in the sewer department. If His Honor believes that cheaper work can be done 33 1-3 per cent by contract, why doesn't he try it? If the \$2 per day sewer employee is a municipal extravagance, what is the \$2 per day bridge laborer? If the \$2 per day sewer employee is an extravagance, how about the several higher priced clerks and other employees whose salaries he has been increasing since becoming head of the public safety department? Why wail the \$2 man?

There appears to be an attempt to place the responsibility for not knowing the cost of sewer work upon the city engineer. But the mayor and Commissioner Morse know or should know that the city engineer gets his actual cost figures from the street department office after the work is finished. When the sewer department puts in a sewer, its cost is reckoned by the city engineer. But the mayor and Commissioner Morse know or should know that the city engineer gets his actual cost figures from the street department office after the work is finished.

structed immediately, for this proposition is a matter of no votes, exclusively.

On all the other propositions, for every vote lost there will be several gained, the gains outnumbering the losses substantially, but in the case of the hospital they will not gain a single vote under any circumstances while they stand to lose votes wherever they may decide to locate it for nobody wants the institution in the vicinity of his home or place of business.

Thus they are "quelling" the hospital matter and are getting close to the time limit. When finally forced to show their hand, the members in all probability, will select a site and let it go at that, assuring the remonstrants that they are naming the site simply to cover the law, and that the future governments can settle on the finality of their selection.

Business Quiet Yet Rushing
In most lines of business, quietness and rush are inconsistent, but not so in the police industry, for while within the past month or more there have been more arrests for drunkenness and more arrests of women for drunkenness, than in a similar period in years, little mention has been made of it.

Thus they are "quelling" the hospital matter and are getting close to the time limit. When finally forced to show their hand, the members in all probability, will select a site and let it go at that, assuring the remonstrants that they are naming the site simply to cover the law, and that the future governments can settle on the finality of their selection.

Calling For Bids
Recently the purchasing agent called for bids for the construction of granite sidewalks and got a bid of \$143 per cubic yard, the lowest price ever known in Lowell, a price which some contractors say is an impossibility. That's not the purchasing agent's lookout, however; the sidewalks will have to be built and built right within that price. If the purchasing agent can get such good results on granite, why not give him a chance on the cement and steel to be used in the Pawtucket bridge? This would not be a matter of contract labor and would in no way deter Lowell laborers from getting plenty of work. On the contrary, it would give Lowell steel and cement men an opportunity to make a little money and give the city the benefit that is supposed to come from competition. Perhaps if the steel were sold by bid the successful competitors would "place the steel," without making it necessary to figure such cost in the item for supervising the work.

Why Not, Mr. Mayor?
Said His Honor at Tuesday's meeting: "Instead of putting in sewers to help out building men, let us give some relief from a positive nuisance in Wigginnville, where people have been putting up with it for a number of years."

As my old friend Bill Rafferty would remark: "Very true, Mr. Mayor, very true." But by the same token, why spend a lot of money on the extension of Dummer street to help out a few willing men, when the money thus to be spent could be used to relieve this long-existing nuisance in Wigginnville? And relative to this nuisance which the Wigginnville people have been putting up with for years, it will be recalled that the people of Wigginnville have been crying to the mayor for relief for the 18 months that he has been in office, and they cried in vain.

But by the same token, why spend a lot of money on the extension of Dummer street to help out a few willing men, when the money thus to be spent could be used to relieve this long-existing nuisance in Wigginnville? But by the same token, why spend a lot of money on the extension of Dummer street to help out a few willing men, when the money thus to be spent could be used to relieve this long-existing nuisance in Wigginnville? And relative to this nuisance which the Wigginnville people have been putting up with for years, it will be recalled that the people of Wigginnville have been crying to the mayor for relief for the 18 months that he has been in office, and they cried in vain.

TOWN OF DRACUT NEWS

Past Officials Asked to Refund Overdrawn Salaries — Various Appropriations Made

At a special town meeting held in Dracut last evening and called for the purpose of discussing loan orders for town departments, Auditor Conant, Cull informed the meeting that town selectmen and last year's auditor overdraw the amount of their salaries, and only one of these officials has returned his overdrawn pay. Selectman Mozley stated that requests had been made to the officials to make due return of the money overdrawn, but to date nothing has been forthcoming. John W. Peabody moved that the sum of \$20 be appropriated to be used in the process of collecting the amounts due the town from the officials in question. Mr. Peabody's motion prevailed. This particular situation has no precedent in Dracut.

The meeting was held in Grange hall and was well attended. The money voted will be raised by direct appropriation instead of by loan. George H. Stevens, as moderator, called the meeting to order and read the warrant.

Article one, to borrow a sum of money not to exceed \$1500 for the moth department, was introduced and Supt. Thomas H. Carrick of the moth department stated that the annual appropriation of \$1013 had a "joker" attached. He referred to the words "exclusive of receipts," as the joker. These words, he said, prevented him from spending the revenue derived from private sources, which now amount to more than the loan asked for.

As to the loan proposition connected with the moth loan, James Cunningham stated that recent legislation required all current expenses to be met by direct appropriations and he thought banks would refuse to make loans to meet current expenses. It was voted to raise the money by direct appropriation.

Under article two the sum of \$1000 was raised and appropriated to pay in advance of taxes.

Article three asked that a loan of \$500 be made to be used to defray expenses connected with the inspection of the different cities asking the notice of those cities to be on the lookout for the stolen Ford. The machine was located in Nashua and after a short chase the thieves abandoned it and escaped, but were captured later in the up-river city.

Echoes of the White Way
Quite a few poles were "noticed along the line on Monday evening, for one of the attractions was an open house by the Middlesex Social club, which is a power in that section, and like to visit. Rep. Victor Jewett and former Councilman Adelard Berard were much in evidence. It will be recalled that Mr. Berard made a good showing in the republican caucuses last fall and is looked upon as a future representative from that district. He's going at it again this fall; likewise Rep. Jewett.

Former Alderman Smith Adams was "noticed" and Smith is mentioned as a candidate for common.

How to Prevent Acid Stomachs and Food Fermentation
By a Stomach Specialist
As a specialist who has spent many years in the study and treatment of stomach troubles, I have been led to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and discomfort, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach, interferes with the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these two conditions. They are present in all such cases—and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bicarbonate of soda, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to call at Liggett's drug store for the bicarbonate of soda. I have found four forms utterly lacking in its peculiarly valuable properties.—F. J. G.

Officers Are Installed
PLEASANT EVENING AT ROOMS OF Y. M. H. A.—FORMER MAYOR O'DONNELL OFFICIATED
The officers of the Young Men's Hebrew association, recently elected were installed last evening at the rooms of the organization, 234 Central street. Former Mayor James E. O'Donnell was the installing officer.

The program of the evening included a pleasing musical entertainment, followed by a whist tournament. The officers installed were as follows: A. S. Goldman, president; Leopold Albertson, vice president; Morris Lema, treasurer; Samuel Perlman, financial secretary; A. Patrosky, recording secretary; board of directors, Frank Goldman, Benjamin Silverblatt, A. Gustaf, Harry Bogdonoff, Max L. Katz, Louis Buchman and Samuel Smith.

There were twenty tables filled with players at the whist tournament and the following winners received suitable prizes: First prize, Miss Shatloff; second, Miss Patrosky; third, Miss Levine; fourth, Miss Creme. Men, first prize, Samuel Perlman; second, Sidney Greenberg.

ARMENIAN WAS SUNK WHILE TRYING TO EVADE CAPTURE

TEUTONS ATTEMPT TO CLEAR WAY TO WARSAW

Russians Still in Retreat—German Water Attack on Windau Repulsed—British Ship Sunk

The Russian lines are still being swung back in northern Galicia and southern Poland in an apparent effort by the Teutonic allies to clear the way for a determined move on Warsaw.

The Russians admit a continuation of the enemy offensive being the Bug and the Vistula. At the junction of the latter river with the Vistula in Poland lies Ivangorod which Russian observers believe is the immediate object of the Austro-German forces in this region. Ivangorod is little more than 50 miles southeast of Warsaw.

Russians Records Repulse
Just as present the chief Russian holding power seems to be along the line of the western Bug and the Galia Lipa in Galicia. Petrograd records a repulse of an attempt by the Teutons to cross the Dniester near Halez indicating that the line of the Dniester south of that place is still well held by the Grand Duke Nicholas' forces.

Torpedo Boat Blows Up

A German attack by water on Windau on the Baltic just south of the Gulf of Riga, was repulsed by the Russians, their official statement says. Five cruisers and many torpedo boats participated in the attack, and an attempt is declared to have been made to land troops. One of the torpedo boats was blown up before the fleet retired.

Allied Successes in Dardanelles

Eyes are being turned towards the Gallipoli peninsula from which stirring news has recently come, and there are hints from the side of the entente allies that successes just reported are to be followed by still more determined attempts to carry dominating Turkish positions.

KILLED HIS WIVES

George Joseph Smith Found Guilty of Murder Today

LONDON, July 1, 3:14 p. m.—A verdict of guilty was brought in by the jury today in the case of George Joseph Smith, who was charged with the murder of three of his wives.

The prisoner was sentenced to death. It had been alleged by the crown that Smith had killed his wives while they were in their baths and had collected insurance on their lives.

REPRIEVE FOR BECKER

GOV. WHITMAN GRANTS FORMER N. Y. POLICE LIEUTENANT REPRIEVE UNTIL JULY 26

ALBANY, N. Y., July 1.—Gov. Whitman today granted Charles Becker, the former New York police lieutenant, under sentence of death, a reprieve until July 26.

The governor said that he would take no further action in the case than the granting of the reprieve. This means that if the United States supreme court does not interfere, Becker will have to die.

JOHN DEMOS IS HACKED TO DEATH AT ELM PLACE HOME

Another Murder in Which Robbery Was the Motive as Victim Carried \$800 in His Belt — John Comatos Held as Suspect—Man Found With \$800 in Belt But Claims Money His Own—Many Men Questioned

The police department has kept up a continuous investigation of the murder of John Demos at 2 Elm place, since the tragedy was discovered last night. The traces of blood upon the hands and undershirt of John Comatos, who lived with the victim, justify the police in holding him on suspicion.

Another feature is, that a man with \$500 in his belt has been found and this was the amount that Demos was said to have carried. But the police believe this is not the money of the murder victim. Many witnesses have been examined, but no tangible evidence pointing to the identity of the murderer has yet been found.

What the Police Found
According to the story told Supt.

WASHINGTON, July 1.—Secretary Lansing announced today that until more complete reports had been received from Ambassador Page at London on the torpedoing on Monday of the British steamer Armenian, in which several Americans lost their lives, the United States would take no action.

Latest news despatches from Ambassador Page at London, however, made efforts to escape after being ordered to stop, caused officials to believe the sinking of the vessel was accomplished in accordance with international law and that the United States might have no reason to take up the subject with Germany except to verify through the admiralty at Berlin the details of the Armenian's reported resistance.

Under the rules of international law it was pointed out that the Armenian which flew the British flag, as well as any neutral vessel, could be sunk for refusing to obey a warning to halt and submit to visit and search or capture.

Ambassador Page reported that the Armenian was engaged on "admiralty business," but the question of how far the vessel was under the control of the British government by charter or otherwise seemed to be overshadowed in the minds of officials here, by the reported resistance to capture.

What last night seemed to loom up as a possible complication in the pending negotiation over submarine warfare with Germany appeared to be removed by the suggestion that the Armenian was sunk while trying to evade capture. The report that the German commander had come to the surface and megaphoned the Armenian was regarded by many officials as indicating an intention to visit and search even enemy ships, a principle for which the United States has been contending. It was suggested in some quarters that the German submarine commanders now may have new orders requiring them not to torpedo any ships without warning. No cases have been reported of attack without warning in the last few weeks. The law on the question of charter is not clear, but officials indicated it would not be a violation of American neutrality laws for an unarmed transport carrying a cargo of munitions or supplies for a belligerent government to sail from the United States and that it never had been definitely determined whether belligerent cruisers encountering such a vessel were to treat it as a ship of war, or a defenceless merchantman.

President Gets Facts
The first news received here of the destruction of the Armenian with the loss of American lives created the impression that she was not a merchant vessel in the sense referred to in the American notes to Germany concerning submarine warfare, and this view appeared to be borne out by the statement of the British admiralty today that the Armenian was engaged in "admiralty business." A special delivery letter received from the state department this morning brought the president all the facts in the case available at Washington late yesterday.

No Comment By President
President Wilson declined to comment on the incident and will await further information before deciding on the course of the American government. He was from the start anxious to learn whether the Armenian was under charter to the British government and what was the status of the American munitions who were lost. It was made known that he expected Secretary Lansing to inform him as early as possible of the international law features involved in order that he might form a correct judgment of the seriousness of the situation.

It was declared authoritatively that for the present President Wilson had no thought of hurrying back to Washington ahead of his schedule because of the latest submarine problem. The investigation, which will be conducted through Ambassador Page at London and Ambassador Gerard at Berlin, will occupy several days, it is expected.

"ON ADMIRALTY BUSINESS"
WASHINGTON, July 1.—The Leyland line steamer Armenian was "engaged on admiralty business" when she was sunk by a German submarine off the Corn-

ment of the British admiralty today that the Armenian was engaged in "admiralty business." A special delivery letter received from the state department this morning brought the president all the facts in the case available at Washington late yesterday.

EVELYN THAW REFUSES TO HONOR SUBPOENA

State to Apply for Writ to Compel Her to Testify in Sanity Trial—Ex-Gov. Slaton in Court

NEW YORK, July 1.—If Evelyn Nesbit Thaw refuses to obey the subpoena summoning her to testify as a state's witness at the trial to test her husband's sanity, as reported from Malone, N. Y., the attorney general's office will apply to the court for a body writ of attachment to compel her attendance.

This statement was made today at the attorney general's office where the report that Mrs. Thaw had said she would refuse to obey the subpoena served upon her at Chateaugay Lake was confirmed.

It was expected that the application for the writ will lead to the taking of formal steps to determine whether Mrs. Thaw's health would in fact be endangered.

Former Gov. John M. Slaton of Georgia, occupied a seat on the bench beside Justice Hendrick when the trial was resumed today. He listened with attention to further reading of the testimony given by Thaw's mother at the second murder trial.

It was followed by more of the records of Thaw's life at the Matteawan asylum.

EVELYN REFUSES TO APPEAR
MALONE, N. Y., July 1.—Evelyn Nesbit Thaw has refused to honor the subpoena served on her yesterday, summoning her to New York to testify at

the jury proceedings to determine the sanity of her husband, Harry K. Thaw. Mrs. Thaw, it became known today, told William J. McGuire, the state's process server, that she was in poor health and feared for her life should she be compelled to undergo the ordeal on the witness stand to which she thought she would be subjected in cross examination by Thaw's counsel. She said that she would furnish a doctor's certificate if required to do so by the court.

TRIAL RESUMED
NEW YORK, July 1.—Transcripts of the testimony given in Harry K. Thaw's two trials for killing Stanford White were in the possession of state's attorneys today and preparations had been made to read liberal extracts in his sanity trial now in progress. The records, the state expects, will support its contention that Thaw is insane. Reading of the evidence given by Mrs. Mary Copley Thaw, his mother, in the second trial had not been concluded when the court adjourned yesterday and was continued today. Mrs. Thaw, in the portions of her story read to the jury, told of her son's early life, and his eccentric actions prior to the killing of White, and of the insanity which affected some of Thaw's relatives.

MAN INSTANTLY KILLED

JOHN LANG KILLED WHEN EMERY WHEEL OVER WHICH HE WAS WORKING BROKE

PROVIDENCE, R. I., July 1.—John Lang, 52, employed by a local fire supply company was instantly killed today when an emery wheel over which he was working broke and struck him in the head. His skull was crushed.

Casualties in Dardanelles Aggregate 38,635 Officers and Men

LONDON, July 1, 3:32 p. m.—Premier Asquith announced in the house of commons this afternoon that the British naval and military losses in killed, wounded and missing in the operations against the Dardanelles up to May 31 aggregated 38,635 officers and men.

300 KILLED IN WRECK

CARRANZA SOLDIERS AND THEIR WIVES AND CHILDREN IN ACCIDENT

LAREDO, Tex., July 1.—Three hundred Carranza soldiers and their wives and children were killed and several hundred injured in a wreck of a military train near Monte Morelos, between Tampico and Monterrey, according to an American who arrived here today from the interior. The accident took place ten days ago, he said.

SIX KILLED BY TORNADO

MUSKOGEE, Okla., July 1.—A tornado that swept parts of Ottawa county, northeastern Oklahoma, last night, today was reported to have killed six persons. Three deaths have been verified. The casualties were in the rural districts near Miami, difficult to reach, telephone lines being out of commission. Considerable property damage is reported.

TOUR OF ORPHANAGES

Ayer Home May Soon Have Isolation Cottage—All the Homes Free From Sickness at Present

A reporter of The Sun visited the Ayer Home in Pawtucket street, St. Peter's orphanage in Stevens street, and the French-American orphanage in Pawtucket street yesterday afternoon and in each place he was informed that the homes were in the best of condition. The schools in the three institutions closed during the past week and those in charge report a very successful year.

Ayer Home
As the Ayer Home the children are reported to be in the pink of condition, despite the fact that the place has been recently quarantined for a short time. There are 60 boys and 35 girls in the institution and the matron has the names of 21 little ones, who are awaiting an opportunity to enter the home. The matron stated 100 children can be accommodated at the home, and she hopes to find room for those whose names are on the waiting list in the near future. The classes at the home closed during the past week and the affair was marked with appropriate exercises for the children only.

Dr. Parker, chairman of the board of trustees, who is deeply interested in the home, thinks the board of health is rather severe in its quarantine regulations on the home. In certain cases, when a child was taken ill with a contagious disease, arrangements were made for complete isolation of the patient in an upper room, to which food and all supplies were sent on the outside. A nurse was also specially provided and given access to the room, but not allowed to come in contact with any of the other children or even to enter the other portions of the building. Nevertheless, the health authorities quarantined the entire building and kept all the children from school. This has proved a great hardship and the doctor hopes that in the near future a suitable isolation cottage will be provided so that the schooling of all the children in the home will not be interrupted through the illness of one or two.

St. Peter's
The sisters in charge of St. Peter's orphanage informed the writer yesterday afternoon there is an unusually large number of children at the home for this time of the year. This is due probably to the fact that boys are now admitted to the institution. The membership roll consists of 75 girls and 41 boys. The school, which is connected with the orphanage, was closed during the past week and an appropriate entertainment program was given on that occasion by the best talent of the school.

The sisters wish to publicly thank Mrs. Elias McQuade for the successful whist party she recently conducted at her home for the benefit of the home, as well as the members of St. Elizabeth's guild, who are deeply interested in the welfare of the institution.

The writer was informed that the boys spend most of their time in the summer in garden work. They have nearly two acres of fertile land planted with vegetables of all kinds and they are deeply interested in their work. Each boy has a certain patch to look after and for the credit of the little chaps, it is well to state that there is no vegetable garden in Lowell or vicinity better kept than that at the orphanage. The girls who are at play

THERE'S NO PHYSICAL BLESSING MORE TO BE DESIRED

Than a good, healthy stomach. Nearly every person of mature years suffers more or less from bad stomach—sourness, nausea, waterbrash, heartburn, indigestion. Thousands are learning of the dependable value of Dys-pep-lets for all these symptoms. It is surprising how quickly they give relief. Just one or two crushed in the mouth and swallowed slowly—ends all the trouble. Carry a pocket box of Dys-pep-lets with you all the time and with them keep your stomach in healthy working condition. They cost little. They do a lot of good.

combustants in the seat of the war—East Prussia, Russian Poland and Galicia. Over one-half million of them have been driven from their homes and are wanderers on the face of the earth, without food, clothing, shelter, medicine or decent burial for their dead. Their goods have been confiscated and destroyed; women outraged; old men and young children given over to the hands of the enemy. Of all who suffer from the war, these Jews are the most needy and pitiable.

FIREMAN SAVES CUTTER

WITH EXPLOSION IMMINENT, OLIVEIRA GROPED THROUGH STEAM AND DREW FIRES

BOSTON, July 1.—A serious accident was averted on board the Coast Guard cutter Winslow yesterday afternoon by the coolness and bravery displayed by Fireman Oliveira, who drew the fires after one of the nipples of the steampipes burst, and thereby prevented an explosion of the boilers, although in doing so his hands were frightfully burned and he was in need of medical attention when the crippled cutter was towed back to Long Wharf.

The Winslow, with Master D. H. L. Gleason, the boarding officer, on board, left Long Wharf at 2 p. m. to inspect the three German steamers anchored at quarantine. Major Gleason was to board the Germans to see that the wireless seals had not been tampered with. Boatswain Christiansen was in command of the cutter and Machinist Rader was in charge of the engine room.

The boat was within half a mile of the steamer Willehad, one of the vessels to be boarded, when a slight explosion was heard in the boiler room, and an investigation showed that one of the starboard pipes connecting with the boiler had cracked and steam and water were pouring through the opening.

The engine room immediately filled with steam, and the pressure valve went down from 150 to less than 25. The boiler was emptying so quickly that it was feared that it would run dry and an explosion would follow. Machinist Rader ordered Oliveira to draw the fire under the boiler, and without hesitation the fireman started to obey. He groped through the thick vapor and succeeded in drawing the fire, although both his hands were so painfully burned in doing so that he will be laid up several days.

Two emergency pumps were started and the boilers were refilled. The Winslow managed to reach the side of the Willehad, and there she was tied for three hours until the police boat Guardian came along and towed her back to the city.

The work of repairing the steam pipes began last evening, and the cutter will probably resume her work today.

BABY IN DIP OF DEATH

SIX MONTHS OLD CHILD DID ACT IN BABY CARRIAGE AND MIRACULOUSLY ESCAPED INJURY

WOODVILLE, July 1.—Here's the story of how a baby did the "dip of death" act in a baby carriage and escaped without serious injury. Stratford Wentworth, the 6-months-old son of Mr. and Mrs. Franklin H. Wentworth of Wellesley, had a narrow escape from serious injury and possible death in a most curious manner here when the baby carriage in which Baby Wentworth had been left asleep by his nurse ran down over a steep embankment and plunged over a five-foot wall onto a road strewn with rocks where some grading is being done.

The great momentum gained on the slope carried the baby carriage on as even keel over the brink of the wall and the shock of striking the ground after the drop threw the baby high in the air in a sort of aerial somersault. The pillow and blanket went also, and by a strange freak of fortune fell so that the catapulted baby was turned completely over and fell squarely on hands and knees on the pillow, unharmed, except for scratches on the knees and a slight abrasion on the forehead.

One should not stop swaying even though the balance is temporarily lost, for the fact that one does lose one's balance, is an indication that one is too stout.

NEW SCALE IS RATIFIED

WORCESTER CARMEN FIND IT SATISFACTORY—HOURS OF SHOP AND TRACK WORKERS REDUCED

WORCESTER, July 1.—The wage and working scale for the employees of the Worcester Consolidated and the Springfield street railway lines recently agreed upon between representatives of the lines and the men, was unanimously ratified by the Worcester Trolley-men's union at meetings in Columbus hall last night.

The scale provides that the day of the men who work in the barns and shops and on the track and lines shall be reduced from 10 to 9 hours and that their wage schedules shall be increased from 5 to 40 per cent.

The scale for motormen and conductors provides 25 cents an hour the first six months, 26 1/2 cents the second six months, 27 cents the second year, 30 cents the third year, 32 1/2 cents the first six months of the fourth year and 31 cents thereafter.

The scale for motormen and conductors provides 25 cents an hour the first six months, 26 1/2 cents the second six months, 27 cents the second year, 30 cents the third year, 32 1/2 cents the first six months of the fourth year and 31 cents thereafter.

PANIC AMONG GIRLS

GASOLINE EXPLOSION IN WORCESTER ALARMS EMPLOYEES NEXT DOOR AND THREE FAINT

WORCESTER, July 1.—A \$2000 fire in the City Dyehouse, a 21-2 story wooden structure at 26 Myrtle street, yesterday afternoon, caused by an explosion of gasoline, seriously injured John Joyce, an employee, and created a panic in the plant of the Culver-Sacars Electrical company, so that three of the girl employees fainted and were taken to the City hospital in a police ambulance.

The girls are Anna Stevens, aged 17, of 50 Canterbury street; Emma Vincent, aged 20, of Fairmount avenue; and Annie Stevenson, aged 17, of Greendale. Miss Vincent collapsed on the stairs and sustained bruises when she tumbled to the bottom. Joyce was burned about the face and hands. Henry J. Brooks, proprietor of the dyehouse, was in the shed, but escaped injury.

The electrical plant escaped injury, and the firemen responded quickly.

HAPPY MARRIED LIFE

MR. AND MRS. ROBERT G. FULLERTON WERE MARRIED A QUARTER OF A CENTURY AGO

Mr. and Mrs. Robert G. Fullerton were married 25 years yesterday. The happy couple observed their quarter century wedding anniversary in a quiet way at their home, 17 Dutton street, yesterday afternoon and evening. Their friends called to assist them in the observance of the event and they were made the recipients of appropriate gifts. They were literally showered with bouquets and in the evening an anniversary supper and pleasing musical program were thoroughly enjoyed by host, hostess and guests. Mr. and Mrs. Fullerton are both well known in Lowell. For the past 15 years they have been members of the chorus at the First Trinitarian church and they belong to many fraternal organizations.

GIVES PAY TO THE CITY

MALDEN REPRESENTATIVE SENDS CHECK FOR \$100 TO TREASURER OF CITY

MALDEN, July 1.—In giving his salary as representative in the legislature to this city, Rep. Alvan T. Fuller yesterday set what is believed to be a precedent among members of the house. Alfred E. Hitchcock, a check for \$1000 from Mr. Fuller the \$1000 being the salary as representative and the remainder the money allowed for mileage.

COL MATHEWSON DEAD

NORWALK, Conn., July 1.—Col. Edward H. Mathewson, head of the shoe manufacturing concern of Lounsbury, Mathewson & Co. of this city, and director of the United Shoe Machinery corporation, died at his home in South Norwalk yesterday of ptomaine poisoning.

He was president of the City National bank of South Norwalk, and was in 1887-82 a member of the staff of Gov. Phineas C. Lounsbury. He was 51 years old.

WHILE INSPECTORS LOOK ON

Frank Strauss Takes 500 Cigars From an Express Wagon, According to Wise and Kidney

BOSTON, July 1.—Charging him with taking 500 cigars, worth \$13.50, from a Weymouth express wagon on Kingston street while they looked on, Police Inspectors Wise and Kidney arrested Frank Strauss yesterday. The prisoner gave his age as 23 years and his address as 645 7th ave., New York.

FEDERAL COLLECTOR BUSY

Receipts on Last Day For Payment of Income Taxes Expected to Total \$1,000,000

BOSTON, July 1.—The collector of internal revenue and state taxes were busy yesterday receiving federal taxes from thousands of men and women. Every mail also brought big returns. It was the last day for payments and penalties for delinquents will begin today.

The receipts for the various taxes amounted to \$1,000,000 on Tuesday and the final checking up for yesterday is expected to show \$1,000,000.

CONGRATULATE NEW JUDGE

Washington Club of Worcester Tenders a Dinner to Philip J. O'Connell at Lake Clubhouse

WORCESTER, July 1.—The Washington club last night gave a dinner in its lake clubhouse to Judge Philip J. O'Connell, a member of the club, in recognition of his appointment to the superior court bench. The gathering was attended by 150 and congratulations were tendered the new judge in earnest addresses by his associates. Pres. John J. O'Donnell presided and Mark F. Cosgrove was toastmaster. The speakers were Frederick A. Carroll, Charles F. Campbell, J. Alexander Donoghue, Dr. John T. McGillicuddy, Rev. Dr. John J. McCoy and Deputy Sheriff James Early.

WE CLOSE THURSDAYS AT 12 O'CLOCK

YOUR BOYS AND GIRLS

There are certain fundamental facts that must be known in feeding infants. The first and by far the most important, is that there is no substitute for mother's milk. The next best food for mother's milk is clean, fresh, pure, raw, cow's milk. Let me emphasize the essentials of wholesome cow's milk: Cleanliness, freshness, not over twenty-four hours old, pure, cold, from cow to customer.

All milk not above suspicion must be sterilized or pasteurized. This should be done at home just before feeding, not a day or two before. Whole milk diluted with barley water, oatmeal gruel, or plain boiled water, meets a majority of the average feeding requirements. It is simple, requires little manipulation, and there is nothing to be added but sugar. But as every baby has its individual requirements, each must be studied and its food modified accordingly.

For a party of small tots trim the table with wee tapers about as long as your little finger, or with candles the size used for trimming Christmas trees. Also put them on a cake in rosette holders or around it in a circle made from a barrel hoop if you cannot buy the already prepared candle holder circles for birthday cakes.

Serve chicken sandwiches, Graham wafers, animal cookies, ice cream and have cake either angel food or sunshine. Peppermint candy will be best and the kiddies will love the paper caps that come with the snapping motion. If you have a regular luncheon I think a cream soup with lamb chops, green peas, but bread, fruit salad, coffee for the mothers and fruits of milk for the babies, would be nice.

I do not think a growing boy ought to eat meat more than once a day. He will find plenty of other things to eat—soups, especially thick ones, which are very strengthening, cereals, vegetables, milk, etc. The midday meal is the best time to eat meat if you are going to give it only once a day. But this may not prove satisfactory to your family, for many have the habit of a heavy dinner in the evening when father is at home. In such case, of course, let the child eat his meat at dinner.

If a small person must have a dose of castor oil—and in hot weather it is essential that the bowels be kept free—give it through the skin. Put a teaspoon or more in the skin over the stomach or abdomen. It will do the work just as well and will do away with the nauseating taste.

To the mother, boys at a certain age seem awkward, callow, half grown youths, who are timid and constrained in her presence. They do not present themselves as possible lovers of her little girl daughter. This is because maturity so frequently forgets its youth. The first fine careless rapture of life passes so quickly that some world-weary mortals would even deny that they had ever even caught a gleam of the shining robes of romance.

But if the mother could, for a little while, capture her lost youth, if she could only recall some of her own vivid, emotional life, if she could only be frank enough to confess to herself some of the unvoiced dreams and desires that she felt at sixteen, she would be better fitted to guide her daughter through this period.

Many a woman happily married to a good man, can recall the time when she cherished as the hero of her secret romance, the figure of some boy

EDUCATIONAL PROBLEMS

84TH ANNUAL CONVENTION OF AMERICAN INSTITUTE OF INSTRUCTION IN BOSTON

CAMBRIDGE, July 1.—Two general meetings and a series of conferences on specific educational problems have been arranged for the 84th annual convention of the American Institute of Instruction, opening here tonight. Among those expected to deliver addresses are President Robert J. Aley of the University of Maine, President Samuel C. Mitchell of Delaware college and Prof. George W. Kitchway of Columbia university.

The general meetings will be held tonight and tomorrow night. The conferences tomorrow and Saturday will consider school administration, rural schools, psychological studies and other topics.

Saturday, July 3rd, is "Quarter Day" at the Lowell Five Cent Savings Bank.

MINOR FIRES

A quantity of gasoline burning in a catch basin near the corner of Apple and Railroad streets caused a telephone alarm early last evening. It is thought that the gasoline was thrown into the basin and later ignited by a match or cigarette stub. A fire on a couch in a tenement at 120 Walker street was responsible for the alarm from box 33, Broadway and Walker street, at 5:34 o'clock yesterday afternoon. The fireman succeeded in confining the damage to the couch.

DELEGATE MATTHEWS RETURNS

Nathaniel W. Matthews, Jr., delegate to the New England Typographical convention held in Portland, Me., this week, returned home last evening and reports a most interesting session and delightful entertainment. Mr. Thomas J. Durkin, the other Lowell delegate, with Mrs. Durkin, left Portland yesterday for Ocean Park, Me., where they will spend a fortnight.

GOVERNOR WALSH NAMES MEMBERS OF MILITARY EDUCATION COMMISSION

BOSTON, July 1.—Governor Walsh yesterday made 11 more appointments, or a total of 36 in two days.

The governor's appointments were in connection with the special commission to investigate taxation problems and on the practicability of providing military education for boys and for the creation of a military reserve.

The governor named as members of the military education commission the following:

Robert L. Raymond of Milton; lawyer, and author of the act.

The Rev. Charles W. Lyons, S. J., educator; president of Boston college.

Alexander McKelvin, educator; president of Amherst college.

Harold E. Sweet, mayor of Attleboro and manufacturer.

Walton A. Green of Weston, publisher.

J. Frank O'Hare of Boston, representative of labor.

Major-General William Storford, M. V. M., retired, of Beverly, the adjutant-general under Governor Douglas.

Major-General William A. Pew, M. V. M., retired, of Salem, formerly colonel of the Eighth Massachusetts Infantry.

Brigadier-General John J. Sullivan, M. V. M., retired, of Boston, formerly colonel of the Ninth Massachusetts Infantry.

Walter N. Creamer of Lynn and Frederick T. Fuller of Walpole were named by the governor for the special commission appointed to investigate the taxation questions.

The other members of this commission who were named by the president of the senate and the speaker of the house, are Senators Tufts of Waltham and Wells of Haverhill and Representatives Drury of Waltham, Felton of Greenfield, Cuthbert of Beverly and McMorroff of Boston.

WANT WAR, NOT PEACE

BERLIN PAPER COMMENTS ON DIPLOMAT RIPS CRITICISM BY CZAR

BERLIN, via London, July 1, 11.40 a. m.—Commenting on the Imperial edict issued by Emperor Nicholas in connection with the formation of the Russian board of military supplies, in which the determination is expressed to carry on the war until Russian arms triumph, the Tagblatt says: "This proclamation shows how far removed the Russians still are from peace thoughts and how independent were the reports, originating chiefly in Scandinavian coffee houses, which professed knowledge of a growing inclination for peace in the Russian capital, and all sorts of peace negotiations."

"The Tagblatt expresses the belief that the Duma also will decide that the war must be continued until victory is won, and asserts that Russian ministerial changes do not denote preparations for peace, but merely for a better conduct of the war. The paper adds that the Russian army, in spite of all misfortunes, does not consider itself defeated."

Don't go away without it—Dows' Dipsococ Syrup, Druggists sell it, 25c and 50c.

LOST THIRD OF FLEET

BERLIN REPORTS ON LOSSES IN BRITISH NAVY—GERMAN VICTORY AT SEA MAY BE NEAR

BERLIN, July 1.—(By wireless telegraph to Sayville, N. Y.)—Among the news items given out by the Overseas news agency yesterday was the following:

"German papers reprint a special article which appeared in the Stockholm Aftonbladet, in which it was asserted that the losses of British warships caused by German submarine attacks were kept secret by the British admiralty, which was fearful of a considerable decrease in the superiority of the British fleet over the German."

"At the beginning of the war the ships of the first battle line of the British fleet numbered about 60, but these, the Aftonbladet article declares, have been reduced by systematic submarine torpedoing to 40, while Germany has lost no ships of this class."

"If these tactics are continued with characteristic German endurance, the article argues, the possibility of a victorious sea battle for the Germans against the British is near."

REDUCE POSTAL RATES

U. S. AND ENGLAND CUT PRICE ON READING MATERIAL FOR BLIND EXCHANGE

WASHINGTON, July 1.—By agreement between the United States and England, effective today, postage rates on reading material for the blind, exchanged between the two countries were substantially reduced.

The postoffice department announced that a flat rate of ten cents would be charged for packages weighing from 13 to 96 ounces. The weight limit is increased from four and one-half to six pounds.

EDITOR DIED SUDDENLY

OLIVER OTIS OF "ROCKLAND OPINION" PASSED AWAY AT ROCKLAND, ME.

ROCKLAND, Me., July 1.—Oliver Otis, editor and proprietor of the Rockland Opinion and one of the best known weekly newspaper publishers in Maine, died suddenly today following an operation. He was born in 1848 and had been engaged in newspaper work either as printer or editor since he was 13. He had been located at Farmington, Augusta and Auburn before coming here in 1875. He was a member of the legislature in 1911 and prominent in state democratic politics.

NEW CONVENT BOUGHT

REV. DR. KELEHER PROVIDES PERMANENT HOME FOR NUNS OF ST. PETER'S SCHOOL

Parishioners of St. Peter's will be pleased to learn that Rev. Dr. Keleher has purchased as a permanent home for the Sisters of Charity connected with St. Peter's parochial school, the commodious dwelling house at the corner of Highland and Thorndike streets, overlooking the South common, which has been occupied by them since the opening of the school, and owned by James F. O'Donnell.

The building is a large dwelling with mansard roof and all modern improvements, and upon taking it Dr. Keleher had its interior remodeled to meet the purposes of a convent, including the installation of a cosy chapel, with the result that it has proved eminently satisfactory to the sisters, a fact which caused Rev. Dr. Keleher to purchase it at this time. Additional room will be provided as it becomes required. At present there are nine nuns at the convent while two more will take up their duties here at the opening of the school in September. It is expected that two nuns will be added to the teaching force each term until the total number of 20 has been reached. The school has shown a steady increase in numbers and has been a decided success educationally. The Sisters of Charity of Halifax, N. S., are a teaching order with large schools throughout the country and the British provinces. They are a separate order from the Sisters of Charity at St. John's hospital, whose mother house is at Emmitsburg, Md., and who are doing hospital and orphanage work in addition to school and academic teaching.

WOMAN LOST HER PAY

AND HAD RUN-IN WITH CONDUCTOR TO ADD TO HER DISCOMFORTURE ON TRAIN FROM BOSTON

According to passengers on one of the afternoon trains from Boston to Lowell yesterday, a woman named Mary Simpson, residing in East Billerica and employed as a car-cleaver by the Boston and Maine, had a most unpleasant experience which, it is alleged, will be aired before the B. and M. authorities. The story is to the effect that the woman, who is of foreign extraction, shortly after entering the train discovered that she had lost \$42, which had just been paid to her by the Boston and Maine. In a state of excitement she was scouring the car for her lost pay when approached by the conductor, who asked her to report, sought to explain the situation, and the price of one, declining to honor the pass. A well known citizen among the passengers, according to report, sought to explain the situation to the conductor but the latter wasn't taking any suggestions from passengers, and made the effect known in no uncertain language. Finally the conductor signed the pass himself and the woman reached her destination. Several passengers, it is said, were most pronounced in their criticism of the attitude of the conductor. The matter and expressed their intention of presenting the case before the general superintendent.

SUN FEATURES FRIDAY

Quarter Century Ago, Suburban Articles, Departments of Special Interest to Women, Comic Features

The Old Timer reviews the Fourth of July celebration of quarter of a century ago.

LATE WAR NEWS

RUMORS IN LONDON OF CONTINGENT OFFENSIVES BY ENTENTE ALLIES

LONDON, July 1, 11.50 a. m.—While the Austro-German armies continue to push the Russians back over the Galician border into their own territory rumors are rife in London of contemplated offensives by the entente allies. The French are credited with the intention of making a formidable attack on account of the enormous expenditure of artillery ammunition to the north of Arras, where a persistent bombardment has been kept up for the last fortnight; while the Anglo-French forces on the Gallipoli peninsula are said to be on the point of making a supreme effort to capture the massive hill of Achi Baba, which dominates all the country south of the Narrows of the Dardanelles.

Important Gains by Allies

The recent gains claimed by the British and French on the southern end of the peninsula are considered important ones because they indicate an approach to the hill on three sides.

Warsaw More Open

On the eastern front every change has been Warsaw more open to the drive which the Germans and Austro-Hungarians evidently are making towards the city.

Along the northern line the Austro-Germans appear to be experiencing the greatest success, for the Russians seem to be making a stubborn fight along the Gdansk Lipa with no real gain generally between the Vistula and Bug rivers toward Lublin.

In the west both sides have attacked in the Argonne forest and beyond the Meuse hills without decisive result. The fighting of the past fortnight has been without permanent result except in the Vosges where the French have consolidated substantial gains.

From Vienna the Italians are reported to be showing renewed energy along the Isonzo river, having brought up more men and guns but no decisive action is reported.

The Thistlebank was a four-masted bark of 2350 gross tons, built at Glasgow in 1911.

ATTEMPT OF GERMAN WARSHIP TO BOMBARD WINDAU, REPULSED

PETROGRAD, via London, July 1, 5.56 a. m.—An attempt by German warships to bombard the port of Windau, Courland and land troops was repulsed by the Russians, according to an official statement issued last night at headquarters of the general staff.

The communication follows: "A squadron of German ships consisting of one patrolling cruiser, four light cruisers and many torpedo boats bombarded Windau and attempted to make a landing on the coast, but was repulsed. One of the hostile torpedo boats was blown up by a mine. Our torpedo boats engaged the enemy's cruisers. Other Russian torpedo boats, protecting these operations from the north, compelled the enemy to retire."

There has been a lull in the Shvili region on the Nien and Narow fronts and on the left bank of the Vistula.

"The enemy offensive between the Vistula and the Bug on the Zamostie-Sokolka front continues."

On the western Bug and on the Gdansk Lipa on the 28th and 29th we successfully repulsed enemy attacks.

"Noting the enemy crossing the Dniester near Hailow we took the offensive and drove him back making hundreds of prisoners."

BRITISH BARK WITH A CARGO OF WHEAT WAS TORPEDOED BY GERMANS

LONDON, July 1, 12 noon.—The British bark Thistlebank, which sailed from Bahia Blanca, Argentina, April 26 with a cargo of wheat for Queenstown, was torpedoed by a German submarine yesterday off Fastnet, Ireland.

Some of the crew were landed at Baltimore, 17 miles southwest of Cork.

GERMAN AND AUSTRIAN TROOPS SANDWICHED TOGETHER IN GALICIA

LONDON, July 1, 6.20 a. m.—A Reuter despatch from Petrograd says: "Field Marshal von Mackensen's German army on its northern advance from Galicia, is flanked by Austrian forces under Archduke Joseph Ferdinand and Gen. von Boehm-Ermolli. Everywhere in Galicia German and Austrian troops were sandwiched together, the Austrians within easy reach of German support."

"The first objective of the Teutonic advance between the Vistula and the Bug is Lvovsk by way of Lublin, Brest and Litovsk. A turning movement also is expected east of Brest and Litovsk by way of Kovel."

Lvovsk is at the confluence of the Vistula and the Vepz and with Novo Gorowka, Brest and Litovsk it forms an important triangle of the Russian forces in Poland.

FEATURES OF LAST NIGHT'S EUROPEAN WAR NEWS IN BRIEF FORM

German submarine sinks British steamer Armenian; 29 men killed, nearly 20 of them Americans.

President Wilson notified of Armenian sinking and awaits fuller report before deciding on course.

British push Turks out of trenches back half a mile.

Teutons report successes on rivers Bug and Gdansk Lipa, and retreat of Russians in Poland on both sides of the Vistula.

British volunteers to make munitions so numerous that no compulsion is likely.

Germans capture French positions near Bagatelle.

Italians deliver a great attack on

TROLLEY AND BOAT EXCURSIONS

IN POLICE COURT

After pleading guilty before Judge Enright in police court this forenoon to a complaint charging them with the larceny of an automobile owned by George H. Tower of East Pepperell from Shattuck street, this city, Tuesday night, George Kinsman, 25, and Daniel Coughlin, 19, were held in the sum of \$1000 each for the next session of the grand jury.

The defendants expressed a desire to relate their side of the story but His Honor ruled that he had no jurisdiction over the matter and that they would have to be held over for superior court.

Another youth, who registered as Thomas J. Burns was held for the grand jury in \$300 surety for attempting to break and enter in the nighttime the store of Hamed Eldeh on East Merrimack street with intent to commit larceny. Burns pleaded guilty.

Patrolman Kennedy, who patrols in Belvidere late nights, arrested the defendant about 1.30 o'clock yesterday morning. It is alleged that he attempted to break into Eldeh's store by prying the front door with a screwdriver, which was found upon his person when arrested.

For keeping an unlicensed dog, John J. Kellher was ordered to pay a fine of \$5. Patrolman Moloney told the court that as a result of a complaint made to him that a man had been bitten on Lawrence street, he went to Kellher's house and learned that the dog was not licensed. The animal was taken to the gas box, Monday, afternoon.

Nine drunks, including four women, were haled into court while there were a few releases by the probation officer. John Barr was complained of by his wife for using vile language in the house and abusing her in general way. She told the court she would take care of herself and one child if her husband were made to keep away from her. On condition that he do so, Barr was given a suspended sentence of four months in jail. Elmer H. Finstead, charged with being a common drunkard, was given a suspended sentence of six months in the house of correction. Mary Linnehan, on parole from the state farm, pleaded guilty to being drunk and was sent back to that institution, together with two other women, one of whom requested to be sent away, though her husband objected. Another woman was fined \$5 and three men were given suspended sentences.

TAKE OVER SAYVILLE PLANT

WASHINGTON, July 1.—The United States is seriously considering taking over the wireless station at Sayville, L. I., one of the two great plants by which direct communication between the United States and Germany is maintained. The other station at Tuckerton, N. J., is already under government control.

Evidence of alleged violations of neutrality at Sayville, notwithstanding the censorship conducted by the navy department, has been gathered by the department of commerce, and Secs. Redfield, Daniels and Lansing expect to announce their decision in a few days.

THE LUSITANIA INQUIRY

Prof. Marichal Attacks Cunard Co. Says Explosion Resembled Sound of Maxim Gun

LONDON, July 1, 12.55 p. m.—With the object of eliciting further information regarding the questions submitted to the British board of trade in the Lusitania inquiry, Baron Mersey held another public hearing today.

Prof. Marichal of Queen's university, Kingston, Ont., who said he was a retired officer of the French army, created a diversion by complaining of the treatment accorded to rescued passengers of the Lusitania by the Cunard company.

He alleged that the survivors had the greatest difficulty in obtaining dry clothes, food, accommodation or transportation.

Prof. Marichal also stated that the second explosion on the ship resembled the sound which would be caused by ammunition, "like a Maxim gun." He also charged the company with indifference to the interests of the passengers and with a dangerous and unskillful conduct of the rescue work.

Counsel of the Cunard line then read a letter written by Prof. Marichal to the company after the disaster, in which the writer asked that cash be advanced on his lost baggage or that he would give evidence "not to the credit of the company or the admiralty."

"Doesn't that imply you wanted money to keep your mouth closed?" asked Baron Mersey.

The witness explained that he meant he would bring a separate action apart from the inquiry unless he was paid, but denied that he remained silent at the inquiry for that reason.

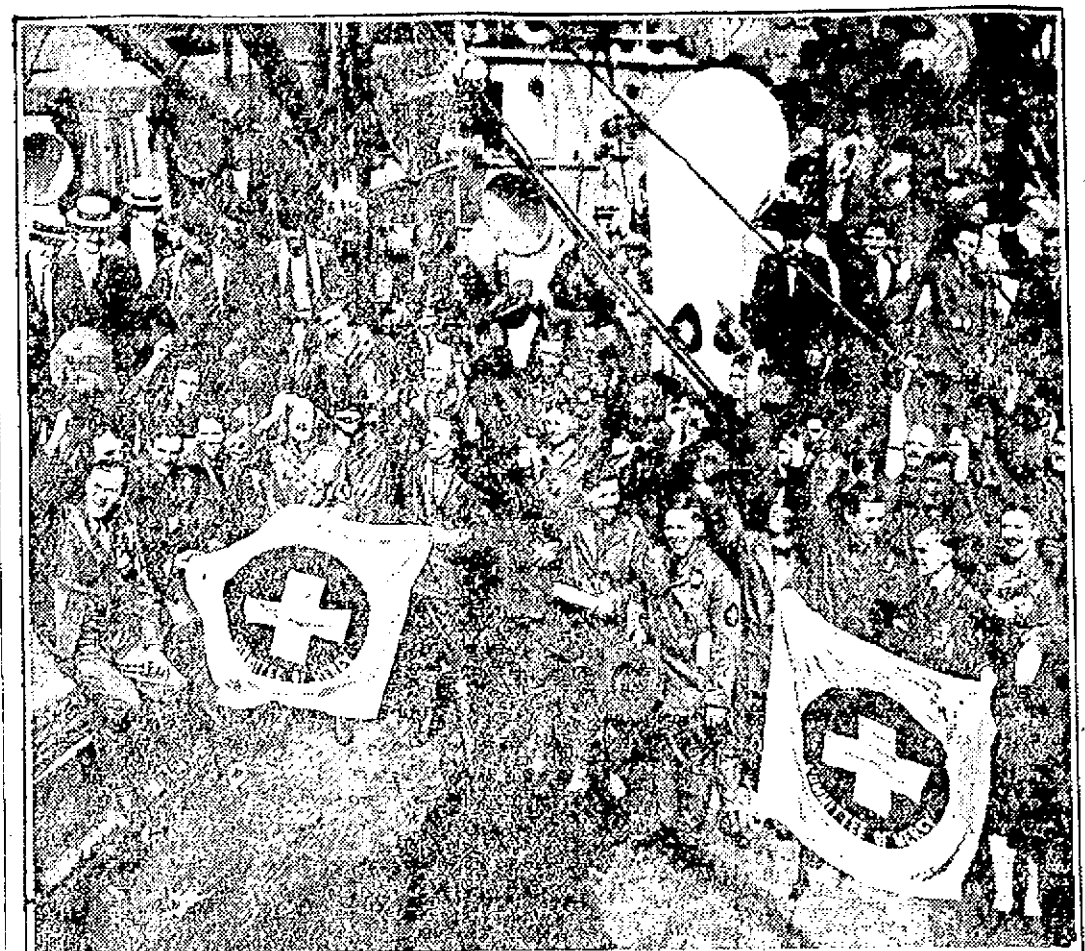

"I don't believe you," declared Lord Mersey.

The witness expressed indignation at such an interpretation of the latter but the presiding officer was unyielding and the professor left the stand in anger.

One of the objects of reopening the inquiry was for the purpose of reviewing the testimony relative to the condition of the collapsible boats. The evidence regarding the boats was largely technical as to whether they were capable of being used and if the sink had been removed.

Lord Mersey said the particular evidence he desired was whether the grips and lashings were loose, the evidence regarding which was contradictory; but an expert stated that if the lashing had been loose the boats would have floated from the deck when the ship sank.

GERM PROOF GARMENT WORN BY STUDENTS AND PHYSICIANS IN FIGHT ON TYPHUS

GOING TO WARD OFF TYPHUS

When the Greek steamer Themistocles sailed from New York she had on board twenty-five Columbia university students bound for Nish on a Serbian relief mission and thirty-five physicians from different parts of the country who make up a Red Cross expedition. These doctors are taking with them a new costume which has been invented to meet the special requirements of their work by Dr. William Clark and Dr. F. T. Van Buren of the College of Physicians and Surgeons. The particular feature of the costume is that it is made from top to toe in one piece, which includes a kind of hood for the head furnished with mica covered eye holes. The garment is to protect the physicians from insects which carry typhus germs. As a further precaution against the germ carrying insects the physicians will sleep in cots suspended by ropes covered with a tar preparation. The physicians will also wear underclothes of silk, which will be washed in gasoline each night to guard against infection. The accompanying photograph shows a scene on the deck of the ship just before she sailed from New York.

RUDOLPH MALIK INDICTED

CHARGED THAT HE THREATENED PRESIDENT WILSON WITH "A POLITICAL CRIME."

NEW YORK, July 1.—The federal grand jury today indicted Rudolph Malik, a salesman arrested here last night, charging that in a letter mailed June 23 to President Wilson, he threatened the president with "a political crime," should the president refuse to pay him \$300. The money, it was charged, was demanded as an indemnity for Malik's inability to return to his family in Austria.

MEXICAN SITUATION

The official view of the complex Mexican situation, the situation in the Mexican capital, made more dangerous for foreigners by the battling armies in the suburbs, is causing Washington officials more worry just now than any other phase of conditions in the southern republic.

Latest reports from Mexico City, which came by way of courier to Vera Cruz and were cabled to the state department several days late, said conditions bordering on anarchy prevailed there with unchecked mobs rioting and looting stores. These advances made no mention, however, of foreigners having been harmed.

The situation was laid before Secretary Lansing upon his return today. President Wilson, at Cornish, N. H., also has been advised.

BROWN TAIL QUARANTINE

NEW ENGLAND FOREST PRODUCTS UNDER BAN—DEPT. OF AGRICULTURE TAKES DRASTIC ACTION

In a determined attempt to prevent the further inroads of hordes of gray and brown tail moths which are devastating New England forests, the United States department of agriculture has declared a quarantine on a great variety of timber, plants and seedlings.

This drastic action, which goes into force today, will affect towns and cities in all parts of New England, and under its ruling none of the products quarantined may be moved mentioned are spruce, fir, hemlock, pine, cedar, white cedar, the decorative plants, such as holly and laurel, together with forest plant products, such as logs, tan bark, posts, poles, railroad ties, cordwood and lumber.

Field grown florists' stock, trees, shrubs, vines, cuttings and other spruce and plant products, excepting fruit pits, seeds of fruit and ornamental trees and shrubs, field, vegetable and flower seeds, bedding plants and other herbaceous plants and roots, may not be moved interstate from any point in the areas quarantined to any point in areas not quarantined.

Deduction of the shrubs of the area quarantined will not be allowed to move until inspected by agents of the department of agriculture and pronounced free from the brown tail moth regulations.

Under the regulations every container of plants or plant products of which inspection is required, must be plainly marked, and bear a certificate showing that the contents have been inspected.

Persons intending to move or allow to be moved, interstate plants and plant products for which certificates are required, are cautioned to make applications therefor as far as possible in advance of the probable date of shipment.

All charges for storage, cartage and labor incident to inspection other than the services of inspectors shall be paid by the shipper, according to the regulations.

HAZATLAN WATER WORKS RETURNED TO OWNERS

GUAYMAS, Mex., June 30, via radio to San Diego, July 1.—The water works at Mazatlan, principally financed by American capital, has been returned to its original owners by the Mexican authorities according to word received today. The property had been taken over by the local authorities without great protest.

It is reported that Tepic city was captured by Villa soldiers June 24, but recaptured later by Carranza forces. Quiet reigns in the Yaqui district so far as can be learned.

The U. S. S. Colorado is anchored here.

LOOTING IN MEXICO CITY

WASHINGTON, July 1.—Desperate conditions in Mexico City, which are described in dispatches cabled to the United States government from Vera Cruz by courier, who left the Mexican capital last Friday, June 25.

When the courier started, practically the entire garrison had been withdrawn to join the Zapata army on the outskirts of the city, opposing the attacking Carranza forces, under Gen. Pablo Gonzales. Gonzales had been driven back with considerable loss and was waiting for reinforcements coming up from Vera Cruz before renewing the assault.

No mention was made of attacks upon foreigners, so officials assumed that they were safe. Many stores had been looted, the dispatches said, and great mobs were ransacking and seizing food wherever it was to be found.

The dispatches were forwarded immediately to President Wilson, at Cornish, N. H., and the situation will be laid before Sec. Lansing when he returns from Amherst.

The Mexican capital has been cut off from communication with the outside world by wire and rail for 12 days. The last previous word from there has come Monday night in the dispatches from the British charge sent by courier, who left the city June 23, two days before the departure of the messenger who brought the reports received last night. At that time conditions were only less serious than the latest dispatches describe them.

The Zapatistas are said to be nearly 25,000 strong, and although poorly equipped for battle against the forces of Gonzales, which are well armed and plentifully supplied with ammunition, are expected to fight desperately before leaving the city to the Carranza forces.

PUTTING IN NEW SERVICE

SUPT. THOMAS SAYS WATER DEPARTMENT MEN ARE KEEPING OUT OF WAY OF STREET PAVERS

Commissioner Morse made the statement a few days ago that he was being more or less delayed in his paving operations in Gorham street by the street railway company and the water department. This effort to obstruct, however, is quite vigorously denied by the water department. Supt. Thomas stated today that the water department keeps at least 2500 feet ahead of the pavers and that that has been the case in Gorham street where twelve inch pipe is being laid. Other streets in which the water department is operating in order to get things in readiness for the pavers, include Elm street, where new services are being put in and post hydrants substituted for flush hydrants. The flush hydrants in Hale street are also being changed to post hydrants with annual repairs as required by the board of fire underwriters. Another pace of water department men are laying pipe in Bellvue street extension, including Hillside and Temple streets.

GAMES POSTPONED

(American) — Boston - Philadelphia game postponed, rain.

New England - Lowell-Portland game postponed, rain.

New England - Lynn-Lawrence game postponed, rain.

New England - Fitchburg-Methuen game postponed, rain.

PLAY GOLF IN RAIN

BROOKLINE, July 1.—Because of the heavy rainfall which converted the golf course at the Country club into a labyrinth of rivulets and pools, low scoring was impossible today in the third round of the Massachusetts open golf championship. Most of the scores were over 90, although Gilbert Nichols of Wilmington, Del., turned in a card of 75, the best performance up to mid-afternoon. Scores of leaders for today together with their totals for the 54 holes thus far played, follow (in descending order of scores):

J. M. Nichols, Wilmington, 75-221; J. M. Barnes, Whitmarsh, 80-217; George Bowden, Tedesco, 80-217; Francis Quinn, Woodland, 82-214; Tom Anderson, Montclair, 79-234; Tom Kerrigan, Dedham, 82-233; P. J. Doyle, Myopia, 82-239; J. Jesse H. Gifford, Bellevue, 78-240; Matt Campbell, The Country Club, 81-243; E. R. McRoby, Florida, 83-245; J. J. Gordon, Rhode Island, 84-247; J. J. Sullivan, Jr., Commonwealth, 75-249; Alex. Russ, Brae Burn, 85-249.

FUNERALS

LAUGHTON.—The funeral of Abel A. Laughton took place from his home, 145 Andover street, yesterday afternoon. The services were conducted by Rev. Edward H. Newcomb, pastor of the First Congregational church. The bearers were Messrs. W. H. Lynde, H. L. Pishay, Allen Fraser, and James Hunt. Highland Veritas lodge, I. O. O. F., was represented by W. O. and W. F. Parrill, E. S. Sanborn and J. C. Bowen. The choir under the direction of the Lowell cemetery, where the funeral service was read by officers of the Ancient York lodge, A. O. U. M. The flowers were beautiful. The funeral was in charge of Undertakers Young & Blake.

PERSONALS

Miss Bessie Brundin is spending her vacation at Auburn, R. I.

George Johnson, of San Francisco is visiting at the home of his nephew, Paul A. Johnston, 116 Adams street.

Mr. and Mrs. H. L. Bigelow of 153 School street have gone to Quebec, Can., to attend the funeral of Mr. Bigelow's father.

An aluminum shower was tendered Miss Edna Redding last evening at the home of Miss Adelle Barrett, 16 Robert street, by the employees of the New York Club & Suit store.

Miss Irene Hall, daughter of Mr. and Mrs. Frank Hall of 110 South Walker street, is visiting her uncle and aunt, Mr. and Mrs. Ernest Page Fuller at their summer home at Buldeford Pool, Me.

R. C. Williston, formerly of this city, who is now engaged in the optical business in Bangor, Maine, has been elected chancellor commander of Kensington Lodge, No. 52, Knights of Pythias of that city. Kensington Lodge No. 52 is one of the largest lodges in the state of Maine.

MATRIMONIAL

James Gordon and Miss Blanche Chaput were married Monday at St. Joseph's rectory, the ceremony being performed by Rev. Augustin Gratton, O. M. I. The bride, who wore white crepe de chine and carried white roses, was attended by Miss Mary Gordon, while the best man was Thomas Gordon. At the close of the ceremony a reception was held at Page's banquet hall with about twenty guests present. The happy couple left for Boston in an automobile, and from there they boarded a train for New York. Mr. and Mrs. Gordon, who were the recipients of numerous gifts will make their home in this city.

ELDRIDGE—AKER

Mr. Fred Eldridge and Miss Lily May Aker were married at 7:30 o'clock last evening at the home of the bride's parents, Mr. and Mrs. William J. Aker, 17 Chestnut street, by the Rev. Arthur C. Archibald, pastor of the First Baptist church. The bride wore a gown of rose color and a veil caught up with ribbons of the color. She carried a bouquet of bridal roses. Miss Carrie Aker, a sister of the bride, was bridesmaid and wore blue silk and carried a bouquet of pink carnations. The bride's gift to the bridegroom was a string of gold beads. Mr. Burt Singleton was the best man, was a gold tie clip. Mr. and Mrs. Eldridge received many beautiful gifts.

KELLEY—ORourke

A fairly large reception took place at the immediate reception place on

MOVIES OF THE PARADE

Lieut. Sheldon arranges to have films made—marshals meet tonight

Lieut. Harry G. Sheldon, adjutant of the Fourth of July parade, received word this morning from Pathe Freres to the effect that this big company of moving picture films would send some of its representatives to this city Saturday for the purpose of taking pictures of the parade and other events connected with the great celebration.

Lieut. Sheldon got in touch with the officials of the company some time ago and he finally interested them to come to Lowell. The employees of the company will remain in Lowell for the Sixth and Eighth regiments at camp, the parade, and the decorations and other features connected with the event. This will be done in an endeavor to advertise Lowell, as the films will later be shown throughout the world.

The final meeting of the marshals of the various divisions of the parade will be held this evening at the armory in Westford street, the officials of the parade to assemble in the quarters of Major Colby T. Kittredge, chief marshal of the parade. All plans will be completed and the full program of the celebration will be announced tomorrow.

If you want help at home or in your business, try The Sun "Want" column.

FUNERAL NOTICES

BROOKLINE.—The funeral of Cornelius J. Cronin will take place Friday morning from the home of his widow, Mrs. Cronin, 225 Elm street, at 10 o'clock. High funeral mass will be sung at the Sacred Heart church at 10 o'clock. Burial will take place at 1 o'clock. The funeral will be in charge of the Rev. Father J. J. O'Connell in charge.

METHUEN.—The funeral of Mrs. Teresa Cronin will take place Friday morning from her home, 234 Webster street, at 10 o'clock. At the Sacred Heart church a funeral mass will be sung at 10 o'clock. Burial will take place at 1 o'clock. The funeral will be in charge of the Rev. Father J. J. O'Connell in charge.

DEATHS

ELM.—William L. Laidie, aged 36 years, died today at the Chelmsford hospital. He was a native of Lowell and was employed as a laborer. He was married and had three children, two sons and one daughter. His funeral will be held at 10 o'clock at the St. Patrick's cemetery. Burial will be in charge of the Rev. Father J. J. O'Connell.

MURDER ON ELM STREET

Continued

quity he was told by someone that there was trouble in his house. They entered the doorway leading up to the tenement, Capopoulos looking the way and on the way up the stairway they were told by a woman living downstairs that Demos had been murdered. Capopoulos stopped and inquired for particulars of the crime but Comatos kept right on up the stairs. This is the story told Supt. Welsh by Comatos.

Man Hunt With \$500

Arthur George, whose correct name is George Glakas, was the next examined by the authorities. He was first subjected to a search and a belt valued at \$500 on his person was found. This caused the police officials to sit up and take notice as Demos also carried about that sum of money on his person, but Glakas' explanation satisfied the police. He said he left Demos, Comatos and Capopoulos talking together last evening, some time around 7 o'clock and went to a house in Fayette street occupied by a party named Samuel Pappas. He returned to the house at 9:30 to find all the doors open and the lights out. He said he was afraid and went down stairs and called to Nicholas Stathas and both men entered the upstairs apartment. Glakas lit the lights and upon looking into the bedroom occupied by Demos, he found his companion lying in a pool of blood.

The belt he wore was different from the one worn by Demos and he satisfied the authorities as to how he came to have such a large sum of money on his person.

Stathas was brought to the station

at 3:30 this morning and corroborated the story told of finding the body by Glakas.

Following the discovery of the body of the murdered man, Glakas said he hurried to the Pappas residence in Fayette street, and acquainted Mrs. Pappas with the facts. Both Mrs. Pappas and Glakas then started out to look for Mr. Pappas, and they found him standing in Merrimack square. The matter was reported by them to the police.

Statement by Pappas

Pappas was next questioned by Supt. Welsh and he told a story that may have important bearing on the case. While he was sitting in Merrimack street he said, he noticed Comatos walking up the sidewalk on the other side of the street. This was about 9:30 p. m., and Comatos could not or did not explain where he was at that time. On further questioning, Pappas said he was not sure the man he saw was Comatos, but said he looked like him.

Coffee House Men

George Stathas and Polyzos Georgopoulos, proprietors of the coffee house at 366 Market street were brought to the station at 3:15 a. m. for examination. Stathas said he saw Comatos in his place of business but was not sure as to what time it was. Later he stated that it was before 9 o'clock. Georgopoulos also recognized Comatos but could not say what time he first entered the place.

The examination of Capopoulos revealed nothing further than that he accompanied Comatos to Market street and later went home with him.

Dr. Melis' Statement

Looking over the hands of Comatos, Medical Examiner Melis and City Physician Tighe found blood under the cuticle of the finger nails on both hands. Blood was also found on an undershirt which Comatos said he wore on the night of the murder. When asked to explain this Comatos said he had nose bleed while at work yesterday, caused by a straw being caught in one of his nostrils. Both Dr. Melis and Dr. Tighe examined the man's nostrils and found nothing that would indicate a nose bleed, or no evidence of blood in the nostrils. Dr. Tighe did find, however, a slight abrasion in the left nostril.

Comatos works at Trull's farm and yesterday he said he wore the shirt on which the blood stains were found to work. The stains, he asserted, were caused by the nose bleed.

A black shirt and an undershirt taken from his room in the Elm street apartment were brought to the station last night by police inspectors. Both shirts were damp with perspiration when taken from the apartment and the police claim were worn by Comatos in his work yesterday. There are no stains on either garment.

Demos Had \$500 in Belt

The fact was established by the police that while at the Lowell General hospital, Demos wore a belt made out of cotton cloth around his body in which was kept over \$500. When he was taken to the hospital he was placed in one of the charity wards of the institution, but when the money was found by hospital attendants he was transferred to a private ward. He was charged \$35 for 10 days' treatment at the hospital.

Greer Warned Demos

While Demos was at the hospital, a crook named Vargapoulos warned him against carrying such a large sum of money around with him, but Demos said he was afraid of the banks. Vargapoulos keeps a grocery at 360 Market street and was a close friend of the dead man.

Dead Man's Knives

The knives found in the room where Demos was murdered are made out of files and are sharpened on both sides. Two of them were found in a trunk and the third was taken from a pocket of the dead man. One of the knives has a blade about eight inches in length and is one of the most treacherous looking articles to come into the hands of the police in a long time.

It is said that Demos has a married daughter living somewhere near Lowell.

Tony Perez, the other occupant of the tenement in Elm place, the police are satisfied was at work last night. He is employed at the Boot mills.

Up All Night

The police officials who conducted the investigation of the murder were up all night the session in which the different men were brought in lasting until after 5 o'clock this morning. The investigation continued throughout the day and the police were kept pretty busy looking up rumors and tracing statements made by parties interviewed.

Story of the Crime

Lying on his back in a pool of his own blood, with his body stretched out, he was found by the police.

Continued to page eight

DAINTIES FOR ORPHANS

DR. AND MRS. CAISSE PROVIDE GOOD TREAT FOR THE CHILDREN AT ORPHANAGE

The boys and girls of the French-American orphanage in Pawtucket street were royally entertained yesterday afternoon when Mrs. George E. Caisse, wife of Dr. G. E. Caisse of Merrimack street, gave them their fourth annual strawberry party. Of course the little ones expected the feast for each year since the first party of this kind was conducted, they anxiously await the strawberry season.

The boys and girls, numbering nearly 300, were taken to the large assembly hall, where for a couple of hours they were entertained by their hosts, the doctor and his wife, who served the delicious fruit in various forms. The menu included strawberry shortcake, strawberries with cream, the fruit with sugar and ice cream and it is fair to assume that the treat made the little ones happy.

After all had partaken of the dainty meal, the doctor and his wife, given by the children under the direction of the sisters in charge of the institution, and Dr. and Mrs. Caisse spent a most enjoyable afternoon. Mrs. Caisse is a favorite among the children, very often and twice a year she acts as their hostess, at Christmas she organizes and presides over a Christmas social and during the summer she entertains them a strawberry festival.

The sisters of the orphanage extend their thanks to W. P. Caisse, Jr., school committeeman, and Mr. and Mrs. Joseph Martin for their cordialities toward the institution. Recently Mr. Caisse gave the children a candy treat, while a few days later Mr. and Mrs. Martin supplied the little ones with a large quantity of cherries.

NO CLOSED BOOTHS

LAW PROHIBITING THEM IN DINING ROOMS TAKES EFFECT TODAY

If there are any closed booths and stalls in use in the hotels and cafes of this city they must become a thing of the past today, as the result of the new law becoming effective prohibiting the use of such enclosures in any place where food is served to the public. The law prohibiting the booths and stalls, was urged by the white slave commission, and is a state wide law. It provides that the use of booths or stalls or similar enclosure may be punished by a fine of \$500 and imprisonment for one month for each offense. In addition to this, the restaurants, cafes and hotels which violate the law may lose their license.

ACQUITTED OF MANSLAUGHTER

NEW BEDFORD, July 1.—Benjamin Ermiti of Mansfield, who on five days has been on trial for manslaughter before Judge Dabigne in superior court here, was found not guilty of manslaughter, but guilty of carrying a loaded revolver. The court decided that Ermiti had suffered enough from his wound, caused by the gunshot of the defendant, Joseph Pahlug, who was tried with him, and sentenced him to pay the minimum fine of \$50, which he did. Pahlug was found guilty of carrying a loaded revolver, not guilty of assault with a dangerous weapon. Ermiti, and guilty of assault with a dangerous weapon. He was not sentenced this morning.

PRESIDENT TO VISIT MRS. MEADDO

ROCKLAND, Me., July 1.—President Wilson is expected to visit his daughter, Mrs. William G. Mead, and Secretary McAdoo, at North Berwick, Me., where it is understood here. Mr. and Mrs. Mead arrived today to open their newly purchased cottage which is situated on the north shore of the island, facing Fox Island, throughout in Peconic bay. Miss Margaret Wilson, who is at Deer Isle for a visit with Washington friends, will be with them in week.

MISS GALE'S RECITAL

Two delightful pianoforte recitals were given yesterday afternoon and evening by the pupils of Miss. Ella Leona Gale, the affair being held at Kitson hall. The program was varied and consisted of masterpieces, which were greatly appreciated by the large audiences.

The afternoon recital was given by the younger pupils with the assistance of Miss Helen L. Marden, violinist, and Miss Marion H. Leadbetter, pianist.

The evening's recital was given by the more advanced pupils and Miss Marden again assisted. The program was as follows: Alice Ripley, Dorothy Billings, Vincent V. Ravi, Forrest White, Vernon B. Morris, Elizabeth A. Shepherd, Loreta M. Hecker, Stella McLean, Grace Ellingwood, Mildred Johnson, G. Russell Morris, Mabel E. Byrnes, Harold E. Hadley, Jessie A. McDonald, Helen L. Marden, C. Grace Ellingwood, Paul W. Merrill, Marion H. Leadbetter, Miss Gale. Master Charles P. Coffin had charge of the distribution of the programs and Miss Elaine A. Rich and Ruth Esther Foss acted as usher.

Those who contributed to the success of the evening program were as follows: Mary McKinstry, Pearl Houghen, Lottie Agnew, Evelyn Armstrong, Grace F. Rowan, Lillian M. Cheney, Marion Vasselin, Doris M. Gale, Mildred S. Leland, Elizabeth Fulton, Lillian Cheney, Helen L. Marden, Marion H. Leadbetter, Ruth A. Smith, H. H. Melton, Gertrude V. Morrill, Jennie Hume, Charles Coffin, Gladys A. Ders. The ushers were Bertram A. Day and Harold A. M. Gale. The assistants were Misses Greta M. Buckley, Gladys E. Swain and Rose M. Wright.

FOR MONTESSORI COURSE

Natal Italian Educator Will be at Panama Fair in Course For Teachers and Parents

SAN FRANCISCO, Cal., July 1.—Under the patronage of Miss Margaret Wilson, daughter of President Woodrow Wilson, Dr. Maria Montessori, the noted Italian educator, will conduct an international Montessori training course at the Panama-Pacific International exposition during August. September, October and November. With Miss Wilson on the committee in charge of the course are David Starr Jordan, president of the National Education association, which meets in Oakland in August, and P. P. Claxton, U. S. Commissioner of Education.

The special course will be for the benefit of teachers, parents and others interested in child welfare, and in connection with it will be held a number of demonstration schools in which teachers can practice work. Noted educational experts from all parts of the United States and from abroad have been asked to conduct a thorough study and test of Dr. Montessori's method of child training during this course.

Automobilists, Attention!

Mr. G. A. Round, lubricating engineer of the Vacuum Oil Co., will be at our store all day Friday, July 2, and will be at your service. If you have any lubricating troubles he will be pleased to answer any questions and give you correct advice as to the kind of oil which you should use in your automobiles to get best results. If you have any ignition trouble or other troubles with your motor, don't fail to take advantage of this expert's advice which will cost you absolutely nothing.

ERVIN E. SMITH COMPANY

43-49 MARKET STREET

PORTLAND WON SCOUT SCOUTIN'

First Game of Maine
Trip Goes to Duffs—
Rain Interfered

(Special to The Sun)
PORTLAND, Me., July 1.—In a game played for the most part with showers falling, Portland beat Lowell at Bay-side Park here yesterday afternoon 4 to 2, the game being called after six full innings, Umpire Bransfield offering "darkness" as the reason.
Faddy Green, on the rubber for Lowell, was effective and Jordan twirling for Portland kept the hits of the visitors down well but runs just would be called and that was all there was to it by Lowell's run-getting was begun and finished in short order in the third inning. Ahearn slashed a single and then Faddy Green stepped into the field and lifted it over the fence in right field for a home run. It was one of the longest hits ever made here and one of a very few ever placed over the fence.
In the first inning, Portland collected a couple of runs with never a hit nor an error behind either. A base on balls, two futile fielders' chances and three stolen bases, telling the story. In the second session, a base on balls, passed ball, stolen base and then a hit by Lowell scored another run. In the third, Farrell had scored and the bases were filled when Faddy pulled a laugh-provoker through the oddity of the play. He took Hayden's ground out well but threw wild to first and before the ball was returned to the diamond, the three base runners and Hayden had scampered across with titles. There had been two out when the fizzle was made. In the fifth, Johnny Dowell felt so happy over his hit that he stole second, stole third and then scored on Wright's sacrifice fly.
Catcher Ahearn hurt a finger and retired in the fifth in favor of Greenhaige, Lohman going to first base. The score:

NEWARK TRANSFERRED

NEW YORK, July 1.—The Newark, N. J., International league club yesterday was transferred to Harrisburg, Pa., for the remainder of the season. This decision was reached at a league meeting called to act upon the request of the Newark club that the franchise be temporarily transferred. Announcement was made that the first game at Harrisburg will be played with Jersey City Friday. Officials of the league said that no other changes were contemplated.

Kelchener of St. Louis
Americans Has Eye
on Local Club

Charlie Kelchener, scout of the St. Louis American league club in the summer and college professor at other times, has his eye fastened on some player or players of the local team unless all signs fail.
Kelchener has put through the majority of the trades effected by the Lowell team since the franchise was taken up by the present management. Just who the scout has his eye upon now is not known, however, for Charlie never was noted for saying much about his business.
Probably, though, a young man by the name of James Greenhaige, alias "Snubber," is being given careful consideration by the big league scout. His work with the stick has earned him a reputation all over the league and there isn't a pitcher or a manager in the circuit who does not fear him when he steps up there to the plate.
The trouble with Greenhaige is that he hasn't a position. He's too small for a catcher and has never proved himself either an infielder nor a worthy tender of the far pastures. But he surely can clutch that ball. If "Snubber" was a second baseman or a left fielder or anything else on a ball club there'd be nothing to it. In fact Lowell would be fortunate in keeping him the remainder of the season.

BRADY LEADS THE FIELD

MAKES ROUNDS OF 73 AND 71 IN
MASS. OPEN GOLF CHAMPIONSHIP
AT COUNTRY CLUB

BROOKLINE, July 1.—Two brilliant rounds of 73 and 71 were made yesterday by Michael J. Brady of the Wollaston G. C. in the Massachusetts' open golf championship at the Country Club, Clyde Park, Brookline, playing in the first half of the 72 holes stroke competition for the state title. Brady led the field at the conclusion of the day's play by two shots. His total of 144 was two strokes better than Walter C. Hagen of Rochester, N. Y., national open champion last year, whose two rounds of 73 gave him 146.
Close on the heels of the two leaders is Gilbert Nichols, eastern open champion, with 149. Jim Barnes, the rangy golfer from the Whittemarsh Valley C. C., finished in fourth place, one shot behind Nichols, while Francis Oulmer of the Woodland Golf club, national amateur champion, and Tom McNamara, runner-up in the recent United States open tournament at Baltmore, tied for fifth place with 151.
Louis Teller, the French professional, and two local players, Tommy Kerrigan, Dedham Country and Polo club, and George Bowden, Tedesco, tied at 153. Pat Doyle of the Myopia Hunt club had 157 for his two rounds, and Orin Terry of Belmont Springs runner-up for Brady last year, had 159.

GAMES TOMORROW

New England League				
Lowell at Lewiston.				
Lawrence at Manchester.				
Lynn at Fitchburg.				
Worcester at Portland.				
American League				
Philadelphia at Boston.				
Washington at New York.				
Chicago at Cleveland.				
Cleveland at St. Louis.				
National League				
Boston at Philadelphia.				
New York at Brooklyn.				
Pittsburgh at Chicago.				
St. Louis at Cincinnati.				
Federal League				
Chicago at Pittsburgh.				

YESTERDAY'S RESULTS

New England League				
Lynn-Lawrence—rain.				
Fitchburg-Manchester—rain.				
Portland, 3; Lowell, 2 (6 innings, called, darkness).				
Worcester, 7; Lewiston, 2.				
American League				
Boston, 10; Philadelphia, 5 (first game).				
Boston, 10; Philadelphia, 7 (second game).				
New York, 4; Washington, 1.				
Detroit, 7; Cleveland, 2.				
Chicago, 8; St. Louis, 6.				
National League				
Philadelphia, 8; Boston, 5.				
Brooklyn, 7; New York, 0.				
Cincinnati, 1; Chicago, 0 (first game).				
Chicago, 2; Cincinnati, 0 (second game).				
St. Louis, 2; Pittsburgh, 0 (first game).				
Pittsburgh, 1; St. Louis, 2 (second game, 10 innings).				
Federal League				
Chicago, 7; Newark, 6 (12 innings).				
Hartford, 3; St. Louis, 1.				
Kansas City, 11; Brooklyn, 2.				
Pittsburgh, 6; Baltimore, 1.

PITCHER BOB SHAWKEY SHOULD BE
BENEFITED BY CHANGE OF SCENE

NEW YORK, July 1.—Bob Shawkey, considered by many the pick of Connie Mack's young pitching stable, has been purchased by the Yankees to strengthen the Yank's overworked pitching corps. Mack took hold of Shawkey when Bob was quite a youth and farmed him out to Harrisburg and Baltimore before he gave him a regular job with the Athletics in 1913. In that year Shawkey won seven games and lost five, while in 1914 he did considerably better, winning sixteen and dropping only two. This year Bob has not gone very well, but there is no questioning his baseball ability. Shawkey should prove a valuable acquisition to the New York brigade, and no doubt he will aid materially in keeping the Yankees well up in the race. The transaction was strictly cash, no other player on either team being involved.

ATHLETES AND ATHLETICS

The Manchester business men certainly appreciate the benefits of a ball club in their city even if the fans do not take kindly to the New England league. \$2000 was subscribed last night at the mass meeting and this sum purchased half the stock of the team. If the other league owners with the exception of Portland, perhaps could get \$5000 for their franchises right now they'd all go out of business with a rush.
Billy McMahon, the local boy who played the hot corner for us before Faddy's arrival, is giving a correct imitation of efficient shortstop tending over in Worcester. Yesterday Billy clipped out four hits, two of them doubles and turned in a perfect fielding average.
The Worcester scribes appear to be rather tired of the Burckett regime in baseball. Although Jesse Burckett has put out a good club over there the sporting writers are "on him" now. Worcester is in third place at that. What do they expect? In Worcester—a championship club every season?

The Red Sox picked up a couple of games at the expense of the local Athletics and climbed a little nearer those White Sox. Comiskey's club moved down St. Louis again, making a clean sweep of the series.
Daily former Lowell reliever, relieved Schalk behind the bat.
Ahearn's split finger which he got yesterday may keep him out of the Lowell lineup for several days. "Snubber" Greenhaige will don the mask and protector in case the manager cannot play and Lohman will fill in at first base. Jack Estes, former Atlantic league first sacker, was expected to report at Portland yesterday but did not put in an appearance.

Poor Johnny Evers hurt his ankle again yesterday. It is probable that the Braves' captain got into a uniform too soon for the day before he did not move about with anything like his usual freedom of action. If Evers is laid up for long Stallings' club might just as well give up all thoughts of another crack at the world series money.
The summer inhabitants of Greenfield are greatly peeved over the relocation of the Manchester team. After Tom Keady took them into his confidence and told about the unfavorable conditions existing in the New Hampshire city, Greenfield thought sure that they had procured a ball club. If the town was just a little nearer and a mite bigger it would be welcomed with open arms.
Ty Cobb didn't get a hit yesterday in the Detroit-Cleveland game. Just think of it! Also he made a misplay in the outfield and failed to swipe even one base. We expect those sort of days with other stars but it looks as though Ty must have been sick.
The International league is the latest baseball organization to experience discontent among its magnates. The Newark club has not been drawing well this season and a shift was made in the franchise. From now on Harrisburg will have an opportunity of watching International league baseball.
Victor Lhart established a new hour race for motor cars yesterday at the Revere track last night, making 43.5 miles in the 60 minutes of pedalling. Leon Didier, the French cyclist, was second but lacerated over a mile in the rear at the finish.
SOMERS REFUSED \$15,000
DETROIT, July 1.—It was reported yesterday that Charles A. Comiskey, owner of the Chicago White Sox, had made an offer of \$15,000 to the Cleveland club for Roy Chapman, the shortstop, and that Charley Somers had turned it down.
This week is "Quarter Week" at The Lowell Five Cent Savings Bank.

BURNS IS THERE

Portland Centerfielder
Looks Like One of the
Best of 'Em

We hear a great deal of talk about the sprinting abilities of Porter of Lynn, O'Connell of Lawrence and of Moloney and Becker of Lewiston but there's one outfielder in the circuit that seems to be overlooked when the speed boys are coming in for honorable mention. Joe Burns, Hugo Duty's center fielder, looks as good to us as any of 'em and then some.
Burns in our estimation is a faster man than any of the outfielders referred to with the possible exception of O'Connell of Lawrence when it comes to pulling down long drives. It has the true outfielder's instinct of judging a line drive the moment it leaves the bat.
He is a big man and can pound the dirt going around those bases. His home run in Lowell Tuesday would have been a triple for the majority of the league's reputed fleet men. Burns looks to be just about the cream of the New England outfielders.

MANCHESTER TO STAY

WILL CONTINUE AS A MEMBER OF
NEW ENGLAND LEAGUE—BUSINESS MEN BUY STOCK

MANCHESTER, N. H., July 1.—Manchester will continue in the New England league. This was determined at a meeting in city hall last night over which Mayor Spaulding presided. The hall was crowded with enthusiasts and \$1 shares of the value of \$25 each were subscribed at the meeting and A. B. Jenkins, president of the Manchester Publicity association, guaranteed an amount sufficient to make \$3000.
Messrs. Kiernan, Smith and Keady, owners of the club heretofore, will be members of the board of directors and Mayor Spaulding and three other Manchester men will be added, making a majority of the directors Manchester men.
Enthusiastic addresses were made by Mayor Spaulding, Mr. Jenkins, ex-Congressman Eugene F. Reed, W. C. Carroll, Arthur W. Child, Jos. R. Fradd, John F. Smith, Albert Ruemely and Everett Staples.
A committee consisting of Mayor Spaulding, ex-Congressman Reed, J. P. Pillsbury, A. W. Ruemely, E. J. Bourdival, A. B. Jenkins, Carroll S. King and Edwin A. Dunbar was appointed to canvass for stock subscriptions. The meeting is taken as a guarantee that Manchester will be more of a factor in the New England league race than heretofore.

AMATEUR BASEBALL

Ha! Ha! Here we are—the Young Red Sox. You can tell us by our stockings. Everybody knows the Young Red Sox for they are the greatest bunch of their size in the city. We want to challenge any 7 or 8 year old team in the city. We can bat and run bases to beat the best and know a lot of things. If you want to get beat, play us. Here's our lineup: I. Mack, C. E. Lindville, P. A. Alfano, 1b, R. Foster, 2b, G. O'Loughlin, 3b, T. Durant, ss, L. Gher, lf, L. Foster, cf, F. O'Connor, if. Send all challenges through this paper.

The Hildreth A. C. would like a game for Saturday, July 3d, with any 13-14 year old team in the city. The Hildreth A. C. is a fine bunch of ball players. They have a number of teams about 16 years old, but we ain't as old as that. You can challenge us through this column or through Albert Coan, 125 West street.

Did you ever hear of the Rovers? If you didn't you can't know much that's point on. The Rovers are one of the finest ball teams there is. They are about 12 years old but one or two fellows are 13. They can play ball as fast as some of the league players. They have won five games and lost none. They are giving the other teams the 11a. Ha!

The Franklin A. C. Seconds is the team that is making them all take to the tall timbers. This team is so good that they have hard work finding any body to play with. Sometimes we have to play with six or seven players so as to give the other fellows a chance, but we always beat 'em just the same for we got some awful tough guys. We are 10 years. Here's our lineup: Connolly, p, T. Prindville, c, E. Donovan, 1b, W. Holand, ss, J. Prindville, 2b, T. Stapleton, 3b, J. Cassidy, lf, J. Mack, cf, E. Prindville, if.

DIAMOND DAZZLES

Since Charlie Press, Clarence Robinson, "Alie" Moulton and Jack Hony have been released by Lynn and gone to Fitchburg there is more than one critic around the circuit singing out that old cry of syndicate baseball. Louis Bier and Dan Noonan are protecting a live baseball city and that's about all there is to it. These players would not have left Lynn if it was thought that they were needed here.—Lynn Telegram

Disgusted with the general conditions and weak support given the clubs throughout the circuit, and satisfied that a change is needed, the New England league magnates are now

ELIENSKY WILL TEST ENDURANCE TO
LIMIT IN SWIM OF NIAGARA RAPIDS

Harry Eliensky, the famous swimmer who has performed some remarkable feats of strength and endurance in the water during the past few years, has declared his intention of swimming the Niagara rapids some time in August. This feat, which caused the death of Captain Matthew Webb some years ago and has been tried since with all manner of safety appliances by a number of aspiring amateur and professional swimmers without success, will put Eliensky's endurance and swimming ability to a severe test. The blonde aquatic marvel, however, is not worrying over the possible outcome of his attempt. On the contrary, he is supremely confident that he will accomplish the feat with comparative ease.

Looking with an anxious eye at Springfield and Hartford, two fine baseball cities, which were not considered good enough for the league early in the spring. The members of the Niagara league, who refused to listen to the plea of the fans and scribes to consolidate their best cities with those of the Niagara state, are now entirely converted to the fact that the fans are much wiser than they thought, and are now kicking themselves that they did not join hands with the Eastern Association forces. Instead of trying to plod along at the same old lifeless pace. Opportunity knocked at their door and they refused it, and now they are praying for its return so they can get a strangle hold on it before it gets away again.—Worcester Post

Tanny White, the New England league umpire, anticipated, Ben Johnson's latest American league edict by several days, so far as the New England league is concerned. Tanny took leave away from Barron, the Lawrence pitcher, at Portland two weeks ago.—Boston Journal

Sherwood Magee has proved a disappointment to Stallings who traded White and Dugue for him. It looks as though the Phillies got all the best of the deal.

WILSON GROWS STRONGER

The influence of President Wilson on the country grows stronger as his problems grow in magnitude, and at this time he would, without question, be the choice of the country for chief executive, should his popularity be put to such a test. He has not failed the American public in any important matter, but he has shown real greatness in handling the most delicate international questions. The grave issues of the war have overshadowed every domestic policy, and while the war lasts or while there is any danger of this country getting into trouble with any foreign power, the American people are willing to follow the guidance of the rarely prudent and patriotic man who has shown so many great qualities of statesmanship.

When, recently, William Jennings Bryan let himself out of the cabinet for reasons which only he really knows, some prominent papers referred to the resignation as the political death of President Wilson. Remembering that the support of Bryan was the strongest factor in the famous Baltimore convention, many superficial commentators believed or professed to believe that the withdrawal of that support would endanger the president's political future. They forgot that circumstances had altered the situation very materially since the Baltimore convention and that Wilson had arisen in the popular estimation in the same proportion as Bryan had lost caste. Few believe that the professed admiration of Bryan for his former chief is sincere, but it is the growing conviction of the country that the opposition of Bryan would be a benefit instead of a detriment to President Wilson.

It is not unusual today to find some very prominent republicans coming out in unqualified commendation of President Wilson and pledging him their support. A notable instance is that of E. T. Bedford, capitalist and life-long republican—published in the Brooklyn Eagle, a republican journal. Mr. Bedford, who approves of the president's trust policy and war policy, is quoted as saying in part:

"President Wilson has been weighed in the balance and hasn't been found wanting. His business, little business and every kind of legitimate and wholesome business have watched him for the past two years and the conclusion of all honest investigation is that the country is commercially, industrially, financially and politically safe in his hands. At first, I will admit, I was a little timid regarding him, but that timidity has given place to enduring confidence. I am convinced that no wholesome or legitimate business has anything to fear from him. This coming from a life-long republican may sound strange in your ears, but the words express my honest convictions."

It is only by comparison with some recent presidents that the real strength of Wilson can be estimated. Ex-President Roosevelt has a large following still in the country, but who, outside of the rabid jingoes, would want to see him president at this juncture? The man on the street persists in declaring that were the strenuous statesman in office now we would be in the world war, and the country does not doubt it. One false step by President Wilson would create a critical situation, and it would be the easiest thing in the world for the chief executive to manufacture an artificial war sentiment. Now, the American people have thought out various war problems over, and there is no unqualified support for the dignified and vigilant peace policy of the administration.

Ex-President Taft would no doubt make an excellent president at this time, but we know his attitude. He has declared himself in absolute support of President Wilson and asked that the American people give their leader a full measure of loyalty. Aside from a very small knot of malcontents, this support of the administration is universal, and it is not confined to the democratic party by any means. Financiers, manufacturers and leaders of big business who professed fear of Wilson at time of peace now make no secret of their gratification that the country has such an ideal president at this time of danger to the nation and its interests. Unless something unforeseen happens, or unless the world situation changes very suddenly, the man is not in sight who can beat President Wilson for re-election in 1916.

THE BRIDGE PLANS

The municipal council, or at least those members of it who voted to build a new bridge contrary to the spirit of the charter, business methods and common-sense has something to think about just at present. Serious doubts have been expressed as to the proposed plans, and from a quarter that commands attention. Engineer Mills of the Locks and Canals corporation has protested strongly to the land and harbor commission, declaring that the proposed arches of the new bridge may so impede the flow of water as to constitute a serious menace. The Locks and Canals corporation does not oppose a new bridge, but does emphatically oppose the style of bridge selected by our officials on the unsupported word of an out-of-town "seller of bridges."

If any body of men in Lowell are fitted to speak with authority on the technical problems of the new bridge, it is the officials of the corporation in question. It is their opinion to study freshets, keep records of water pressure at various times, watch the rise and fall of the river and estimate the volume and force of the currents passing through the arches. Consequently when they allege in a letter to a state commission that the proposed style of arches is dangerous, Lowell cannot laugh at the charges. Neither can the municipal council satisfy the Lowell public by quoting Mr. Denman to the contrary. The proposed bridge will cost altogether too much to reconcile us to any possibility of seeing it fall down the next time a freshet starts on the river.

The engineers of the Locks and Canals state that the thick arches will offer too much obstruction to the river and that therefore the strain from the force of the current may be greater than the bridge can stand. They evidently think that Mr. Denman does not take this into consideration and merely plans for a new bridge as though it were to span still water. Prof. Swain will also pass upon the plans assuming that the chief question is to get a bridge that will bear its own weight and whatever weight may be superimposed. In the present case the bridge in question will also have to withstand floods and freshets, ice gorges and water pressure of vast momentum. The bridge must be strong enough to withstand the shock and it must not be so massive as to obstruct the free passage of the water. This phase of the problem should be fully investigated before a hand is laid to the actual construction. We do not care to take a chance in giving Mr. Denman a proof that his bridges sometimes fall down.

If anything further were needed to

prove the folly of the action of the municipal council in this whole matter, it is afforded by this development. There should have been no guesswork or uncertainty but definite plans drawn up by an expert of unquestionable authority, with every technical point worked out in the full detail. The four members of the municipal council who have muddled this matter so thoroughly have assumed an enormous responsibility, without justification, and they now stand in the position of backing one out-of-town authority—who can hardly be called disinterested—in opposition to the experts of the leading water power company in the city. Lowell would like to get the individual views of the four members of the council who want a bridge built backwards, on the letter of Mr. Mills and the serious possibilities it portends.

Will the mayor be as contemptuous on this phase of the matter as he was concerning the possible attitude of the Bay State railroad? Then he declared that he did not care a straw for the opinion of the company, or something to that effect—something catchy to the ears of the voters. He has declared that he will have the bridge inspected, before he accepts it. Probably that should make us feel safe—the Locks and Canals experts to the contrary, only if Mayor Murphy still persists in his original intention, he ought to plan for an expert examination of the arches every spring when the freshet season is on. Eighty thousand dollars would be a lot of money to throw away on wreckage. Safety first applies here very directly, and the wise city official will heed it.

ASQUITH ADVISES TRIFTH

The serious economic problems confronting England were very strongly outlined by Premier Asquith in a meeting held last Tuesday in London, in the interest of national economy. The nation that set out to starve Germany, financially and literally cannot disguise the fact that there is a possibility of that fate overtaking itself. It is to avert such a catastrophe, which would nullify the splendid efforts of England's fighting everywhere, that Asquith and Lloyd George are now appealing in plain terms to the British people.

Premier Asquith told the English public that the first year of the war will cost England at least five billion dollars, and that the nation will have to save and become highly efficient to meet this without general hardship. He stated that under normal conditions England can spare only three or four hundred millions a year, and that the present state of the trade balance affords ground for "serious thought."

The daily expenditure now is something like \$16,000,000, and to meet it general thrift is strictly necessary. The premier put the case strongly and directly in the following words: "Waste on the part of either individuals or classes, which always is foolish and short-sighted, is in these times nothing short of a national danger."

Taking these plain statements and those of Lloyd George as to the need for increased munitions of war in connection with the prediction that the war may last two or three years, it may be seen that England's position is by no means enviable. Such things justify one in thinking that in this war, neither side can win, for the drain will be so enormous that nothing but time can repair the injury. So far as one may judge over here, England has been inclined to look upon victory as assured, and the masses have not regarded the war in its true light. The gravity of the situation is now only too apparent in the speeches that the government makes to the English people.

A CONTRAST

A report of the 19th general assembly of Illinois which has just come to hand affords an opportunity for a very significant comparison with the report of the Massachusetts legislature which closed a few weeks ago. According to this record 316 bills have been submitted to the governor of Illinois; 1534 bills were presented in all—394 in the house and 551 in the senate.

How does this compare with Massachusetts? Our legislature had enacted 304 general acts and 331 special acts in that time, with 147 resolves, making a total of 515, as compared with the 316 of Illinois. This comparison would lose its especial force were it not remembered that the Illinois body meets only every two years, while we have annual sessions and long sessions to boot. If all of our lawmakers necessary, Illinois, which has almost three million people more, must be in sad need of legislation, but apparently such is not the case, since Illinois is a law-abiding and thriving state, full of wealth and enterprise.

Massachusetts has too many laws, and the grist piles up year after year. A combination of causes has created a situation in which quantity and not quality seems to be the aim of our legislators, and the most trivial things are made the subject of legislative in-

Tired, Aching Muscles Relieved

Hard work, over-exertion, mean stiff, sore muscles. Sloan's Liniment lightly applied, a little quiet, and your soreness disappears like magic. "Nothing ever helped like your Sloan's Liniment. I can never thank you enough," writes one grateful user. Stops suffering, aches and pains. An excellent counter-irritant, better and cleaner than mustard. All Druggists, 25c. Get a bottle today. Penetrates without rubbing.

vestigation and activity. Instead of aiming to teach the immigrant the American laws, the state will soon be compelled to educate its people on the laws passed by the legislature, if the present tendency keeps up. When lawyers give up the struggle of trying to keep posted on our annual list of state laws, how can the ordinary citizen hope to keep track of them? It is about time that we demanded quality on Beacon hill and condemned the enormous quantity of legislative acts. If Illinois can get along with 316 new laws every two years, we ought to be able to.

O'DONOVAN ROSSA

The passing of the fiery-souled O'Donovan Rossa, whose name was once a power to be reckoned with in Ireland, England and America, will wake a thrill of sad recollection in Irish hearts in all parts of the globe, for the dead patriot was most intimately linked with the Irish cause. Before the days of latter parliamentary agitation, the Fenian movement and the various ideals which kindled around it did a great deal to keep the spark of nationality alive in Ireland, and no individual had a bolder part than the fire old man who, for the first time in his long life, is really at rest. O'Donovan Rossa was a rebel of the rebels, but he was sincere in his convictions and lofty in his motives. He honestly believed that only by physical force could Ireland be made what he wished to see it, and he held to his views in days of a more gentle creed.

SEEN AND HEARD

Owen Monahan says lots of garden snakes pass over the lock fence.

An Illinois editor has discovered a way to get rid of mosquitoes. All you have to do is to rub alum on your face and hands. When Mr. Mosquito bites you, the alum puckers up his little whendler so he can't sting. Then he becomes alarmed and sits down in a damp place and tries to dig the puckers loose. This takes him so long that he catches cold and dies of pneumonia.

NOT TAKING ANY CHANCES

Clancey and Brophy had been elected delegates to the national convention of an organization of which both were members. The convention was held in New York, and the first night they were there they decided to eat in the hotel. The waiter, who was a little bit of a fellow, but they managed to get a square meal. When they had finished, the waiter said: "Shall I bring you a couple of demitasses?"

"I should say not," replied Clancey. "Somebody might see them sitting here with us and tell our wives."

HURRAH FOR LOWELL

The editor of this column has received a letter mailed in St. John, N. B., relating a little incident on the boat to St. John. Our correspondent is a Lowell man and this is what he wrote: "I met a couple

and when the hope of attaining success by force was practically crushed. Many of his former associates lived long enough to see that other times called for other methods, but Rossa was the implacable foe of what was to him, tyranny and injustice, and he died with the same sentiments he held when he suffered so grievously in English prisons, and when his fiery appeals waked a sense of shame in the heart of England. Many who do not now believe as Rossa always believed will mourn him as a noble patriot and a man of exalted character who, by his life and teachings left a high ideal to his countrymen. Rossa was a consistent rebel who, however, never did anything to hinder any movement that would benefit Ireland.

AN ANXIOUS TIME

No move of the war has been watched more eagerly throughout the world than the present drive of the Austro-Germans against the Russians, for on its outcome a great deal depends. Up to the present unprecedented success has graced German defensive tactics, but now that the Russians have been driven into their own territory, the outcome is in doubt. Should Russia be able to make a determined stand, German success will mean little in a broad sense, as a large German army must still remain in the east. Should the German forces succeed in reaching Warsaw as they apparently desire, Russia will be of little use to the allies for many months to come.

Lowell girls on the boat coming down and one of them was seasick. She was leaning over the railing when a big red-faced individual came along and said to her: "What's the matter, little one, feeding the fishes?" The question annoyed her and turning her ashen face to him she said: "No, I'm a German spy and I'm signaling to the submarines." We know the girl and just for that we believe her story.

IGNORING THE FLAG

"The greatest tribute I ever saw paid to the Stars and Stripes," says Col. Payson Bradley, past commander of the Mass. G. A. R., a former Methuen resident, "was not on America soil. When the Ancient and Honorable Artillery landed at Liverpool on its visit to England in 1896 the line of march was crowded with over 100,000 persons. When we unfolded 'Old Glory' we were struck with surprise at the cheers which went up from those English people. As we marched along every man from the Prince of Wales to the lowest bootblack took off his hat while the Stars and Stripes passed. I would like to see that happen once in Boston or New York before I die."—Lawrence Telegram.

TEMPORARY MADNESS

The fashions are undeniably charming, and an episode in their honor was related the other day by Lieut. Barnes at Annapolis. "A very pretty girl," he said, "was

motoring on a recent afternoon with you know when, without a word of warning, he put his arms around her neck and kissed her. "She was terribly enraged. And she described angrily in court how he had gazed at her in silence, and then had seized and kissed her on the lips. "The young man making no defense, the jury retired. A verdict of guilty was confidently expected. But, on the jury's return, the foreman asked permission to put two questions to the plaintiff. "Were you wearing, Miss—so you say—the young man, that black velvet turban cocked over your left eye? "Yes," she answered, smiling. "And you were wearing," the foreman pursued, "that sable mantle with the Elizabethan ruff? "Yes," she said again. "Then," said the foreman, firmly, "I have to announce that this jury acquits this defendant on the ground of emotional insanity."

THE LAND OF "PRETTY SOON" I know of a land where the streets are paved With the things we meant to achieve. It is walked with the money we meant to have saved And the pleasures for which we grieve.

The kind words unspoken, the promises broken, And many a coveted boon Are stowed away there in that land somewhere— The land of "Pretty Soon."

There are uncut jewels, of possible fame, Lying about in the dust, And many a noble and lofty aim Covered with mold and rust.

And oh, this place, while it seems so near, Is farther away than the moon! Though our purpose is fair, we never achieve it here— The land of "Pretty Soon."

It is farther at noon than it is at night, Farther at night than at noon; Oh! let us beware of that land down there— The land of "Pretty Soon."

—The King's Own.

Luke McLuke says: The reason why a woman never succeeds when she marries a man to reform him is because she forgets to take a course of lessons in the art of snake charming.

This is a queer world. In one end

Your Opportunity to Visit California

No doubt you would like to visit California this year, during the Expositions at San Diego and San Francisco.

But how to go, and what will it cost? I want to tell you all about our "Personally Conducted" Parties, and how you can join one, travel comfortably in through cars at much less cost than by the usual way, and at the same time see the most famous and interesting mountain scenery in the world. Denver—the Colorado Rocky Mountains—Salt Lake City and the Sierra Nevada. That's the Route, and our special all the way conductor is on hand to tell you about it and look after all the details.

Call or write and let me tell you about these "Personally Conducted," low fare parties to California that have helped to make the "Burlington Route" service famous. Alex. Steele, New England Passenger Agent, C. & N. Y. R. R., 261 Washington St., Boston.

ATTEND TO YOUR TEETH NOW!

"IT DIDN'T HURT A BIT"

Positively Painless Extraction Free When Work is Done

To demonstrate my skill, I will, for a limited time, do 22-k gold crown and bridge work at \$4

The finest that dental science can produce.

My non-drop, triple suction plates, I make at

A SET \$7

These feel and look so much like natural teeth as to defy detection.

Your money refunded if not entirely satisfactory.

My personal attention given to every patient. Lady in attendance. Office hours, 9 a. m. till 9 evenings. All examinations and consultations free.

DR. H. LAURIN

The New York Surgeon Dentist 253 CENTRAL ST.

Open Sundays from 9 a. m. to 3 p. m. Tel. 4353—Opp. Owl Theatre. The latest approved method of all-viating pain in all work.

or town a woman who has denied herself enough to eat so that the children might have their share, and she will pick up a piece of newspaper and see a headline over the news that a woman in the other end of the town has just paid \$1500 for a business suit. After they have been married for a few years a woman begins to notice that her husband doesn't look at her as eagerly as he looks at other women.

So many men are wearing those passionate, wide-colored, open-at-the-snowy-white-throat shirts this summer that a common ordinary man doesn't know what to think of things in general.

The reason why a girl hates to hear you say that she is pretty is because you have to beat a small boy unmercifully to force him to eat a plate of ice cream.

After a man has been married for a while he begins to wonder why they were ever called the weaker sex.

When a man hates another man he goes around and tells everybody but the man he hates.

The woman who spends all of her time trying to shine in society always gets mad when her nose gets the sniff.

The fellow who remains in the navy and pounds his car until noon usually spends the rest of the day whining that he can't get up in the world.

A man doesn't mind paying his beer bill, but it is different when his water bill comes in.

Start to praise a man and your audience will yawn. Start knocking a man and your audience will sit up and pay attention.

When a man can't make a living any other way he can always become a reformer and find plenty of crookedness to finance a Society for the Prevention of Something.

EDITORIAL COMMENT

AMERICA FOR PEACE

At Springfield somebody asked the president to keep them out of the war, and he promised to do it if he could. The sentiment of the mass of humans in this country is for peace if it can be kept without loss of the honor, and to stand for a little better now and then rather than to plunge into the big bother that might mean loss of lives and limbs and health.—Brooklyn Enterprise.

SOME SARCASTIC

The New York Times has discovered a pictorial trainer who teaches dogfish to announce the approach of submarines by arising to the surface and barking. "This should appeal to the visionary mind of Secretary Daniels. Their education could doubtless be extended to training them to break down submarines.—Portland Express.

A KIND WORD

As for the former secretary in retirement, what are we to do save to wish him well? Mr. Bryan's true character has been distorted by his sworn foes. One can hardly blame him for his bitter outburst against the metropolitan press which has left no stone unturned to defame him. He was a mist in the state department and would be the subject of any executive office, but who knows if any better than he probably does? He has plenty of opportunities for usefulness left.—Woonsocket Call.

HOLLAND

Belgium has a frightful object lesson to Holland. One person in every seven in Holland at the present time is a Belgian refugee. These people have brought with them into almost every home in Holland stories of German rule and German oppression. Holland can hardly avoid comparing strong feelings with their own broken country when the question is put, "What if it should be of military advantage to Germany to do to Holland what has been done to Belgium?" German strategy believes that a strong offensive is the best defensive. Holland may take the same idea for itself and put it to application.—Lynn News.

MAKE IT SANE

For two years New York has had no Fourth of July fatalities, although each year some injuries, as against 22 deaths as recently as 1907. The same Fourth idea has thus proved practically safe. Keep up the good work, there, here and everywhere.—Boston Herald.

HAT BLEACHERY

The Last Drop as Good as the First

SOCONY Motor Gasoline—"Standard Gasoline" as veteran motorists know it

—is a straight-distilled, homogeneous product, every drop the same as every other drop. It makes your engine quick-starting always—whether your tank is full or nearly empty. It is the best gasoline that can be made. It is the cheapest to buy, because there are more miles in a gallon. SOCONY Motor Gasoline and POLARINE, the cold-proof, carbon-proof oil for all motors, are on sale at garages and supply stations displaying the red, white and blue SOCONY Sign.

Look for the sign—It is the sign of quality.

STANDARD OIL CO. OF NEW YORK

SCENE FROM "HER OWN WAY"
Featuring Florence Reed, at the B. F. Keith Theatre Today, Friday and Saturday

AMUSEMENT NOTES

B. F. KEITH'S THEATRE

The plays of the late Clyde Fitch were invariably set in an atmosphere of society of the higher type. "Her Own Way" deals exclusively with people of prominence, and as shown in the Metro production of the piece at the B. F. Keith Theatre, the latter half of this week, beginning today, it will prove to be quite as powerful as any produced at this theatre. It set an example in good form that was followed by every prominent producing manager of the dramatic stage. The important details connected with a fashionable wedding, a children's party, and a home reception are examples in their way of what is good form and they are brought onto the screen in minute detail. A woman is informed by a schemer that her sweetheart has lost his life. Her family is on the verge of financial collapse, and to avoid this threatened reduction to poverty, she agreed to marry the wealthy schemer, just as the ceremony was taking place her sweetheart returned and forbade the bans. It is an exquisitely filmed photo production, well up to the standard set by the Metro company. Tomorrow night, in honor of the 52nd anniversary of the battle of Gettysburg, a Universal film production of the battle will be shown, and all G. A. R. veterans wearing their uniform will be welcomed to witness the performance, without any charge whatever. This will be given in addition to the regular bill.

MERRIMACK SQUARE THEATRE

The famous Irish-American comedy, "Chimmie Fadden," featuring Victor Moore in the leading role, is one of two remarkable features booked by Manager White for the program at the Merrimack Square theatre today, Friday and Saturday. "Chimmie Fadden" is a Paramount picture, produced in five excellent acts, replete with intensely interesting situations and human interest, and with settings that make the final touch of perfection and make it a masterpiece of photo-dramatics. Victor Moore is one of the most celebrated character actors of the present day stage and so wonderful is his personality and so marked

his pantomime ability, that he is seen to fully as good advantage on the screen as on the legitimate stage. Every week the management has a production for appearance here one of the best actors on the vaudeville stage, the Dayton family, they number 12 in all and are presenting picture masterpieces of their kind ever shown in Lowell.

The Dayton family appear on the outdoor stage every afternoon at 4 o'clock and again in the evening at 7:30, twice daily for the remainder of the week. Next week the management has booked the Matthews, who do a sensational globe rolling and on the stage there is the usual excellent picture show, both afternoon and evening. Various other kinds of amusements are to be found at the theatre, including dancing, bowling, bathing and boating. There is also an excellent restaurant on the grounds under the management of George Kenney.

CANOBIE LAKE THEATRE

The engagement of the Boston Opera singers at Canobie Lake Park this week has been the means of more than usual delight to the music lovers of this city and regret is heard on all sides that this engagement could not be continued for a longer period. It is seldom that the people of this city are afforded the opportunity to hear such voices as are possessed by such famous opera stars as Maria De Gahbi, Marie Kitchener, Giovanni Carli, Edgar Litten and Rodolfo Fornari and it is not surprising to find the cars so well filled going to the park every afternoon and evening. A complete change of program is offered today which includes not only the concert selections by the famous opera artists but new dances by the Boston Opera Dancing Girls. These clever little terpsichorean artists have been the recipients of the most hearty applause all week and have a number of new offerings that will win them even greater success.

The matinee performances start daily at 3 o'clock and are out in plenty of time for the housewife to reach home in time to prepare the supper, a convenience that is appreciated by so many of the ladies who welcome the opportunity to hear these great stars and the cooling breezes from the lake and pine trees. In the evening the performances start at 8:15 o'clock and are out by 9:30 o'clock so that evening parties will reach their home elated at not too late an hour.

The last performance of the opera singers will be given on Sunday afternoon and evening when another en-

tirely new program of songs will be offered and with the tremendous crowds that flock to Canobie on this day the theatre will in all likelihood be well filled at both performances. Commencing Monday and for the remainder of the week the theatre will be turned toward motion pictures, the management having been fortunate in securing what is acclaimed by all to be the greatest motion picture masterpiece ever attempted; Hall Caine's immortal play, "The Captive," portrayed by the pick of the famous Vitagraph Players with Earle Williams as John Storm and Edith Storey as Mary Quays. No bigger offering in photo-play could have been secured by the Canobie Lake theatre and on account of the story and play being so well known everywhere tremendous patronage will undoubtedly result all week long.

LAKEVIEW PARK

There is always something going on at the amusement line at Lakeview Park, and the popular feature of it is that there is no charge made for the theatre and various sensational circus acts that appear at this park from time to time. This week the management has a production for appearance here one of the best actors on the vaudeville stage, the Dayton family, they number 12 in all and are presenting picture masterpieces of their kind ever shown in Lowell.

The Dayton family appear on the outdoor stage every afternoon at 4 o'clock and again in the evening at 7:30, twice daily for the remainder of the week. Next week the management has booked the Matthews, who do a sensational globe rolling and on the stage there is the usual excellent picture show, both afternoon and evening. Various other kinds of amusements are to be found at the theatre, including dancing, bowling, bathing and boating. There is also an excellent restaurant on the grounds under the management of George Kenney.

MATRIMONIAL

Mr. Joseph A. Kinney and Miss Frances V. Bradley were married at 5:30 o'clock yesterday afternoon in the parochial residence of the Immaculate Conception church, Rev. Lawrence P. Tighe, O. M. I., officiating. The bride was handsomely gowned in white chiffon trimmed with shadow lace and wore a beautiful bouquet of white roses. The bridesmaid, Miss Elizabeth Bradley, a sister of the bride, wore blue chiffon and a white picture hat and carried sweet peas. Mr. Chester J. Bradley, a brother of the bride, was the best man. After the ceremony a sideshow was held at the home of the bride's parents, Mr. and Mrs. Simon Bradley at 234 Boylston street. After a wedding tour, Mr. and Mrs. Kinney will be at home to their friends at 173 Stevens street.

LEES-GODDARD

A pretty wedding took place yesterday afternoon at the home of Mr. and Mrs. Lot Goddard, 137 Allen avenue, when the bride and groom were united in marriage to Mr. George Lees by Rev. Forrester Macdonald, pastor of the Fifth Street Baptist church. The bride wore white silk and carried white roses. The bridesmaid, Miss Alice Goddard, a sister of the bride, wore pink crepe de chine and carried pink roses. Mr. William Lees, the bride's brother, and the flower girls were Miss Alice Goddard, a sister of the bride, and Miss Alice Whitfield. Mr. and Mrs. Lees will reside at 224 Cumberland road after a brief honeymoon.

MONAHAN-GILL

Mr. Patrick H. Monahan and Miss Mary E. Gill were united in the bonds of matrimony at the parochial residence of St. Patrick's church at five o'clock yesterday afternoon. Rev. Timothy Callahan officiated. The bride wore white and carried white roses. The bridesmaid, Miss Annie L. Gill, a sister of the bride, was bridesmaid, and wore a gown of embroidered Swiss muslin and carried pink roses. A reception to relatives was held after the ceremony at the home of the bride's brother, Mr. Jas. H. Gill, 122 Waanabund street, where the couple will reside upon returning from a wedding trip.

ROBINSON-ROFFE

Mr. Paul A. Robinson of East Chelmsford and Miss Margaret A. Roffe were married last evening at the home of the bride's parents, Mr. and Mrs. Fred D. Roffe, 15 Carter avenue, by Rev. C. A. Lincoln, pastor of the Kirk Street Congregational church. The bride wore white and carried white roses. The bridesmaid, Miss Anna Robinson, a sister of the bride, was bridesmaid, and wore a gown of white crepe de chine and carried white roses. Mr. Fred D. Roffe, a brother of the bride, was best man. After Aug. 1, Mr. and Mrs. Robinson will be at home to their friends at 15 Carter avenue.

BOLAND-BIRKENHEAD

Mr. Edward S. Bolland and Miss Mabel E. Birkenhead were united in marriage at 7 o'clock last evening at the parochial residence of St. Patrick's church by Rev. Timothy Callahan. The bride wore white and carried white roses. The bridesmaid, Miss Anna Birkenhead, a sister of the bride, was bridesmaid, and wore a gown of white crepe de chine and carried white roses. Mr. John Bolland, a brother of the groom, followed the ceremony a reception was held at the home of the bride's parents, Mr. and Mrs. Birkenhead, 272 Walker street. After July 15, Mr. and Mrs. Bolland will reside at 311 Broadway.

BETTS' BODY FOUND

BALDWINVILLE, July 1.—The body of Fred C. Betts, aged 33, for whom there had been a search for three days, was found yesterday floating on the surface of Otter river by William O'Brien and John Connors.

FRANCE FIGHTING WAR

England "Laying Down," Says Dorchester Man, Back From Europe—In London During Raid

BOSTON, July 1.—William D. Taylor of Dorchester, who has been touring Europe for the past four months, returned to this city. He has had unusual opportunity to study conditions regarding the war, and secured reliable first-hand information, he says. Among other opinions he expressed yesterday was that England was "laying down" and placing the great burden of fighting upon the shoulders of the French nation.

"It is really France and not England that is fighting this war," he declared. "France has given all its men, England only an army of volunteers. England claims to have three-quarters of a million men in France fighting in the British army. France has several millions. An English war office bulletin that I saw stated that Belgium was guarding 17 miles of trenches, England 31 and France 343 miles."

He said that in Paris there was none left but old men and old women. "The cafes and restaurants in Paris close every night at 8 o'clock," he said. "There is no business to speak of. This month France will call out the class of 1917, the 18-year-old boys. The class comprises about 500,000 youths. Germany has called for 15-year-old boys. England does not seem to warm up to it much. They do not seem to realize it."

He said the English had full confidence in the ultimate victory of the allies. He said he was in London during the Zeppelin raids and no great damage was done by the Germans, and the

BATTLE IN THE AIR MAN FELL 65 FEET

BRITISH AVIATOR TELLS OF DESTROYING GERMAN CRAFT AFTER FIERCE DUEL

PARIS, July 1, 5.35 a. m.—A race, by which he destroyed a German airplane near Lyons, is described by Major Nelson, a British aviator, in the Journal. The battle took place nearly 6500 feet in the air.

"When the enemy machine sighted me I immediately took to flight," said Nelson. "I dashed off in pursuit. After about ten minutes' rapid flight I came up with him and flew above him. The duel began at once."

"After fighting for some time without result, I adopted a strategy which I have always found successful, and let the airplane dive almost perpendicularly. The German aviator, believing I had fallen, also descended in a gliding flight. I then sighted his machine suddenly and shot above him at a distance of about 15 feet. This we resumed the duel. One of my shots hit the gasoline tank of the airplane, and the machine burst into flames, crashing to earth. The pilot and observer both were killed."

LITTLE OF EVERYTHING

MAGNETIC PROGRAM ARRANGED FOR SACRED HEART "AT HOME" NEXT SATURDAY

One looking over the long and varied list of attractions for the well planned "At Home" of the Sacred Heart church next Saturday, July 2, may well wonder if it will leave anybody at home in the parish and outside of the house. It is so full of such a magnetic program would indeed have strong will power. A superficial glance at the list of attractions reveals a vast pocket edition of the Panama Pacific exposition with the South common midway and a country fair thrown in for good measure. There will be dancing, hand concert, beautiful illuminations, vaudeville, fireworks, a marathon race, all manner of athletic sports for men, women and children, aerial flights, hair raising thrillers on imported novelities and everything that tends to cultivate a good spirit in the hearts of good Americans.

The athletic program will be run off in the afternoon, and the evening festivities will open at 7 o'clock with a vocal concert by 40 trained voices under the direction of James Busch. In the list of soloists are some of Lowell's most talented performers. George "Babe" Rogers and James Shugrue, the famous cabaret artists will sing solos. John McLaughlin, Eddie Kennedy, John Townsend, Catherine Sharkey and Ed McNulty will also appear as soloists. The concert will open with an overture of the new popular selections while the finale will embrace the older compositions, concluding with the singing of The Star Spangled Banner.

THE LOWELL SUN

LOWELL MASS. THURSDAY JULY 1 1915

PRICE ONE CENT

THE SPELLBINDER

It was Laura Jean Libbey, I believe, who once wrote a heart-puncturing novel, entitled "Lovers Once But Strangers Now." If Laura Jean, whoever she or she may have been, were in Lowell today, she would enjoy hugely the latest film in our city hall movies, also entitled "Lovers Once But Strangers Now," with Mayor Murphy and Commissioner Morse as the leading characters.

Only one short year ago the mayor and the street commissioner were falling on each other's necks at every opportunity, figuratively, of course. Mr. Morse said he didn't care how much he was knocked so long as the mayor got credit for his great accomplishments, or words to that effect, while it will be recalled that it was the mayor who presented a very readable account of the street work of the past year, to the reporters, with a personal tribute to Commissioner Morse.

Now it's different and, barring the Pawtucket bridge matter, on which they appear to be together, they are at odds. The English opened up their home to them magnificently, said Mr. Taylor, "but now England cannot get rid of them. The women hang on and the men refuse to return to the front, on the theory that they have already done their 'stunt' in the defense of Belgium."

A serious condition has resulted from the fleeing in England of Belgium refugees. "The English opened up their homes to them magnificently," said Mr. Taylor, "but now England cannot get rid of them. The women hang on and the men refuse to return to the front, on the theory that they have already done their 'stunt' in the defense of Belgium."

According to Mr. Taylor, England is preparing for a great Zeppelin raid, and big guns have been hidden, unknown to the public, in towers, and on bridges and arches. He found in his travels that Norway and Denmark were opposed to the Germans, with Sweden drifting to the allies.

ANGELO POUGH DROPPED SIX STORIES AND SUSTAINED ONLY A FEW SLIGHT BRUISES

BOSTON, July 1.—Angelo Pough, 49 years old, a laborer living at 41 Fleet street, North End, is the luckiest man in the world according to himself, for yesterday afternoon he fell 65 feet from the sixth story of a building and sustained only a few slight bruises.

Pough was working on a building under construction at 126 Massachusetts avenue. As he stepped by a tub of mortar on the sixth floor staging, he lost his balance and started heading downward. He struck the staging of the fifth floor, and then dropped again.

During his 65-foot fall Pough did not make a sound. He hit every one, and bounced down to the next one, until 65 feet from where he fell, he struck the cellar flooring.

His horrified comrades rushed up, to find Pough conscious, although rather weak. He was hustled in an ambulance to the City hospital, and his comrades waited for word of his death. But no such word came. After staying at the hospital a few hours Pough went home. The hospital people said he had sustained only a few bruises on the legs and arms.

SUN BREVITIES

All up for the Fourth? 113—They don't answer.

Best printing: Tobin's, Asso. Bldg.

The Sun gets the cream of the town news.

Another murder. Let no guilty man escape.

The commissioners do not play bridge very well.

Who's going to win that prize for the best decorated home?

East Merrimack street seems to be specializing in fruit stores.

J. F. Donohoe, Donovan bldg., real estate and insurance. Telephone.

About time the gangs here and there eat up and took notice.

If you're in trouble you see Dr. Gagnon, 465 Merrimack street.

The weather man is evidently not in favor of the clerks' half holiday.

It is remarkable what holdness some children show in stealing flowers.

The Kaiser evidently has not yet heard of the equipment of the G. M. I. Caled.

That double lights or more of the single lights be provided at Merrimack square.

Of course the people of Lawrence, Haverhill and Nashua will be here by tens of thousands to witness our great celebration.

The involuntary vacation tendered the employees of the Hartford-Bigelow Carpet company will be all right if not made permanent.

Money deposited on or before Saturday, July 3rd, in the Lowell Five Cent Savings Bank will bear interest from that date.

Work is booming at every department of the U. S. Carriage company and new buildings are being rushed to permit an extension of several departments.

Cholera morbus is putting on its kicking clothes. Don't be without a bottle of Dows' Diarrhoea and Cholera serum in the house. All druggists.

The Oak Leaf club closed its whist season last evening at the home of Della Barnes, 23 Andrews street, with a large attendance. Prizes were awarded as follows: Ladies' first, Jennie Kennedy; second, Gertrude Dwyer; girls' first, M. H. Thorman; second, Michael Shemick. After the whist the following musical program was presented: Quartet selections, William F. Noyah, Matthew Phelan, J. T. Phelan and Jeanette Coleman; recitations, John Murphy and John Alexander; Albert J. Ingham was the accompanist.

the non-existence of ledge and the contract provided that the cost of removing any ledge would be additional. That accounts for the \$8000. It was anticipated before the contract was signed.

And, as if ordained by that ironical cuss known as Fate, Mayor Murphy's next duty after participating in the meeting of the municipal council Tuesday was to attend the graduating exercises of Elliot Wood's commercial college, where he was obliged to sit all evening directly across a huge class motto bearing the significant words, "BUSINESS EFFICIENCY."

Calling For Bids

Recently the purchasing agent called for bids for the construction of granite sidewalks and got a bid of \$1.43 per cubic yard, the lowest price ever known in Lowell, a price which some contractors say is an impossibility. That's not the purchasing agent's look-out, however; the sidewalks will have to be built and built right within that price. If the purchasing agent can get such good results on granite, why not give him a chance on the cement and steel to be used in the Pawtucket bridge? This would not be a matter of contract labor and would in no way deter Lowell laborers from getting plenty of work. On the contrary, it would give Lowell steel and cement men an opportunity to make a little money and give the city the benefit that is supposed to come from competition. Perhaps if the steel were sold by bid the successful competitors would "place the steel," without making it necessary to figure such cost in the item for supervising the work.

Why Not, Mr. Mayor?

Said His Honor at Tuesday's meeting: "Instead of putting in sewers to help out building men, let us give some relief from a positive nuisance in Wiggville, where people have been putting up with it for a number of years."

As my old friend Bill Rafferty would remark: "Very true, Mr. Mayor, very true." But by the same token, why spend a lot of money on the extension of Dummer street to help out a few building men, when the money thus to be spent could be used to relieve this long-existing nuisance in Wiggville? And relative to this nuisance which the Wiggville people have been putting up with for years, it will be recalled that the people of Wiggville have been crying to the mayor for relief for the 15 months that he has been in office, and they cried in vain until just as the campaign is about to open when His Honor suddenly takes a most benign interest in them.

And by the way, Mr. Mayor, if as you state this has been a long-existing nuisance in Wiggville, why did you force a \$35,000 sewer upon Pawtucketville which was neither needed nor desired by the people of that section, and ignore this long-existing nuisance? Why didn't you build the needed sewer in Wiggville a year ago and permit the Pawtucketville matter to wait until it was asked for by the people of Pawtucketville?

The Tax Rate

It is understood that in order to correct the fast-sinking tax rate a movement is being considered to increase valuations throughout the city; not among down town property where such increases usually fall, but generally in the residential districts as well as those devoted to business, among the smaller property owners as well as among the heavier taxpayers. In this manner while the tax rate will continue to be extremely high it will not be quite as lofty as it would be otherwise. Property owners are painfully aware of the fact that with valuations as they are at the present time it is impossible to get anything near the assessed value of a piece of property, in the market, and hence such a movement, if it is true that it is contemplated, would be decidedly reprehensible.

Votes and No Votes

The members of the municipal council are flitting with the new Pawtucket bridge while badly in need of bridge means votes and no votes. They are considering to the best of their ability the imperatively needed high school building which is another matter of votes and no votes.

They are strongly talking up the proposition to extend Dummer street, a matter of doubtful feasibility, with Worthen street so close by, using the argument that the extension will remove certain unsightly property adjacent to city hall, forgetting the fact that city hall will displace the more unsightly property in the rear. The Dummer street matter means votes and no votes.

But they are consistently avoiding any approach to the work of constructing a contagious disease hospital, which the law says must be constructed immediately, for this proposition is a matter of no votes, exclusively.

On all the other propositions, for every vote lost there will be several gained, the gains outnumbering the losses substantially, but in the case of the hospital they will not gain a single vote under any circumstances while they stand to lose votes wherever they may decide to locate it for nobody wants the institution in the vicinity of his home or place of business.

Thus they are "ducking" the hospital matter and are getting close to the time limit. When finally forced to show their hand, the members in all probability, will select a site, and let it go as that, assuring the removal of the officials to make due return of the money overdrawn, but to date nothing has been forthcoming. John W. Peabody moved that the sum of \$20 be appropriated to be used in the process of collecting the amounts due the town from the officials in question. Mr. Peabody's motion prevailed. This particular situation has no precedent in Dracut.

Business Quiet Yet Rushing

In most lines of business, quietness and rush are inconsistent, but not so in the police industry, for while within the past month or more there have been more arrests of the drunkenness and more arrests of women for drunkenness, than in a similar period in years, little mention has been made of the fact. The law relative to the disposition of drunks is being rigidly enforced but it would appear that the law relative to selling to drunks is being violated with impunity. Every time the police court record shows a large gathering of them, young and old, and sometimes it is necessary to "double-up" in the cells. You will be told perhaps, that the big chief's hands are no longer tied and that he is enforcing the law rigidly. It certainly is a fact that the law relative to the arresting of drunken men and women is being rigidly enforced, but some cases overlook where drunks might get to their homes in safety, if allowed to by the over-zealous police, but you haven't heard of any arrests for selling to drunks or selling to minors, and you haven't heard anyone state that the large number of drunks is due to the present administration as was said of the former government when the number was less than at present.

More Consistency

Since the Pawtucket bridge matter came up Mayor Murphy has been open to competitive bidding on that \$50,000 proposition, but at Tuesday's meeting of the municipal council His Honor felt that the matter of restoring the tablets at the Memorial building should be let out by competitive bidding. Commissioner Putnam was authorized to prepare specifications and to open bids on the work. On this little matter of two or three thousand dollars it is quite necessary to have competition, presumably in the interest of economy. But there's no competition on that \$50,000 job of building a new bridge, nor even on the job of supervising the construction and placing the steel.

No Lights on City Auto

It was a good thing, perhaps, that Traffic Officer Ed Flanagan had gone off duty Monday evening or something in the nature of a sensation might have occurred in connection with the white way celebration in Middlesex street. Officer Flanagan may be depended upon to handle his duty at all times and under all circumstances, and hence had he remained at the depot a little longer Monday night he would have been placed in the embarrassing position of being obliged to arrest or at least to "call down" the mayor of the city and the superintendent of police, for spectators along the Middlesex street white way were started at seeing the city's new police auto being driven along Middlesex street by Supt. Welch with Mayor as passenger, with a night on it, front or back, at 9.30 o'clock or thereabouts. Such carelessness on the part of our law-enforcing superintendent, or police—or was it merely that caused the distinguished party to hide their light under a bushel, as it were, lest the plaudits of the crowd might disconcert them. Speaking of the superintendent's new auto, all who read the papers recall the arguments advanced for its purchase. Among its varied uses it is said to be one which was not made public at the time of the purchase, namely that of scouring the city for the purpose of "keeping tabs" on patrolmen. According to report such has become one of the principal uses of the new auto. Thus it will come in quite handy during the coming majority campaign for visiting the officers on their respective routes to ascertain "how things are going," a labor of love accomplished on foot during the last campaign.

Some time ago when a horse was stolen a city-owned auto was borrowed and police officers used it in successfully chasing the horse-thief. If I remember rightly Supt. Welch in an interview in the morning paper used this case to illustrate how useful an auto would be in the police department in catching horse and auto thieves. On Tuesday night about 2.30 o'clock two young men stole a Ford car in Shattuck street and went away with it. The new police auto purchased for just such cases remained inactive in the police station stable all night while a house officer telephoned

TOWN OF DRACUT NEWS

Past Officials Asked to Refund Overdrawn Salaries—Various Appropriations Made

At a special town meeting held in Dracut last evening and called for the purpose of discussing loan orders for town departments, Auditor Conant Ladd informed the meeting that two selectmen and last year's auditor overdraw the amount of their salaries, and only one of these officials has returned his overdrawn pay. Selectman Mozley stated that requests had been made to the officials to make due return of the money overdrawn, but to date nothing has been forthcoming. John W. Peabody moved that the sum of \$20 be appropriated to be used in the process of collecting the amounts due the town from the officials in question. Mr. Peabody's motion prevailed. This particular situation has no precedent in Dracut.

The meeting was held in Grange hall and was well attended. The money voted will be raised by direct appropriation instead of by loan. George H. Stevens, as moderator, called the meeting to order and read the warrant.

Article one, to borrow a sum of money not to exceed \$1500 for the moth department, was taken up and Supt. Thomas F. Carleek of the moth department stated that the annual appropriation of \$1013 had a "joker" attached. He referred to the words "exclusive of receipts," as the joke. These words, he said, prevented him from spending the revenue derived from private sources, which now amount to more than the loan asked for.

As to the loan proposition connected with the moth loan, James Cunningham stated that recent legislation required all current expenses to be met by direct appropriations and he thought banks would refuse to make loans to meet current expenses. It was voted to raise the money by direct appropriation.

Under article two the sum of \$1000 was raised and appropriated to pay interest on loans.

Article three asked that a loan of \$500 be made to be used to defray expenses connected with the inspection of meats.

James Cunningham said he had visited the state board of health and learned, he said, that the town of Dracut was paying an exorbitant amount as compared with other towns. He said that from figures obtained from the auditor's books he was greatly impressed with the belief that the inspection of meat was a costly one. In January the bill of one inspector was \$48.70, said the speaker, and despite the fact that on account of the existing quarantine conditions during the month and in March when the inspector's bill amounted to \$51.90, there was very little doing in the slaughtering line at this particular time.

Mr. Cunningham stated that on the basis of hours worked and the money expended as shown by the bill rendered, the town was paying an abnormally high figure.

Dr. William S. Eaton, inspector of meats and animals, spoke briefly upon the article, quoting the law relative to the town being required to employ one or more inspectors.

Norman L. Peavey thought that to curtail the slaughtering and inspection of animals would be to discourage the men engaged in that business and these should be protected, instead of being driven out of business.

While Mr. Cunningham offered an amendment to raise only \$200, the sum of \$500 as originally called for was raised and appropriated.

The sum of \$350 was appropriated to replenish the forest warden's department. The meeting refused an appropriation of \$120 for the installation of telephones in the homes of four regular police officers.

It was voted to pay Florence Gilman the sum of \$15 for services rendered as teacher in 1907. An article asking for a loan for the sealer of weights and measures was given the marble heart. An article concerning an appropriation for the establishment of voting precincts was also assigned to silent halls.

Taking all in all, however, it looks like a good year for Dracut.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and retard the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of saturated magnesia—acid and wind. This is the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to call at Liggett's drug store for the saturated magnesia. I have found other remedies utterly lacking in its peculiarly valuable properties.—F. J. G.

missioner this fall. And that recalls the fact that while the promoters of the Fourth of July celebration are pointing proudly to the large amount of money coming into the city treasury from the sale of lots on the common, the Smiths and Whites made that sale possible. Back in 1906, I believe it was, when Francis W. Qua was city solicitor and the Trades & Labor council attempted to sell lots on the South common in connection with their Labor Day observance, Mr. Qua caused a sensation by digging up an ancient, but the proverb was shown that one of the conditions under which the common was given to the city was that it was never to be used for gain. The disclosure was decidedly unpopular for none could see any harm in the practice, and it had been going on for years, but the proverb was there in black and white. Then Mr. Adams introduced an order providing for the necessary legal steps to permit the sale of lots on such occasions and the late W. H. H. Hayes engineered the project through the legislature, it being passed by a vote of 100 to 100 in the legislature.

THE SPELLBINDER.

OFFICERS ARE INSTALLED

PLEASANT EVENING AT ROOMS OF Y. M. H. A.—FORMER MAYOR O'DONNELL OFFICIATED

The officers of the Young Men's Hebrew association, recently elected, were installed last evening at the rooms of the organization, 233 Central street. Former Mayor James E. O'Donnell was the installing officer.

The program of the evening included a pleasing musical entertainment, followed by a whist tournament. The officers installed were as follows: A. S. Goldman, president; Leopold Albertson, vice president; Morris Lemkin, treasurer; Samuel Perlman, financial secretary; A. Patelsky, recording secretary; Frank Goldman, Barnett Silverblatt, A. Gustaf, Harry Bogdanoff, Max L. Katz, Louis Buchbaum and Samuel Smith.

There were twenty tables filled with players at the whist tournament and the following winners received suitable prizes: Women, first prize, Miss Shatloff; second, Miss Patelsky; third, Miss Levine; fourth, Miss Creme. Men, first prize, Samuel Perlman; second, Sidney Greenberg.

SUNK AFTER ORDER TO STOP

TIDE STILL WITH THE TEUTONS IN THE EAST

Allies Attempt to Gain Ground in
Dardanelles—British Ship Sunk
—Other War News

Interest in the operations on the battlefields of Europe is overshadowed for the moment by the sinking of the British steamer *Armenian* by a German submarine.

Official Washington, concerned because of the loss of several American lives, is withholding action until full information regarding the occurrence is received from its representatives abroad. The situation, however, was regarded as clarified to a great degree by dispatches telling of attempts

Attack in Dardanelles

From the fields of war, recent reports have indicated comparative inactivity except in northern Gallicia and southern Poland, where the tide is still with

THE MEXICAN SITUATION

Case of Huerta and Others
Charged With Conspiracy to
Violate Neutrality Postponed

EL PASO, Tex., July 1.—The case of Victoriano Huerta, Pascual Orozco and four others charged with conspiracy to violate the United States neutrality laws was postponed today to July 12. The defendants were continued under the same bonds.

PRESIDENT NOTIFIED OF RIOTING AND LOOTING

CORNISH, N. H., July 1.—Despatches transmitted to President Wilson today from Washington telling of rioting and looting in Mexico City, added to the seriousness with which he has viewed the Mexican situation for some time past and were expected to hurry the next step in his new Mexican policy inaugurated when he sent warning to the principal leaders that conditions in the southern republic must improve.

Recent reports that the various Mexican factions might get together

and agree on some form of government have led the president to defer any action and he has also been anxious to dispose of the German situation if possible before carrying his Mexican policy any further.

The reports from Washington were to have been telegraphed here last night, but Assistant Secretary Osborne of the state department finally decided to send them by special delivery. The reports were nearly 1000 words in length and said the food supply of Mexico City was nearly exhausted and that business was being interfered with.

CONDITIONS IN MEXICO CITY MORE CHAOTIC

WASHINGTON, July 1.—Conditions in Mexico City, described as growing more chaotic, loomed largest today in

KILLED HIS WIVES

George Joseph Smith
Found Guilty of Mur-
der Today

LONDON, July 1, 3:14 p. m.—A verdict of guilty was brought in by the jury today in the case of George Joseph Smith, who was charged with the murder of three of his wives.

The prisoner was sentenced to death. It had been alleged by the crown that Smith had killed his wives while they were in their baths and had collected insurance on their lives.

OIL KILLING THE FISH

CHAIRMAN OF STATE FISH AND
GAME COMMISSION SAYS STREET
OILS ARE DEATH ON FISH

Street oil used on highways to lay the dust is the latest foe of the fish in Massachusetts streams, according to Dr. George W. Field, chairman of the State Fish and Game Commission.

Dr. Field declared yesterday that the

oil, which washes off the highways into the streams, is killing the fish. He declared that this state has more miles of fishing streams and ponds than any other state in the union, but its streams are more polluted than elsewhere in this country.

Charlie Morse hasn't yet been interviewed as to the effect of street oil on fish, though he has been heard to refer to lobsters in connection with street oiling, but the "lobsters" referred to by Mr. Morse were the talking kind.

ARMENIAN TRIED TO EVADE CAPTURE

Leyland Line Steamer Sunk by Ger-
mans With Loss of American Lives
Was "Engaged in Admiralty Busi-
ness"—Officials Believe Sinking Ac-
complished in Accordance With the
International Law

WASHINGTON, July 1.—Secretary Lansing announced today that until more complete reports had been received from Ambassador Page at London on the torpedoing on Monday of the British steamer *Armenian*, in which several Americans lost their lives, the United States would take no action.

Latest news despatches from Avonmouth detailing how the *Armenian* made efforts to escape after being ordered to stop, caused officials to believe the sinking of the vessel was accomplished in accordance with international law and that the United States might have no reason to take up the subject with Germany except to verify through the admiralty at Berlin the details of the *Armenian's* reported resistance.

Under the rules of international law it was pointed out that the *Armenian* which flew the British flag, as well as any neutral vessel, could be sunk for refusing to obey a warning to halt and submit to visit and search or capture. Americans aboard such a ship lose the protection of their government when the vessel offers resistance.

"On Admiralty Business"
Ambassador Page reported that the *Armenian* was engaged on "admiralty business," but the question of how far the vessel was under the control of the British government by charter or otherwise seemed to be overshadowed in the minds of officials here, by the reported resistance to capture.

What last night seemed to loom up

as a possible complication in the pending negotiation over submarine warfare with Germany appeared to be removed by the suggestion that the *Armenian* was sunk while trying to evade capture. The report that the German commander had come to the surface and megaphoned the *Armenian* was regarded by many officials as indicating an intention to visit and search even enemy ships, a principle for which the United States has been contending. It was suggested in some quarters that the German submarine commanders now may have new orders requiring them not to torpedo any ships without warning. No cases have been reported of attack without warning in the last few weeks. The law on the question of charter is not clear, but officials indicated it would not be a violation of American neutrality laws for an unarmed transport carrying a cargo of munitions or supplies for a belligerent government, to sail from the United States and that it never had been definitely determined whether belligerent cruisers encountering such a vessel were to treat it as a ship of war, or a defenceless merchantman.

President Gets Facts

The first news received here of the destruction of the *Armenian* with the loss of American lives created the impression that she was not a merchant vessel in the sense referred to in the American notes to Germany concerning submarine warfare, and this view appeared to be borne out by the state-

ment of the British admiralty today that the *Armenian* was engaged in admiralty business. A special delivery letter received from the state department this morning brought the president all the facts in the case available at Washington late yesterday.

No Comment By President

President Wilson declined to comment on the incident and will await further information before deciding on the course of the American government. He was from the start anxious to learn whether the *Armenian* was under charter to the British government and what was the status of the American seamen who were lost. It was made known that he expected Secretary Lansing to inform him as early as possible of the international law features involved in order that he might form a correct judgment of the seriousness of the situation.

It was declared authoritatively that for the present President Wilson had no thought of hurrying back to Washington ahead of his schedule because of the latest submarine problem. The investigation, which will be conducted through Ambassador Page at London and Ambassador Gerard at Berlin, will occupy several days, it is expected.

CHASED FOR TWO HOURS

CARDIFF, Wales, July 1, 3:07 p. m.—Joseph Carter, a mulatto of Norfolk, Va., one of those rescued after the *Armenian* was swamped, said that the submarine chased the ship for two

JOHN DEMOS IS HACKED TO DEATH AT ELM PLACE HOME

Another Murder in Which Robbery
Was the Motive as Victim Carried
\$800 in His Belt — John Comatos
Held as Suspect—Man Found With
\$800 in Belt But Claims Money His
Own—Many Men Questioned

After a visit to the scene of the murder of John Demos at 2 Elm place by Judge Enright, Supt. Welch and Assistant Clark Trull, this afternoon John Comatos was arraigned in police court and charged with the crime of murder. He was held without bail until Saturday, July 10.

He pleaded not guilty.

The police department has kept up a continuous investigation of the murder of John Demos at 2 Elm place, since the tragedy was discovered last night. The traces of blood upon the hands and undershirt of John Comatos, who lived with the victim, justify the police in holding him on suspicion.

Another feature is that a man with \$800 in his belt has been found and this was the amount that Demos was said to have carried. But the police believe this is not the money of the murder victim. Many witnesses have been examined, but no tangible evidence pointing to the identity of the murderer has yet been found.

State Officer Thomas Eustis, representing the district attorney, has been

What the Police Found

According to the story told Supt. Welch by Comatos, he and George Capopoulos, left the tenement apartment in Elm place at 7 o'clock last night, leaving the victim, John Demos, alone. They at once headed for Market street, where Comatos told Capopoulos he was to buy some provisions. The pair then parted. Capopoulos going to a coffee house at 410 Market street. Comatos did not go to purchase provisions as he said, but went to another coffee house at 388 Market street, where he purchased a cup of coffee. In answer to Supt. Welch's question as to why he didn't purchase the provisions, Comatos said he intended to do the buying later, and that he dropped into the coffee house for justice. While in this place Comatos bought a drink of coffee, and played a

few games of cards with a friend, after which the two got up and went out. The other man's name is known to the police and he will be examined later. On leaving the resort, the two walked down Market street to a liquor establishment, where they both had drinks. Some time after, said Comatos, he returned to the coffee house again, but could not state how much time had elapsed between his going to the saloon and back. While in the coffee house the second time, Comatos bought another cup of coffee and at 10:45 p. m. he went to the coffee house at 410 Market street and called for Capopoulos. In this place he purchased two five cent cigars and then he and Capopoulos started for home. As they were approaching Elm place, Comatos said he noticed a large crowd and upon in-

EVELYN THAW REFUSES TO HONOR SUBPOENA

State to Apply for Writ to Com-
pel Her to Testify in Sanity
Trial—Ex-Gov. Slaton in Court

NEW YORK, July 1.—If Evelyn Nesbit Thaw refuses to obey the subpoena summoning her to testify as a state's witness at the trial to test her husband's sanity, as reported from Malone, N. Y., the attorney general's office will apply to the court for a body writ of attachment to compel her attendance.

This statement was made today at the attorney general's office where the report that Mrs. Thaw had said she would refuse to obey the subpoena served upon her at Chateaugay Lake was confirmed.

It was expected that the application for the writ will lead to the taking of formal steps to determine whether Mrs. Thaw's health would in fact be endangered.

Former Gov. John M. Slaton of Georgia, occupied a seat on the bench beside Justice Hendrick when the trial was resumed today. He listened with attention to further reading of the testimony given by Thaw's mother at the second murder trial. This was followed by more of the records of Thaw's life at the Matteawan asylum.

EVELYN REFUSES TO APPEAR

MALONE, N. Y., July 1.—Evelyn Nesbit Thaw has refused to honor the subpoena served on her yesterday, summoning her to New York to testify at

the jury proceedings to determine the sanity of her husband, Harry K. Thaw. Mrs. Thaw, it became known today, told William J. McGuire, the state's process server, that she was in poor health and feared for her life should she be compelled to undergo the ordeal on the witness stand to which she thought she would be subjected in cross examination by Thaw's counsel.

She said that she would furnish a doctor's certificate if required to do so by the court.

TRIAL RESUMED

NEW YORK, July 1.—Transcripts of the testimony given in Harry K. Thaw's two trials for killing Stanford White were in the possession of state's attorneys today and preparations had been made to read liberal extracts in his sanity trial now in progress. The records, the state expects, will support its contention that Thaw is insane. Reading of the evidence given by Mrs. Mary Conley Thaw, his mother, in the second trial had not been concluded when the court adjourned yesterday and was continued today. Mrs. Thaw, in the portions of her story read to the jury, told of her son's early life, and his eccentric actions prior to the killing of White and of the insanity taint which affected some of Thaw's relatives.

hours and fired about 100 shells, 25 of them striking the ship.

ORDERS FULL INVESTIGATION

CORNISH, N. H., July 1.—President Wilson has instructed the state department to make full investigation of the sinking of the Leyland line steamship *Armenian* by a German submarine, and to keep him completely informed of all developments. He remained in his study during the forenoon in order to be in constant touch with Washington.

After devoting several hours to official business the president put on a rubber hat and coat and went with Dr. Cary T. Grayson for a long walk in the rain through the woods surrounding Harlandenden house.

Reports from several members of the cabinet were received in the morning mail, but it was said that with the exception of the despatches from the state department there was nothing of great importance.

"ON ADMIRALTY BUSINESS"

WASHINGTON, July 1.—The Leyland line steamer *Armenian* was "engaged on admiralty business" when she was sunk by a German submarine off the Corn-

AN EPIDEMIC OF RABIES

DR. CHARLES E. SIMPSON RECOM-
MENDS THAT DOGS BE MUZZ-
LED—CASES IN NEARBY TOWNS

City and town officials in eastern Massachusetts went into effect stringent measures yesterday to check the rabies epidemic, which during the last three months, has resulted in 50 persons being bitten by dogs.

Lowell seems not to have been included in the measure, though Dr. Charles E. Simpson of the state board of health stated today that all dogs ought to be muzzled, as one can never tell where the disease is going to break out. Within the last few months the doctor has treated cases in Tyngsboro, Billerica, Tewksbury, and Lawrence, and he says the only prevention is to muzzle the dogs. He says, too, that there are many dogs going about without collars that ought to be taken care of by the authorities.

"The only place in my district where the dogs are being muzzled," said Dr. Simpson, "is Belmont, and this practice, in my estimation, should extend to all cities and towns."

An order restraining all dogs in Cambridge for a period of 90 days and it is said that similar quarantines will prevail throughout the eastern part of the state within a week or two. Precautionary measures have also been taken in Waltham, Gloucester, Rockport, Sterling and other places.

FUEL SHIP AGROUND

NEWPORT, R. I., July 1.—The United States fuel ship Vulcan, formerly the Navy's repair ship, during the dense fog this morning and at about high water, went on the southeast side of Gould Island. Attempts to haul her off failed and she is being lighted.

The island is in the bay just above the battleship anchorage and so far as now known she has not suffered any material damage.

TOUR OF ORPHANAGES

Ayer Home May Soon Have Isolation Cottage—All the Homes Free From Sickness at Present

A reporter of The Sun visited the Ayer Home in Pawtucket street, St. Peter's orphanage in Stevens street, and the French-American orphanage in Pawtucket street yesterday afternoon and in each place he was informed that the children were in the best of health. The schools in the three institutions closed during the past week and those in charge report a very successful year.

Ayer Home
At the Ayer Home the children are reported to be in the pink of condition, despite the fact that the place has been recently quarantined for a short time. There are 50 boys and 33 girls in the institution and the matron has the names of 21 little ones, who are awaiting an opportunity to enter the home. In conversation with the matron stated 100 children can be accommodated in the home, and she hopes to have the waiting list in the near future. The classes at the home closed during the past week and the affair was marked with appropriate exercises for the children only.

Dr. Parker, chairman of the board of trustees, who is deeply interested in the home, thinks the board of health is rather severe in its quarantine regulations on the home. In certain cases when a child was taken ill with a contagious disease, arrangements were made for complete isolation of the patient in an upper room, to which food and all supplies were sent on the outside. A nurse was also specially provided and given access to the room; but not allowed to come in contact with any of the other children or even to enter the other portions of the building. Nevertheless, the health authorities quarantined the entire building and kept all the children from school. This has proved a great hardship and the doctor hopes that in the near future a suitable isolation cottage will be provided so that the schooling of all the children in the home will not be interrupted through the illness of one or two.

St. Peter's
The sisters in charge of St. Peter's orphanage informed the writer yesterday afternoon there is an unusually large number of children at the home for this time of the year. This is due probably to the fact that boys are now admitted to the institution. The membership roll consists of 75 girls and 41 boys. The school, which is connected with the orphanage, was closed during the past week and an appropriate entertainment program was given on that occasion by the best talent of the school.

The sisters wish to publicly thank Mrs. Elias McQuinn for the successful whist party she recently conducted at her home for the benefit of the home, as well as the members of St. Elizabeth's guild, who are deeply interested in the welfare of the institution. The writer was informed that the boys spend most of their time in the summer in garden work. They have nearly two acres of fertile land planted with vegetables of all kinds and they are deeply interested in their work. Each boy has a certain patch to look after and for the credit of the institution, it is well to state that there is no vegetable garden in Lowell or vicinity better kept than that at the orphanage. The girls when not at play

keep busy at their flower beds, which reflect much credit upon their ability.

French-American
The number of children at the French-American orphanage in Pawtucket street totals 28 girls and 100 boys, the small number being due to the fact that many are enjoying a vacation at the homes of their relatives. The capacity of the orphanage is 300. The children at this institution have a large tract of land for their games and amusements and a number of them have also taken up the idea of gardening and in the rear of the institution is a large plot of land planted with vegetables and flowers. Through the courtesy of a number of business men and other friends of the institution, the children have recently been supplied with toys and playthings of all descriptions and it is indeed a pleasing sight to witness their games. The boys and girls have their separate playgrounds so that the rougher play of the boys does not interfere with the girls in whatever amusements they start.

The writer was informed at the three institutions that each child is supplied with an individual tooth brush, cake of soap, towel and napkin. Each child is given a number which is placed upon each of his toilet articles, so there can be no mistake. The children are well kept and are enjoying the best of health.

PRESIDENT OF ZIONISTS

DR. FRIEDENWALD OF BALTIMORE ELECTED—SAYS THERE ARE 700,000 JEWS IN THE ARMIES

BOSTON, July 1.—The Federation of American Zionists, principal of the Jewish organizations which are holding their annual conventions in this city, last night elected as president, Dr. Harry Friedenwald of Baltimore. Dr. Friedenwald formerly held that office and recently had been honorary president. The latter office was abolished by vote of the federation last night.

Louis Lipkys, of New York, as chairman of the executive committee, and Louis Robson of New York, treasurer, were re-elected.

The federation voted to increase the per capita tax of members from 50 cents to 75 cents, this action being recommended because of a deficit of \$13,000 in the treasury.

At a meeting in Chelsea yesterday, Louis D. Brandeis broached a plan which he said was aimed to bring every Jew in the United States within the folds of the Zionist societies. Every Jewish man, woman and child in Chelsea will be enrolled first, and then the organization will be extended to gain a like result in Massachusetts, he said. Subsequently the movement will be broadened to comprise all the country.

In a statement regarding the effects of war upon the Zionists at its closing meeting last night, it was said that "there are 700,000 Jews in the armies now active." This statement continued: "There are some 4,000,000 Jewish

THERE'S NO PHYSICAL BLESSING MORE TO BE DESIRED

Than a good, healthy stomach. Nearly every person of mature years suffers more or less from bad stomach—sourness, nausea, waterbrash, heartburn, indigestion. Thousands are learning of the dependable value of Dys-pep-tol for all these symptoms. It is surprising how quickly they give relief. Just one or two crushed in the mouth and swallowed slowly—ends all the trouble. Carry a packet of Dys-pep-tol with you all the time and with them keep your stomach in healthy working condition. They cost little. They do a lot of good.

combustion in the seat of the war—Russia, Rumania Poland and Galicia. Over one-half million of them have been driven from their homes and now wanderers on the face of the earth, without food, clothing, shelter, medicine or decent burial for their dead. Their goods have been confiscated and their young children given over to the mercies of the world. Of all who suffer from the war, these Jews are the most needy and pitiable.

FIREMAN SAVES CUTTER

WITH EXPLOSION IMMINENT, OLIVEIRA GROPED THROUGH STEAM AND DREW FIRES

BOSTON, July 1.—A serious accident was averted on board the Coast Guard cutter Winthammet yesterday afternoon by the coolness and bravery displayed by Fireman Oliveira, who drew the fire after one of the nipples of the steamships burst, and thereby prevented an explosion of the boilers, although in doing so his hands were frightfully burned and he was in need of medical attention when the crippled cutter was towed back to Long Wharf. The Winthammet, with Maj. D. H. Gleason, the boarding officer, on board, left Long Wharf at 2 p. m. to inspect the three German steamers anchored at quarantine. Major Gleason was to board the Germans to see that the wireless signals had not been tampered with. Boatswain Christiansen was in command of the cutter and Machinist Rader was in charge of the engine room.

The boat was within half a mile of the steamer Wilhelm, one of the vessels to be boarded, when a slight explosion was heard in the boiler room, and an investigation showed that one of the starboard pipes connecting with the boiler had cracked and steam and water were pouring through the opening.

The engine room immediately filled with steam, and the pressure valve went down from 150 to less than 25. The boiler was emptying so quickly that it was feared that it would run dry and an explosion would follow. The Winthammet was ordered to draw the fire under the boiler, without hesitation the fireman started to obey. He groped through the thick vapor and succeeded in drawing the fire, although both his hands were so frightfully burned in doing so that he will be laid up several days.

Two emergency pumps were started and the boiler was refilled. The Winthammet managed to reach the side of the Wilhelm, and there she was tied up three hours until the police boat Guardian came along and towed her back to the city.

The work of repairing the steam pipes began last evening, and the cutter will probably resume her work today.

BABY IN DIP OF DEATH

SIX MONTHS OLD CHILD DID ACT IN BABY CARRIAGE AND MIRACULOUSLY ESCAPED INJURY

WOODVILLE, July 1.—Here's the story of how a baby did the "dip of death" act in a baby carriage and escaped without serious injury. Six-months-old son of Mr. and Mrs. Franklin H. Wentworth of Woodville, had a narrow escape from serious injury and possible death in a most curious manner when the baby carriage in which he was being taken down over a steep embankment and plunged over a five-foot wall onto ground strewn with rocks where some grading is being done.

The great moment came on the slope when the baby carriage rolled over the edge of the wall, and the shock of striking the ground after the drop threw the baby high in the air in a sort of aerial somersault. The pillow and blanket went up, and a strange look of fortune told that the catapulted baby had turned completely over and fell squarely on hands and knees on the pillow, unhurt except for scratches on the knees and a slight abrasion on the forehead.

NEW SCALE IS RATIFIED

WORCESTER CARMEN FIND IT SATISFACTORY—HOURS OF SHOP AND TRACK WORKERS REDUCED

WORCESTER, July 1.—The wage and working scale for the employees of the Worcester Consolidated and the Springfield street railway lines recently agreed upon between representatives of the lines and the men, was unanimously ratified by the Worcester Trolley-men's union at meetings in Columbus hall last night.

The scale provides that the day of the men who work in the barns and shops and on the track and lines shall be reduced from 10 to 9 hours and that their wage schedule shall be increased from \$5 to \$6 per cent.

The scale for motormen and conductors provides 25 cents an hour the first six months, 26 1/2 cents the second six months, 28 cents the second year, 30 cents the third year, 30 1/2 cents the first six months of the fourth year and 31 cents thereafter.

PANIC AMONG GIRLS

GASOLINE EXPLOSION IN WORCESTER ALARMS EMPLOYEES NEXT DOOR AND THREE FAINT

WORCESTER, July 1.—A \$3000 fire in the City Psychiatric hospital, yesterday afternoon, caused by an explosion of gasoline, seriously injured John Joyce, an employee, and created a panic in the plant of the Culver-Sacarns Electrical company.

The girls are Anna Stevens, aged 17, of 50 Canterbury street; Emma Vincent, aged 23, of Fairmount avenue, and Annie Stevenson, aged 17, of Greendale. Miss Vincent collapsed on the stairs and sustained bruises when she tumbled to the bottom. Joyce was burned about the face and hands. Henry J. Brooks, proprietor of the dyehouse, was in the shed, but escaped injury.

The electrical plant escaped injury, and the firemen responded quickly.

HAPPY MARRIED LIFE

MR. AND MRS. ROBERT G. FULLERTON WERE MARRIED A QUARTER OF A CENTURY AGO

Mr. and Mrs. Robert J. Fullerton were married 25 years ago yesterday and the happy couple observed the anniversary by celebrating the occasion in a quiet way at their home, 17 Dutton street, yesterday afternoon and evening. Their friends called to assist them in the observance of the event and they were made the recipients of appropriate gifts. They were literally showered with bouquets and in the evening an anniversary supper and a pleasing musical program were thoroughly enjoyed by host, hostess and guests. Mr. and Mrs. Fullerton are both well known in Lowell. For the past 14 years they have been members of the church at the First Trinitarian church and they belong to many fraternal organizations.

GIVES PAY TO THE CITY

MALDEN REPRESENTATIVE SENDS CHECK FOR \$1010 TO TREASURER OF CITY

MALDEN, July 1.—In giving his salary as representative in the legislature to this city, Rep. Alvan F. Fuller yes to this city what is believed to be a precedent among members of the house. City Treas. Alfred E. Hitchcock received in yesterday's mail a check for \$1010 from Mr. Fuller the \$1010 being the salary as representative and the remainder the money allowed for mileage.

COL. MATTHEWS DEAD

NORWALK, Conn., July 1.—Col. Edward H. Matthews, head of the shoe manufacturing concern of Lounsbury, Matthews & Co. of this city, and a director of the United Shoe Machinery corporation, died at his home in South Norwalk yesterday of pneumonia pneumonia.

He was president of the City National bank of South Norwalk, and was in fact a member of the staff of Gov. Pinckney S. Lounsbury. He was 67 years old.

WHILE INSPECTORS LOOK ON

Frank Strauss Takes 500 Cigars From an Express Wagon, According to Wise and Kilday

BOSTON, July 1.—Charging him with taking 500 cigars, worth \$175, from a Weymouth express wagon, King Street, Wise and Kilday arrested Frank Strauss, late yesterday. The prisoner gave his age as 23 years, and his address as 645 1/2 Ave. New York.

FEDERAL COLLECTOR BUSY

Receipts on Last Day For Payment of Income Taxes Expected to Total \$1,000,000

BOSTON, July 1.—The collector of internal revenue and staff were kept busy yesterday receiving federal taxes from thousands of men and women. Every mail also brought big returns in the last day for payments and penalties for delinquents will begin today.

The receipts for the various taxes amounted to \$500,000 on Tuesday and the total for the day for yesterday is expected to show \$1,000,000.

CONGRATULATE NEW JUDGE

Washington Club of Worcester Tenders a Dinner to Philip J. O'Connell at Lake Clubhouse

WORCESTER, July 1.—The Washington club of Worcester tendered a dinner to Judge Philip J. O'Connell, a member of the club, in recognition of his appointment to the superior court bench. The gathering was attended by 100 and congratulations were tendered the new judge in earnest addresses by his associates.

Fred. John J. O'Donnell presided and Mark E. O'Sullivan was toastmaster. The guests were Frederick A. Carroll, Charles H. O'Sullivan, J. Alexander Donahue, Dr. John T. McGillicuddy, Rev. Dr. John J. McCoy and Deputy Sheriff James Early.

WE CLOSE THURSDAYS AT 12 O'CLOCK

YOUR BOYS AND GIRLS

There are certain fundamental facts that must be known in feeding infants. The first and foremost is that there is no substitute for mother's milk. The next best food to mother's milk is clean, fresh, pure, raw, cow's milk. Let me emphasize the essentials of wholesome cow's milk: Cleanliness, freshness, not over twenty-four hours old, purity, and good to customer.

For a party of small tots trim the table with wee tapers as long as your little finger, or with candles. Also put them on a cake in glass holders or around it in a circle made from a barrel hoop. If you cannot buy the already prepared candle holder circles for birthday cakes, serve chicken sandwiches, graham wafers, animal cookies, ice cream and have cake either angel food or vanilla. For trimming Christmas trees. Also put them on a cake in glass holders or around it in a circle made from a barrel hoop. If you cannot buy the already prepared candle holder circles for birthday cakes, serve chicken sandwiches, graham wafers, animal cookies, ice cream and have cake either angel food or vanilla. For trimming Christmas trees.

I do not think a growing boy ought to eat meat more than once a day. He will find plenty of other things to eat—soups, especially thick ones, which are very strengthening, cereals, vegetables, milk, etc. The midday meal is the best time to eat meat if you are going to give it only once a day. But this may not prove satisfactory to your family for many have the habit of a heavy dinner in the evening when father is at home. In such case, of course, let the child eat his meat at dinner.

If a small person must have a dose of castor oil—and in hot weather it is essential that the bowels be kept free—give it through the skin. Put a teaspoon or more in the skin over the stomach or abdomen. It will do the work just as well and will do away with the nauseating taste.

To the mother, boys at a certain age seem awkward, callow, half grown youths, who are timid and constrained in her presence. They do not present themselves as possible lovers of her little girl daughter. This is because naturally so frequently forgets its youth. The first fine careless nature of life passes so quickly that some world weary mortals would even deny that they had ever even caught a gleam of the shining robes of romance.

But if the mother could, for a little while, recapture her lost youth, if she could only recall some of her own vivid, emotional life, if she could only be frank enough to confess to herself some of the unvoiced dreams and desires that she felt at sixteen, she would be better fitted to guide her daughter through this period.

Many a woman happily married to a good man, can recall the time when she cherished as the hero of her secret romance, the figure of some boy

EDUCATIONAL PROBLEMS

84TH ANNUAL CONVENTION OF AMERICAN INSTITUTE OF INSTRUCTION IN BOSTON

CAMBRIDGE, July 1.—Two general meetings and a series of conferences on specific educational problems have been arranged for the 84th annual convention of the American Institute of Instruction, opening here tonight. Among those expected to deliver addresses are President Robert J. Aley of the University of Maine, President Samuel C. Mitchell of Delaware college and Prof. George W. Kirchway of Columbia university.

The general meetings will be held tonight and tomorrow night. The conferences tomorrow and Saturday will consider school administration, rural schools, psychological studies and other topics.

Saturday, July 3rd, is "Quarter Day" at The Lowell Five Cent Savings Bank.

MINOR FIRES

A quantity of gasoline burning in a catch basin near the corner of Apple and Railroad streets, caused a telephone alarm early last evening. It is thought that the gasoline was thrown into the basin and later ignited by a match or cigarette stub.

A fire on a couch in a tenement at 120 Walker street was responsible for the alarm from box 33, Broadway and Walker street, at 5:34 clock yesterday afternoon. The firemen succeeded in confining the damage to the couch.

DELEGATE MATTHEWS RETURNS

Nathaniel W. Matthews, Jr., delegate to the New England Typographical convention held in Portland, Me., this week, returned home last evening and reports a most interesting session and delightful entertainment. Mr. Thomas J. Durkin, the other Lowell delegate, with Mrs. Durkin, left Portland yesterday for Ocean Park, Me., where they will spend a fortnight.

ELEVEN POSITIONS FILLED

GOVERNOR WALSH NAMES MEMBERS OF MILITARY EDUCATION COMMISSION

BOSTON, July 1.—Governor Walsh yesterday made 11 more appointments, of a total of 36 in two days.

The governor's appointments were in connection with the special commissions to investigate taxation problems and on the practicability of providing military education for boys and for the creation of a military reserve.

The governor named as members of the military education commission the following:

Robert L. Raymond of Milton; lawyer, and author of the act.
The Rev. Charles W. Lyons, S. J., educator, president of Boston college.
Alexander Melickjohn, educator, president of Amherst college.
Harold E. Sweet, mayor of Attleboro and manufacturer.

Walton A. Green of Weston, publisher.

J. Frank O'Hare of Boston, representative of labor.

Major-General William Stottford, M. V. M., retired, of Beverly; the adjutant-general under Governor Douglas.

Major-General William A. Pew, M. V. M., retired, of Salem, formerly colonel of the Eighth Massachusetts Infantry.

Brigadier-General John J. Sullivan, M. V. M., retired, of Boston, formerly colonel of the Ninth Massachusetts Infantry.

Walter N. Creamer of Lynn and Frederick T. Fuller of Walpole were named by the governor for the special commission appointed to investigate the taxation questions.

The other members of this commission who were named by the president of the senate and the speaker of the

house, are Senators Tufts of Waltham and Wells of Haverhill and Representatives Drury of Waltham, Felt of Greenfield, Catheron of Beverly and McElwain of Boston.

WANT WAR, NOT PEACE

BERLIN PAPER COMMENTS ON IMPERIAL RESCRIPT ISSUED BY CZAR

BERLIN, July 1.—(By London, July 1, 11.40 a. m.)—Commenting on the imperial rescript issued by Emperor Nicholas in connection with the formation of the Russian board of military supplies, in which the determination is expressed to carry on the war until Russian arms triumph, the Tagblatt says: "This proclamation shows how far removed the Russians still are from peace thoughts and how undependable were the reports, originating chiefly in Scandinavian coffee houses, which professed knowledge of a growing inclination for peace in the Russian court and all sorts of peace negotiations."

The Tagblatt expresses the belief that the Duma also will decide that the war must be continued until victory is won, and asserts that Russian ministerial changes do not denote propositions for peace but merely for a better conduct of the war. The paper adds that the Russian army, in spite of all misfortunes, does not consider itself defeated.

LOST THIRD OF FLEET

BERLIN REPORTS ON LOSSES IN BRITISH NAVY—GERMAN VICTORY AT SEA MAY BE NEAR

BERLIN, July 1.—(By wireless telegraph to Sayville, N. Y.)—Among the news items given out by the Overseas news agency yesterday was the following:

"German papers reprint a special article which appeared in the Stockholm Aftonbladet, in which it was asserted that the losses of British warships caused by German submarine attacks were kept secret by the British admiralty, which was fearful of a considerable decrease in the superiority of the British fleet over the German."

"At the beginning of the war the ships of the fleet numbered about 60, but these, the Aftonbladet article declares, have been reduced by systematic submarine torpedoing to 40, while Germany has lost no ships of this class."

"If these tactics are continued with characteristic German endurance, the article argues, the possibility of a victorious sea battle for the Germans against the British is near."

REDUCE POSTAL RATES

U. S. AND ENGLAND CUT PRICE ON READING MATERIAL FOR BLIND EXCHANGE

WASHINGTON, July 1.—By agreement between the United States and England, effective today, postage rates on reading material for the blind exchanged between the two countries were substantially reduced.

The postoffice department announced that a flat rate of ten cents would be charged for packages weighing from 15 to 95 ounces. The weight limit is increased from four and one-half to six pounds.

Interest begins Saturday, July 3rd, at The Lowell Five Cent Savings Bank.

EDITOR DIED SUDDENLY

OLIVER OTIS OF "ROCKLAND OPINION" PASSED AWAY AT ROCKLAND, ME.

ROCKLAND, Me., July 1.—Oliver Otis, editor and proprietor of the Rockland Opinion and one of the best known weekly newspaper publishers in Maine, died suddenly today following an operation. He was born in 1848 and had been engaged in newspaper work either as printer or editor since he was 13. He had been located at Farmington, Augusta and Auburn before coming here in 1875. He was a member of the legislature in 1911 and prominent in state democratic politics.

NEW CONVENT BOUGHT

REV. DR. KELEHER PROVIDES PERMANENT HOME FOR NUNS OF ST. PETER'S SCHOOL

Parishioners of St. Peter's will be pleased to learn that Rev. Dr. Keleher has purchased as a permanent home for the Sisters of Charity connected with St. Peter's parochial school, the commodious dwelling house at the corner of Highland and Thordike streets, overlooking the South common, which has been occupied by them since the opening of the school, and owned by James F. O'Donnell.

The building is a large dwelling with modern roof and all modern improvements, and upon taking it Dr. Keleher had its interior remodeled to meet the purposes of a convent, including the installation of a cosy chapel, with the result that it has proved eminently satisfactory to the sisters, a fact which caused Rev. Dr. Keleher to purchase it this time. Additional room will be provided as it becomes required. At present there are nine nuns at the convent while two more will take up their duties here at the opening of the school in September. It is expected that two nuns will be added to the teaching force each term until the total number of 20 has been reached. The school has shown a steady increase in numbers and has been a decided success educationally. The Sisters of Charity of Halifax, N. S., are a teaching order with large schools throughout the country and the British provinces. They are a separate order from the Sisters of Charity at St. John's hospital, whose mother house is at Emmitsburg, Md., and who are doing hospital and orphanage work in addition to school and academic teaching.

WOMAN LOST HER PAY

AND HAD RUN-IN WITH CONDUCTOR TO ADD TO HER DISCOMFORTURE ON TRAIN FROM BOSTON

According to passengers on one of the afternoon trains from Boston to Lowell yesterday, a woman named Mary Simpson, residing in East Billerica and employed as a car-cleaner by the Boston and Maine, had a most unpleasant experience which, it is alleged, will be aired before the B. and M. authorities. The story is to the effect that the woman, who is of foreign extraction, shortly after entering the train discovered that she had lost \$12, which had just been paid to her by the Boston and Maine. In a state of excitement she was scouring the car for her lost pay when approached by a conductor for her ticket. She presented a check for the amount, but it was alleged that she was unable to sign her name to it. It is claimed, the conductor demanded a ticket or the price of one, declining to honor the pass. A well known citizen among the passengers, according to report, sought to explain the situation to the conductor but the latter wasn't taking any suggestions from passengers, and made the fact known in no uncertain language. Finally the conductor signed the pass himself and the woman reached her destination. Several passengers, it is said, were most perturbed by the incident, and the attitude of the conductor in presenting the case before the general superintendent.

SUN FEATURES FRIDAY

Quarter Century Ago, Suburban Articles, Departments of Special Interest to Women, Comic Features

The Old Times reviews the Fourth of July celebration of quarter of a century ago.

Suburban articles of interest will be included in the list of special features for tomorrow.

LATE WAR NEWS

RUMORS IN LONDON OF CONTINUED OFFENSIVES BY ENTENTE ALLIES

LONDON, July 1, 11.50 a. m.—While the Austro-German armies continue to push the Russians back over the Galician border into their own territory rumors are rife in London of contemplated offensives by the entente allies. The French are credited with the intention of making a formidable attack on account of the enormous expenditure of artillery ammunition to the north of Arras, where a persistent bombardment has been kept up for the last fortnight; while the Anglo-French forces on the Gallipoli peninsula are said to be on the point of making a serious effort to capture the massive hill of Achi Baba, which dominates all the country south of the Narrows of the Dardanelles.

Important Gains by Allies

The recent gains claimed by the British and French on the southern end of the peninsula are considered important ones because they indicate an approach to the hill on three sides.

Warfare More Open

On the eastern front every change leaves Warsaw more open to the drive which the Germans and Austro-Hungarians evidently are making towards the city.

Along the northern line the Austro-Germans appear to be experiencing the greatest success, for the Russians seem to be making a stubborn fight along the Gnila Lipa while retreating generally towards the Vistula and Bug rivers toward Lublin.

In the west both sides have attacked in the Argonne forest and beyond the Meuse hills without decisive result. The fighting of the past fortnight has been without permanent result except in the Vosges where the French have consolidated substantial gains.

From Vienna the Italians are reported to be showing renewed energy along the Isonzo river, having brought up more men and guns but no decisive action is reported.

The Thistlebank was a four-masted, bark of 2430 gross tons, built at Glasgow in 1891.

ATTEMPT OF GERMAN WARSHIP TO BOMBARD WINDAU, REPULSED

PETROGRAD, via London, July 1, 5.56 a. m.—An attempt by German warships to bombard the port of Windau, Courland and land troops was repulsed by the Russians, according to an official statement issued last night at headquarters of the general staff.

The communication follows: "A squadron of German ships consisting of one patrolling cruiser, four light cruisers and many torpedo boats bombarded Windau. The attempt to make a landing on the coast, but was repulsed. One of the hostile torpedo boats was blown up by a mine. Our torpedo boats engaged the enemy's cruisers. Other Russian torpedo boats, protecting these operations from the north, compelled the enemy to retire."

There has been a lull in the Shavli region on the Niemen and Narew fronts and on the left bank of the Vistula.

"The enemy offensive between the Vleprz and the Bug on the Zamostie-Sokolka front continues."

On the western Bug and on the Gnila Lipa on the 25th and 26th we successfully repelled enemy attacks. "Noticing the enemy crossing the Dniester near Hailov, we took the offensive and drove him back, making hundreds of prisoners."

BRITISH BARK WITH A CARGO OF WHEAT WAS TORPEDOED BY GERMANS

LONDON, July 1, 12 noon.—The British bark Thistlebank, which sailed from Bahia Blanca, Argentina, April 26 with a cargo of wheat for Queenstown, was torpedoed by a German submarine yesterday off Eastnet, Ireland. Some of the crew were landed at Baltimore, 47 miles southwest of Cork.

GERMAN AND AUSTRIAN TROOPS SANDWICHED TOGETHER IN GALICIA

LONDON, July 1, 6.20 a. m.—A Reuters despatch from Petrograd says: "Field Marshal von Mackensen's German army on its northern advance from Galicia, is flanked by Austrian forces under Archduke Joseph Ferdinand and Gen. von Boshu-Ermolli. Everywhere in Galicia German and Austrian troops were sandwiched together, the Austrians within easy reach of German support."

The first objective of the Teutonic advance between the Vistula and the Bug is Inagorod by way of Lublin, Brest and Litovsk. A turning movement also is expected east of Brest and Litovsk by way of Kovel."

Inagorod is at the confluence of the Vistula and the Vleprz and with Nowo Gorgiewsk, Brest and Litovsk it forms an important triangle of the Russian forces in Poland.

FEATURES OF LAST NIGHT'S EUROPEAN WAR NEWS IN BRIEF FORM

German submarine sinks British steamer Armenian; 29 men killed, nearly 30 of them Americans. President Wilson notified of Armenian's sinking and awaits fuller report before deciding on course.

British push Turks out of trenches back half a mile.

Teutons report successes on rivers Bug and Gnila Lipa, and retreat of Russians in Poland on both sides of the Vistula.

British volunteers to make munitions so numerous that no compulsion is likely.

Germans capture French positions near Battelle.

Italians deliver a great attack on

Sanzo river front but fail to gain, says Vienna.

German submarines sink steamers Scottish Monarch and Cambus-Kenneth and a Norwegian bark.

Italy protests to the allies against Montenegro's occupation of Scutari in Albania.

French make gain north of Arras.

United States considers question of taking control of wireless plant at Sayville on charge of violating neutrality.

STRIKE IN ROCHESTER

ELECTRICAL WORKERS EMPLOYED BY TELEPHONE COMPANY QUIT

ROCHESTER, N. Y., July 1.—A strike that may affect all the independent telephone system in western New York, was inaugurated here today when electrical workers employed by the Rochester Home Telephone Co. quit.

FALLING OFF IN MARRIAGE

BOSTON, July 1.—Cupid made a failure of his job in this city last month, according to City Registrar McGlen.

Not only did June of this year fail to live up to its usual record in Boston, but the first half of the year fell off considerably in the number of marriages, as compared with last year.

War and business conditions are attributed as the cause.

While June did not show up as well as expected in the matrimonial line there was quite a number of marriages. The daily record for the month was about 35 couples per day. During the month 1073 applications for marriage licenses were filed at the city registry, as against 1213 during June last year.

During the first six months of this year 4638 marriage applications were filed at the registry, as against 4955 during the corresponding period of last year.

TODAY'S OUTINGS POSTPONED

The heavy rain this morning caused the postponement of all scheduled outings and picnics. The Westminster Presbyterian church had planned to hold an outing at Willow Dale while the Tawtuckville Congregational, Chelmsford Centre Baptist and Highland Congregational cancelled special cars which were chartered for their use today.

PORTLAND WON SCOUT SCOUTIN'

First Game of Maine
Trip Goes to Duffs'—
Rain InterferedKelchener of St. Louis
Americans Has Eye
on Local Club

(Special to The Sun)

PORTLAND, Me., July 1.—In a game played for the most part in showers today, Portland beat Lowell at Riverside Park here yesterday afternoon, 9 to 2, the game being called after six innings. Umpire Bransfield officiating. "Darkness" was the reason.

Paddy Green, on the rubber for Lowell, was effective and Jordan twirling for Portland kept the hits of the visitors down well but runs just would be tallied and that was all there was to it. Lowell's run-getting was begun and finished in short order in the third inning. Ahearn slashed a single and then "Paddy" Green stepped into one and lifted it over the fence in right field for a home run. It was one of the longest hits ever made here and one of a very few ever placed over the fence.

In the first inning, Portland collected a couple of runs with never a hit nor an error behind either. A base on balls, two futile fielders' choices and three stolen bases, telling the story. In the second session, a base on balls, passed ball, stolen base and then a hit by Jordan scored another run. In the third, Farrell had scored and the bases were filled when Fahy pulled a laugh-provoker through the oddity of the play. He took Hayden's grounder well but threw wild to first and before the ball was returned to the diamond, the three base runners and Hayden had scampered across with tallies. There had been two out when the fizzle was made. In the fifth, Johnny Dowell felt so happy over his hit that he stole second, stole third and then scored on Wright's sacrifice fly.

Catcher Ahearn hurt a finger and retired in the fifth in favor of Greenhalge, Lohman going to first base. The score:

PORTLAND									
Clemens, rf	2	1	0	0	0	0	0	0	0

NEWARK TRANSFERRED

NEW YORK, July 1.—The Newark, N. J. International league club yesterday was transferred to Harrisburg, Pa. for the remainder of the season. This decision was reached at a league meeting called to act upon the request of the Newark club that the franchise be temporarily transferred. Announcement was made that the first game at Harrisburg will be played with Jersey City Friday. Officials of the league said that no other changes were contemplated.

BRADY LEADS THE FIELD

MAKES ROUNDS OF 73 AND 71 IN
MASS. OPEN GOLF CHAMPIONSHIP
AT COUNTRY CLUB

BROOKLINE, July 1.—Two brilliant rounds of 73 and 71 were made yesterday by Michael J. Brady of the Wollaston G. C. in the Massachusetts open golf championship at the Country club, Clyde park, Brookline, making in the first half of the 72 holes stroke competition for the state title. Brady led the field at the conclusion of the day's play by two shots. The total of 144 was two strokes better than Walter C. Hagen of Rochester, N. Y., national open champion last year, whose two rounds of 73 gave him 146.

Close on the heels of the two leaders in Gilbert Nichols, eastern open champion, with 149. Jim Barnes, the rangy golfer from the Westminster Valley C. C., finished in fourth place, one shot behind Nichols, while Francis Outmet of the Woodland Golf club, national amateur champion, and Tom McNamara, runner-up in the recent United States open tournament at Baltusrol, tied for fifth place with 151.

Among the other players, professional and two local players, Tommy Corrigan, Dedham Country and Polo club, and George Bowden, Tedesco, tied at 153. Pat Doyle of the Myonia Hunt club had 157 for his two rounds, and Orrin Terry of Belmont Springs, runner-up for Brady last year, had 159.

GAMES TOMORROW

New England League
Lowell at Lewiston.
Lawrence at Manchester.
Lynn at Fitchburg.
Worcester at Portland.

American League
Philadelphia at Boston.
Washington at New York.
Chicago at Detroit.
Cleveland at St. Louis.

National League
Boston at Philadelphia.
New York at Brooklyn.
Pittsburgh at Chicago.
St. Louis at Cincinnati.

Federal League
Chicago at Pittsburgh.

YESTERDAY'S RESULTS

New England League
Lynn, Lawrence, rain.
Fitchburg-Manchester, rain.
Portland 9; Lowell, 2 (6 innings called, darkness).
Worcester, 7; Lewiston, 2.

American League
Boston, 10; Philadelphia, 5 (first game).
Boston, 10; Philadelphia, 7, (second game).
New York, 4; Washington, 1.
Detroit, 7; Cleveland, 2.
Chicago, 5; St. Louis, 6.

National League
Philadelphia, 5; Boston, 5.
Brooklyn, 7; New York, 6 (first game).
Cincinnati, 1; Chicago, 0 (first game).
Chicago, 7; Cincinnati, 0 (second game).
St. Louis, 2; Pittsburgh, 0 (first game).
Pittsburgh, 4; St. Louis, 2 (second game, 10 innings).

Federal League
Chicago, 7; Newark, 6 (12 innings).
Buffalo, 9; St. Louis, 1.
Kansas City, 11; Brooklyn, 2.
Pittsburgh, 6; Baltimore, 1.

PITCHER BOB SHAWKEY SHOULD BE
BENEFITED BY CHANGE OF SCENE

NEW YORK, July 1.—Bob Shawkey, considered by many the pick of Connie Mack's young pitching stable, has been purchased by the Yankees to strengthen the Yank's overworked pitching corps. Mack took hold of Shawkey when Bob was quite a youth and farmed him out to Harrisburg and Baltimore before he gave him a regular job with the Athletics in 1913. In that year Shawkey won seven games and lost five, while in 1914 he did considerably better, winning sixteen and dropping only two. This year Bob has not gone very well, but there is no questioning his baseball ability. Shawkey should prove a valuable acquisition to the New York brigade, and no doubt he will aid materially in keeping the Yankees well up in the race. The transaction was strictly cash, no other player on either team being involved.

ATHLETES AND ATHLETICS

The Manchester business men certainly appreciate the benefits of a ball club in their city even if the fans do not take kindly to the New England league. \$3000 was subscribed last night at the mass meeting and this sum purchased half the stock of the team. If the other league owners with the exception of Portland, perhaps, could get \$6000 for their franchises right now they'd all go out of business with a rush.

Billy McMahon, the local boy who played the hot corner for us before Fahy's arrival, is giving a correct imitation of efficient shortstop tending over in Worcester. Yesterday Billy clipped out four hits, two of them doubles and turned in a perfect fielding average.

The Worcester scribbles appear to be rather tired of the Burket regime in baseball. Although Jesse has always put out a good club over there the sporting writers are "on him" now. Worcester is in three places at that. What do they expect in Worcester—a championship club every season?

The Red Sox picked up a couple of games at the expense of the lowly Athletics and climbed a little nearer those White Sox. Comiskey's club moved down St. Louis again, making a clean sweep of the series. Tommy Daily, former Lowell catcher, relieved Schalk behind the bat.

Ahearn's split finger which he got yesterday may keep him out of the Lowell lineup for several days. "Snubber" Greenhalge will don the mask and protector in case the manager cannot play and Lohman will fill in at first base. Jack Estes, former Atlantic league first sacker, was expected to report at Portland yesterday but did not put in an appearance.

Poor Johnny Evers hurt his ankle again yesterday. It is probable that the Braves' captain got into a uniform too soon for the day before he did not move about with anything like his

usual freedom of action. If Evers is laid up for long Stallings' club might just as well give up all thoughts of another crack at the world series money.

The summer inhabitants of Greenfield are greatly peeved over the retention of the Manchester team. After Tom Keady took them into his confidence and told about the unfavorable conditions existing in the New Hampshire city, Greenfield thought, sure that they had procured a ball club. The town was just a little nearer and a little bigger it would be welcomed with open arms.

Ty Cobb didn't get a hit yesterday in the Detroit-Cleveland game. Just think of it! Also he made a misplay in the outfield and failed to swipe even one base. We expect these sort of days with other stars but it looks as though Ty must have been sick.

The International league is the latest baseball organization to experience discontent among its managers. The Newark club has not been drawing well this season and a shift was made to the franchise. From now on Harrisburg will have opportunity of watching International league baseball.

Victor Linart established a new hour record for motor paced cycling, at the Revere track last night, making 43 1/2 miles in the 60 minutes of pedaling. Leon Didier, the French cyclist, was second but lagged over a mile in the rear at the finish.

SOMERS REFUSED \$15,000
DETROIT, July 1.—It was reported yesterday that Charles A. Comiskey, owner of the Chicago White Sox, had made an offer of \$15,000 to the Cleveland club for Roy Chapman, the shortstop, and that Charley Somers had turned it down.

This week is "Quarter Week" at The Lowell Five Cent Savings Bank.

BURNS IS THERE

Portland Centerfielder
Looks Like One of the
Best of 'Em

We hear a great deal of talk about the sprinting abilities of Porter of Lynn, O'Connell of Lawrence and of Moloney and Becker of Lewiston but there's one outfielder in the circuit that seems to be overlooked with the speed boys or coming in for honorable mention. Joe Burns, Hugo Duffy's center fielder, looks as good to us as any of 'em and then some.

Burns in our estimation is a faster man than any of the outfielders referred to with the possible exception of O'Connell of Lawrence when it comes to pulling down long drives. He has the true outfielder's instinct of judging a line drive the moment it leaves the bat.

He is a big man and can pound the dirt going around those bases. His home run in Lowell Tuesday would have been a triple for the majority of the league's reputed fleet men. Burns looks to be just about the cream of the New England outfielders.

MANCHESTER TO STAY

WILL CONTINUE AS A MEMBER OF
NEW ENGLAND LEAGUE—BUSINESS MEN BUY STOCK

MANCHESTER, N. H., July 1.—Manchester will continue in the New England league. This was determined at a meeting in city hall last night over which Mayor Spaulding presided. The hall was crowded with enthusiasts, and 81 shares of the value of \$25 each were subscribed at the meeting and A. R. Fernald, president of the Manchester Publicity association, guaranteed an amount sufficient to make \$2000.

Messrs. Kiernan, Smith and Keady, owners of the club heretofore, will be members of the board of directors and Mayor Spaulding and three other Manchester men will be added, making a majority of the directors Manchester men.

Enthusiastic addresses were made by Mayor Spaulding, Mr. Jenks, ex-congressman Eugene E. Reed, W. C. Carroll, Arthur W. Childs, Jos. R. Fradd, John F. Smith, Albert Ruemey and Everett Staples.

A committee consisting of Mayor Spaulding, ex-congressman Reed, P. P. Pillsbury, A. W. Ruemey, E. Bourneval, A. E. Jenks, Carroll S. King and Edwin A. Dunbar was appointed to conduct the board of directors and the meeting is taken as a guarantee that Manchester will be more of a factor in the New England league race, than heretofore.

AMATEUR BASEBALL

Hi! Hi! Here we are—the Young Red Sox. You can tell us by our stockings. Everybody knows the Young Red Sox for they are the greatest bunch of their size in the city. We want to challenge any 7 or 8 year old team in the city. We can bat and run bases to beat the best and know a lot of inside dope. If you want to get beat, play us. Here's our lineup: J. Mack, C. E. Lindell, A. Alfano, B. Foster, 2b, G. O'Loughlin, 3b, T. Dunbar, 1b, Gallagher, cf, F. O'Connor, if. Send all challenges through this paper.

The Hildreth A. C. would like a game for Saturday, July 3d, with any 13-14 year old team in the city. The Hildreth A. C. is a fine bunch of ball players. They are about 13 years old, but we ain't as old as that. You can challenge us through this column or through Albert Coan, 125 West street.

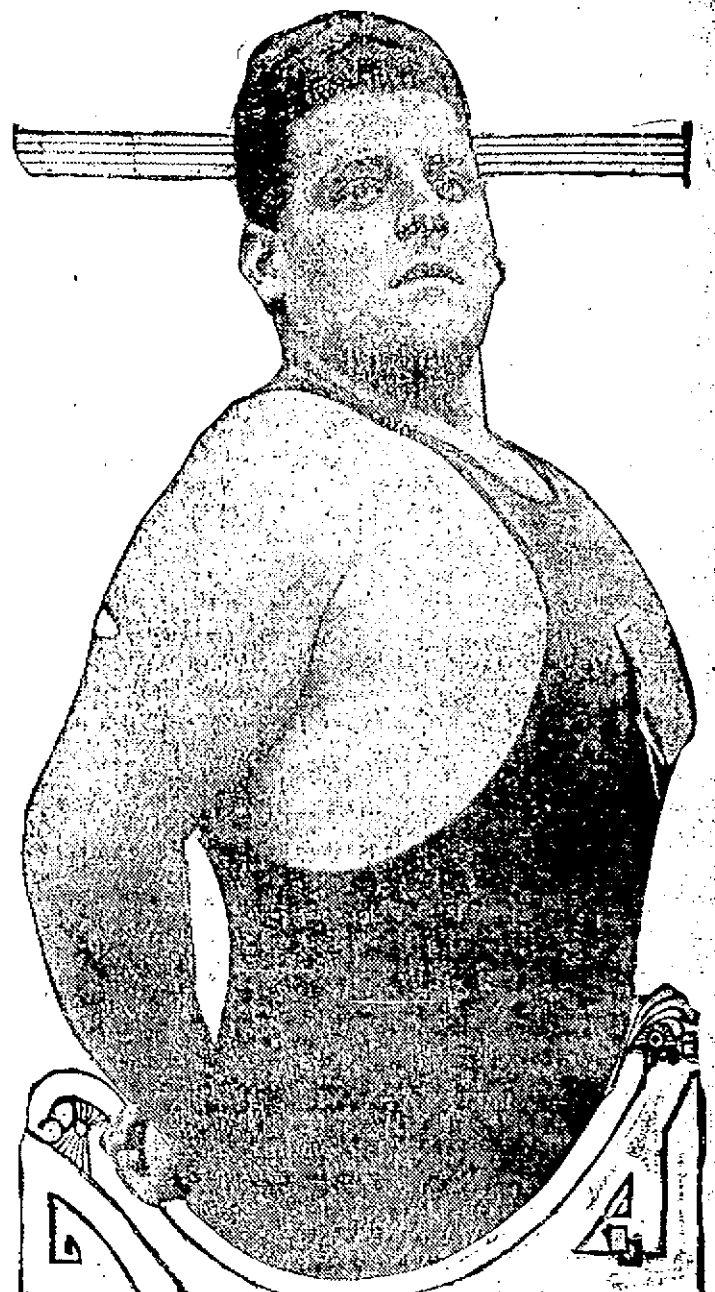

Did you ever hear of the Rovers? If you didn't you can't know much that's going on. The Rovers are one of the finest ball teams there are. They are about 12 years old but one or two fellows are 13. They can play ball as fast as some of the league players. They have won five games and lost none. They are giving the other teams the Ha! Ha!

The Franklin A. C. Seconds is the team that is making them all take to the tall timbers. This team is so good that they have hard work finding anybody to play with. Sometimes we have to play with six or seven players so as to give the other fellows a chance, but we always beat 'em just the same for we are some of the best. We are 10 years. Here's our lineup: Connolly, p. T. Prindle, c. E. Donovan, 1b. W. Boland, ss. J. Prindle, 2b. T. Stapleton, 3b. J. Cassidy, if. J. Mack, cf. E. Prindle, if.

DIAMOND DAZZLES

Since Charlie Press, Clarence Robinson, "Albie" Moulton and Jack Honey have been released by Lynn and gone to Fitchburg there is more than one critic around the circuit singing out that old cry of synthetic baseball. Louis Rieber and Dan Norman are protesting a five baseball city, and that's about all there is to it. These players would not have left Lynn if it was thought that they were needed here—Lynn Telegram.

Disgusted with the general conditions and weak support given the clubs throughout the circuit and satisfied that a change is needed, the New England league magnates are now

ELIONSKY WILL TEST ENDURANCE TO
LIMIT IN SWIM OF NIAGARA RAPIDS

Harry Elionsky, the famous swimmer who has performed some remarkable feats of strength and endurance in the water during the past few years, has declared his intention of swimming the Niagara rapids some time in August. This feat, which caused the death of Captain Matthew Webb some years ago and has been tried since with all manner of safety appliances by a number of aspiring amateur and professional swimmers without success, will put Elionsky's endurance and swimming ability to a severe test. The blonde aquatic marvel, however, is not worrying over the possible outcome of his attempt. On the contrary, he is supremely confident that he will accomplish the feat with comparative ease.

looking with an anxious eye at Springfield and Hartford, two fine baseball cities, which were not considered good enough for the league early in the spring. The members of the Murnane league, who refused to listen to the plea of the fans and scribbles to consolidate their best cities with those of the Nutmeg state, are now entirely converted to the fact that the fans are much wiser than they thought, and are now kicking themselves that they did not join hands with the Eastern Association forces instead of trying to plod along at the same old lifeless pace. Opportunity knocked at their door and they refused it, and now they are praying for its return so they can get a stronger hold on it before it gets away again.—Worcester Post.

Tanny White, the New England league umpire, anticipated, Ban Johnson's latest American league edict by several days, so far as the New England league is concerned. Tanny took train away from Boston, the Lawrence pitcher, at Portland two weeks ago.—Boston Journal.

Sherwood Magee has proved a disappointment to Stallings, who traded Whitford and Ducey for him. It looks as though the Phillies got all the best of the deal.

WILSON GROWS STRONGER

The influence of President Wilson on the country grows stronger as his problems grow in magnitude, and at this time he would, without question, be the choice of the country for chief executive, should his popularity be put to such a test. He has not failed the American public in any important matter, but he has shown real greatness in handling the most delicate international questions. The grave issues of the war have overshadowed every domestic policy, and while the war lasts or while there is any danger of this country getting into trouble with any foreign power, the American people are willing to follow the guidance of the rarely prudent and patriotic man who has shown so many great qualities of statesmanship.

When, recently, William Jennings Bryan let himself out of the cabinet for reasons which only he really knows, some prominent papers referred to the resignation as the political death of President Wilson. Remembering that the support of Bryan was the strongest factor in the famous Baltimore convention, many superficial commentators believed or professed to believe that the withdrawal of that support would endanger the president's political future. They forgot that circumstances had altered the situation very materially since the Baltimore convention and that Wilson had arisen in the popular estimation in the same proportion as Bryan had lost caste. Few believe that the professed admiration of Bryan for his former chief is sincere, but it is the growing conviction of the country that the opposition of Bryan would be a benefit instead of a detriment to President Wilson.

It is not unusual today to find some very prominent republicans coming out in unqualified commendation of President Wilson and pledging him their support. A notable instance is that of E. T. Bedford, capitalist and life-long republican—published in the Brooklyn Eagle, a republican journal. Mr. Bedford, who approves of the president's trust policy and war policy, is quoted as saying in part:

"President Wilson has been weighed in the balance and hasn't been found wanting. Big business, little business and every kind of legitimate and wholesome business have watched him for the past two years and the conclusion of all honest investigation is that the country is commercially, industrially, financially and politically safe in his hands. At first, I will admit, I was a little timid regarding him, but that timidity has given place to enduring confidence. I am convinced that no wholesome or legitimate business has anything to fear from him. This coming from a life-long republican may sound strange in your ears, but the words express my honest convictions."

It is only by comparison with some recent presidents that the real strength of Wilson can be estimated. Ex-President Roosevelt has a large following still in the country, but who, outside of the rabid jingoes, would want to see him president at this juncture? The man on the street persists in declaring that were the strenuous statesman in office now we would be in the world war, and the country does not doubt it. One false step by President Wilson would create a critical situation, and it would be the easiest thing in the world for the chief executive to manufacture an artificial war sentiment. Now, the American people have thought our various war problems over, and there is an unqualified support for the dignified and vigilant peace policy of the administration.

Ex-President Taft would no doubt make an excellent president at this time, but we know his attitude. He has declared himself in absolute support of President Wilson and asked that the American people give their leader a full measure of loyalty. Aside from a very small knot of malcontents, this support of the administration is universal, and it is not confined to the democratic party by any means. Financiers, manufacturers and leaders of big business who professed fear of Wilson at time of peace now make no secret of their gratification that the country has such an ideal president at this time of danger to the nation and its interests. Unless something unforeseen happens, or unless the world situation changes very suddenly, the man is not in sight who can beat President Wilson for re-election in 1916.

THE BRIDGE PLANS

The municipal council, or at least those members of it who voted to build a new bridge contrary to the spirit of the charter, business methods and common-sense has something to think about just at present. Serious doubts have been expressed as to the proposed plans, and from a quarter that commands attention, Engineer Mills of the Locks and Canals corporation has protested strongly to the land and harbor commission, declaring that the proposed arches of the new bridge may so impede the flow of water as to constitute a serious menace. The Locks and Canals corporation does not oppose a new bridge, but does emphatically oppose the style of bridge selected by our officials on the unsupported word of an out-of-town "seller of bridges."

If any body of men in Lowell are fitted to speak with authority on the technical problems of the new bridge, it is the officials of the corporation in question. It is their opinion to study freshets, keep records of water pressure at various times, watch the rise and fall of the river and estimate the volume and force of the currents passing through the arches. Consequently when they allege in a letter to a state commission that the proposed style of arches is dangerous, Lowell cannot laugh at the charges. Neither can the municipal council satisfy the Lowell public by quoting Mr. Denman to the contrary. The proposed bridge will cost altogether too much to reconcile us to any possibility of seeing it fall down the next time a freshet starts on the river.

The engineers of the Locks and Canals state that the thick arches will offer too much obstruction to the river and that therefore the strain from the force of the current may be greater than the bridge can stand. They evidently think that Mr. Denman does not take this into consideration and more plans for a new bridge as though it were to span still water. Prof. Swain frankly and honestly cannot disbelieve that the chief question is to get a bridge that will bear its own weight and whatever weight may be superimposed. In the present case the bridge must also have to withstand floods and freshets, ice gorges and peeling in plain terms to the British water pressure of vast momentum.

The bridge must be strong enough to withstand the shock and it must not be so massive as to obstruct the free passage of the water. This phase of the problem should be fully investigated before a hand is laid to the actual construction. We do not care to take a chance in giving Mr. Denman a proof that his bridges sometimes fall through sometimes fall through sometimes fall through.

prove the folly of the action of the municipal council in this whole matter, it is afforded by this development. There should have been no guesswork or uncertainty but definite plans drawn up by an expert of unquestionable authority, with every technical point worked out in the fullest detail. The four members of the municipal council who have muddled this matter so thoroughly have assumed an enormous responsibility, without justification, and they now stand in the position of backing an out-of-town authority—who can hardly be called disinterested—in opposition to the experts of the leading water power company in the city. Lowell would like to get the individual views of the four members of the council who want a bridge built, backwards, on the letter of Mr. Mills and the serious possibilities it portends.

Will the mayor be as contemptuous on this phase of the matter as he was concerning the possible attitude of the Bay State railroad? Then he declared that he did not care a straw for the opinion of the company, or something to that effect—something catchy to the ears of the voters. He has declared that he will have the bridge inspected, before he accepts it. Probably that should make us feel safe—the Locks and Canals experts to the contrary, only if Mayor Murphy still persists in his original intention, he ought to plan for an expert examination of the arches every spring when the freshet season is on. Eighty thousand dollars would be a lot of money to throw away on wreckage. Safety first applies here very directly, and the wise city official will heed it.

ASQUITH ADVISES THRIFT

The serious economic problems confronting England were very strongly outlined by Premier Asquith in a message held last Tuesday in London. In the interest of national economy, the nation's funds should be saved and become highly efficient to meet this without general hardship. He stated that under normal conditions England can spare only three or four percent of its resources for the war.

Premier Asquith told the English public that the first year of the war, he will cost England at least one billion pounds of dollars, and that the nation will have to save and become highly efficient to meet this without general hardship. He stated that under normal conditions England can spare only three or four percent of its resources for the war.

The daily expenditure now is some-thing like \$15,000,000, and to meet it the general thrift is strictly necessary. The premier put the case strongly and dis-combelled to educate its people on the rectly in the following words: "Waste on the part of either individuals or classes, which always is foolish and short-sighted, is in these times nothing short of a national danger."

Taking these plain statements and those of Lloyd George as to the need for increased munitions of war in connection with the prediction that the war may last two or three years, it may be seen that England's position is by no means enviable. Such things justify one in thinking that in this war, neither side can win, for the drain will be so enormous that nothing but time can repair the injury. So far as one may judge over here, England has been inclined to look upon victory as assured, and the masses have not regarded the war in its true light. The gravity of the situation is now only too apparent in the speeches that the government makes to the English people.

A CONTRAST

A report of the 43rd general assembly of Illinois which has just come to hand affords an opportunity for a very significant comparison with the report of the Massachusetts legislature which closed a few weeks ago. According to this record 316 bills have been submitted to the governor of Illinois; 1584 bills were presented in all—994 in the house and 590 in the senate. How does this compare with Massachusetts? Our legislature had enacted 301 general acts and 384 special acts in that time, with 147 resolves, making a total of 832, as compared with the 316 of Illinois. This comparison would lose its especial force were it not remembered that the Illinois body meets only every two years, while we have annual sessions and long sessions to boot. If all of our laws are necessary, Illinois, which has almost three million people more, must be in sad need of legislation, but apparently such is not the case, since Illinois is a law-abiding and thriving state, full of wealth and enterprise.

Massachusetts has too many laws, and the grist piles up year after year. A combination of causes has created a situation in which quantity and not quality seems to be the aim of our legislators, and the most trivial things are made the subject of legislative in-

Tired, Aching Muscles Relieved

Hard work, over-exertion, mean stiff, sore muscles. Sloan's Liniment, lightly applied, a little quiet, and your soreness disappears like magic. "Nothing ever helped like your Sloan's Liniment. I can never thank you enough," writes one grateful patient. Stops suffering, aches and pains. An excellent counter-irritant, better and cleaner than mustard. All Druggists. 25c. Get a bottle today. Penetrates without rubbing.

vestigation and activity. Instead of trying to teach the immigrant the general thrift is strictly necessary. The premier put the case strongly and dis-combelled to educate its people on the rectly in the following words: "Waste on the part of either individuals or classes, which always is foolish and short-sighted, is in these times nothing short of a national danger."

O'DONOVAN ROSSA
The passing of the fiery-souled O'Donovan Rossa, whose name was once a power to be reckoned with in Ireland, England and America, will wake a thrill of sad recollection in Irish hearts in all parts of the globe. The dead patriot was most intimately linked with the Irish cause. Before the days of latter parliamentary agitation, the Fenian movement and the various ideals which kindled around it did a great deal to keep the spark of nationality alive in Ireland, and no individual had a holdier part than the fine old man who, for the first time in his long life, is really at rest. O'Donovan Rossa was a rebel of the rebels, but he was sincere in his convictions and lofty in his motives. He honestly believed that only by physical force could Ireland be made what he wished to see it, and he held to his views in days of a more gentle creed.

SEEN AND HEARD

Owen Monahan says lots of garden sassa passes over the back fence.

An Illinois editor has discovered a way to get rid of mosquitoes. All you have to do is to rub alum on your face and hands. When Mr. Mosquito bites you, the alum puckers up his little whippersnapper so he can't sting. Then he becomes alarmed and sits down in a damp place and tries to dig the pucker loose. This takes him so long that he catches cold and dies of pneumonia.

NOT TAKING ANY CHANCES

Clancy and Brophy had been elected delegates to the national convention of an organization of which both were members. The convention was held in New York, and the first night they were there they decided to eat in the swell restaurant of the hotel. The waiter and waiters, amazed that a little, but they managed to get a square meal. When they had finished, the waiter said: "Should I bring you a couple of demitasses?" "I should say not," replied Clancy. "Somebody might see them sitting here with us and tell our wives."

HURRAH FOR LOWELL

The editor of this column has received a letter mailed in St. John, N. B., relating a little incident on the boat to St. John. Our correspondent is a Lowell man and this is what he wrote: "I met a couple

and when the hope of attaining success by force was practically crushed. Many of his former associates lived long enough to see that other times called for other methods, but Rossa was the implacable foe of what was to him, tyranny and injustice, and he died with the same sentiments he held when he suffered so grievously in English prisons, and when his fiery appeals waked a sense of shame in the heart of England. Many who do not now believe as Rossa always believed will mourn him as a noble patriot and a man of exalted character who, by his life and teachings left a high ideal to his countrymen. Rossa was a consistent rebel who, however, never did anything to hinder any movement that would benefit Ireland."

AN ANXIOUS TIME

No move of the war has been watched more eagerly throughout the world than the present drive of the Austro-Germans against the Russians, for on its outcome a great deal depends. Up to the present unprecedented success has graced German defensive tactics, but now that the Russians have been driven into their own territory, the outcome is in doubt. Should Russia be able to make a determined stand, German success will mean little in a broad sense, as a large German army must still remain in the east. Should the German forces succeed in reaching Warsaw as they apparently desire, Russia will be of little use to the allies for many months to come.

motoring on a recent afternoon with a young man when, without a word of warning, he put his arms around her neck and kissed her. "She was terribly enraged. She had the young man arrested. And she described angrily in court how he had gazed at her in silence, and then had seized and kissed her on the lips. "The young man, making no defense, the jury retired. A verdict of guilty was confidently expected. But, on the jury's return, the foreman asked permission to put two questions to the plaintiff. "Were you wearing, Miss—so ran his first question—were you wearing, when this young man, that black velvet turned cockney over your left eye?" "Yes," she answered, smiling. "And you were wearing," the foreman pursued, "that sable mantle with the Elizabethan ruff?" "Yes," she said again. "Then," said the foreman, firmly, "I have to announce that this jury acquits this defendant on the ground of emotional insanity."

"THE LAND OF 'PRETTY SOON'"
I know of a land where the streets are paved
With the things we meant to achieve.
It is walled with the money we meant to have saved
And the pleasures for which we grieve.
The kind words unspoken, the promises broken.
And many a coveted boon
Are stored away there in that land
The land of "Pretty Soon."

There are uncut jewels, of possible fame,
Lying about in the dust.
Are many a noble and lofty aim
Covered with mold and rust.
And oh, this place, while it seems so
Is farther away than the moon!
Though our purpose is fair, we never
Get there—
The land of "Pretty Soon."

It is farther at noon than it is at dawn,
Farther at night than at noon;
Oh! let us beware of that land down there—
The land of "Pretty Soon."

—The King's Own.

Luke McLuke says:
The reason why a woman never succeeds when she marries a man to reform him is because she forgets to take a course of lessons in the art of snake charming.

This is a queer world. In one end

Your Opportunity to Visit California

No doubt you would like to visit California this year, during the Expositions at San Diego and San Francisco. But how to go, and what will it cost? I want to tell you all about our "Personally Conducted" Parties, and how you can join one, travel comfortably in through cars at much less cost than the usual way, and at the same time see the most famous and interesting mountain scenery in the world. Denver—the Colorado Rocky Mountains—Salt Lake City and the Sierra Nevada. That's the Route, and our special all the way conductor is on hand to tell you about it and look after the details.

TEMPORARY MADNESS

The fashions are undeniably charming, and an episode in their honor was related the other day by Lieut. Barnes at Annapolis.

"A very pretty girl," he said, "was

or town a woman who has denied herself enough to eat so that the children might be fed, for Sunday will pick up a piece of newspaper and see a big headline over the news that a woman in the other end of the town has just paid \$1000 for a kitchen hood.

After they have been married for a few years a woman begins to notice that her husband doesn't look at her as eagerly as he looks at other women.

So many men are wearing those passionate, wide-collared, open-at-the-neck white-throat shirts this summer that a common, ordinary nut doesn't know what to think of things in general.

The reason why a girl hates to hear you say that she is pretty is because you have to beat a small boy numerically to force him to eat a plate of ice cream.

After a man has been married for a while he begins to wonder why they were ever called the weaker sex.

When a man hales another man he goes around and tells everybody but the man he hates.

The woman who spends all of her time trying to shine in society always gets mad when her nose gets the hair.

The fellow who remains in the hay and pounds his ear until he finally spends the rest of the day wishing that he can't get up in the world.

A man doesn't mind paying his beer bill, but it is different when his beer bill comes in.

Start to praise a man and your audience will yawn. Start knocking a man and your audience will sit up and pay attention.

When a man can't make a living any other way he can always become a reformer and find plenty of grouches to finance a Society for the Prevention of Something.

EDITORIAL COMMENT

AMERICA FOR PEACE
At Springfield somebody asked the president to keep them out of the war, and he promised to do it if he could. The sentiment of the mass of humans in this country is for peace if it can be kept with any degree of honor, and to stand for a little better now and then rather than to plunge into the big brother that might mean loss of lives and limbs and health.—Brooklyn Enterprise.

SOME SARCASM!
The New York Times has discovered a pleasant traitor who teaches dogfish to announce the approach of submarines by arising to the surface and barking. This should appeal to the visionary mind of Secretary Daniels. Their education could doubtless be extended to trailing our broken down submarines.—Portland Express.

A KIND WORD
As for the former secretary in retirement, what are we to do save to wish him well? Mr. Bryan's true character has been distorted by his seven foes. One can hardly blame him for his bitter outbreak against the metropolitan press which has left no stone unturned in defaming him. It was a mist in the state department and would be, we believe, in any executive office, but who knows if any better than he probably does? He has plenty of opportunities for usefulness left.—Woonsocket Call.

HOLLAND
Belgium has been a frightful object lesson to Holland. One person in every seven in Holland at the present time is a Belgian refugee. These people have brought with them into almost every home in Holland stories of German rule and German oppression. Holland can hardly avoid contracting strong feelings on the subject, especially when the question is put, "What if it should be of military advantage to Germany to do to Holland what has been done to Belgium?" German strategy believes that a strong offensive is the best defensive. Holland may take the same idea for itself and put it to application.—Lynn News.

MAKE IT FANE
For two years New York has had no Fourth of July festivities. Although each year some injuries, as against 22 deaths so recently as 1904. The same Fourth idea has thus proved practically. Keep up the good work, there, here and everywhere.—Boston Herald.

The Last Drop as Good as the First

SOCONY Motor Gasoline—"Standard Gasoline" as veteran motorists know it

—is a straight-distilled, homogeneous product, every drop the same as every other drop. It makes your engine quick-starting always—whether your tank is full or nearly empty. It is the best gasoline that can be made. It is the cheapest to buy, because there are more miles in a gallon. SOCONY Motor Gasoline and POLARINE, the cold-proof, carbon-proof oil for all motors, are on sale at garages and supply stations displaying the red, white and blue SOCONY Sign.

Look for the sign—It is the sign of quality.

14 MORE ARRESTS

Men Held in Connection With Election Frauds in Rhode Island

PROVIDENCE, R. I., July 1.—Fourteen more arrests were made today in the election fraud case, all of the defendants coming from the town of Coventry. They included Ellery Hudson, state factory inspector and a member of the republican state central committee; State Senator Irving Hudson, Deputy Sheriff Lowell Whittam and James Rathbun, brother of one of the superior court judges of the state. The others were Samuel T. Gradwell, first fire warden Samuel Franklin, Emmanuel Carpenter, Jesse Carr, George Kresling, John Colvin, Albert Henry Mathewson, George Warner, Charles Keach and Earl Dodge. Several of the defendants are members of the republican town committee.

As in the case of the 17 North Providence officials and citizens who have been arrested in connection with the federal indictments returned Monday, the Coventry defendants who were arrested today are charged with having conspired to defraud the United States by corrupt practices at the election last November when a member of congress was elected.

It is alleged in the indictment that the defendants distributed money to voters in the town on election day, each in payment for having voted as directed by the defendants and others under their control. Checks good for a bottle of beer were also passed out to the voters, according to the allegations.

State Senator Irving Hudson is accused of having given to another man on election day \$150 to be used for the payment of voters. State Factory Inspector Hudson is charged in the indictment with having met several other defendants prior to election day and arranging the spending of money to bribe and corrupt the voters of Coventry on election day.

All of the defendants pleaded not guilty when arraigned in the United States district court here and were held for trial in jail ranging from \$2000 to \$5000.

ZIONIST CONVENTIONS

CLOSED WITH ANNOUNCEMENT THAT NATIONAL CONGRESS WILL BE HELD AT END OF WAR

BOSTON, July 1.—The Zionist conventions, which have been in session here for a week, were brought to a close today with the announcement that a national congress of representatives of all Jews in the United States would be held as soon as the European war was over.

The purpose of this congress, which was the main topic under consideration at the conventions, is to take action to obtain for the Jewish race the same freedom and civil status in all countries as is accorded to other races and to obtain national individuality by obtaining Palestine from the Turkish government for colonization purposes.

DECLINE IN BIRTHRATE
PARIS, July 1, 5.30 a. m.—The decline in the birthrate of France has been particularly marked since the war began. The rate in 1914 averaged a thousand births daily but at the beginning of 1915 the figures dropped to 850 and there had been a rapid decline since then. In the week of June 6 to June 12, which was the last recorded, there were only 355 births in the entire country.

A tax on bachelors and the prolonging of their military service while decreasing that of the fathers of families and a diminution in the taxes on the heads of families are among the measures being urged to help solve the question.

STATE WIDE PROHIBITION
MONTGOMERY, Ala., July 1.—State wide prohibition was in effect today. Every saloon in the state was closed last night. The transition was quiet and orderly.

ARCHBISHOP QUIGLEY BETTER
ROCHESTER, N. Y., July 1.—Archbishop Quigley of Chicago, stricken with paralysis at the home of his brother, Chief of Police Quigley, spent a fairly comfortable night, with intervals of consciousness, his physicians announced today. Two operations have been performed to relieve pressure on the brain.

ALLEGES WIFE FOUND FAULT
EUGENE, Ore., July 1.—Alleging that his wife found fault with everything he did, that she was extremely jealous and criticized his every act, Prof. C. E. Hodge, a member of the faculty of the University of Oregon and formerly professor of biology in Clark university, Worcester, Mass., today instituted proceedings against Mrs. (Thelma) Hodge, who now in Worcester, D. Hodge came to Eugene in 1913.

The couple were married in 1888. There are two grown children.

CITY OF LOWELL
No. 123
Notice is hereby given under Chapter 100 of the Revised Laws, that Edward F. Brady, Nellie F. Brady, E. F. Brady and J. F. Brady have applied for a license to sell intoxicating liquors, of the first class as (Common Victuallers) at No. 51 Fletcher st., 512-1/2 Warren st., and bulkhead on Warren st. to 40-51 Fletcher, 512-513 Warren st., and bulkhead on Warren st., in two rooms on first floor; liquor to be kept but not sold, in one room on second floor and in cellar.

By order of the License Commission, JOHN J. McLANEY, Chairman.

SALE OF PROPERTY FOR NON-PAYMENT OF TAXES

Twenty-five Parcels of Land Sold for Taxes Yesterday—Smallest Sale in City's History

The sale of property for the non-payment of taxes was begun in the city treasurer's office at city hall yesterday and will be completed on Friday morning at 10 o'clock. It is the earliest tax sale in the city's history and according to the treasurer and tax collector, the smallest, as taxes on all but 43 of the 300 parcels advertised were paid before the sale was begun. The sale was called early this year because the city has to meet obligations this month amounting to \$450,000. Of the forty-eight parcels on which the taxes were unpaid up to the time that the sale was called, twenty-five were sold yesterday and the remaining twenty-three will be sold on Friday morning, beginning at 10 o'clock. It is believed that the taxes on most of the remaining lots or parcels will be paid before the time set for the sale on Friday.

The following is a list of the parcels sold, the names of the parties to whom they were assessed and the names of the purchasers, together with the amounts paid:

Ward 3, precinct 3—5355 square feet of land situated at 516 Middlesex street assessed to Joseph Coram, sold to Cilimena H. Drake for \$31.75.

Ward 4, precinct 3—1799 square feet of land with buildings situated at 50 Lyons street, assessed to Michael and Theresa J. McKenna and sold to George H. Matthews for \$22.66.

Ward 4, precinct 1—1732 square feet of land, with a barn, on the rear of the east side of Davis street, assessed to Fitz Henry Smith, Jr., trustee and sold to Harlow H. Rogers for \$16.25.

Ward 6, precinct 2—4090 square feet of land with buildings thereon at 110 Lakeview avenue, assessed to Walter of James McManus and sold to Walter S. Miller for \$32.15.

Ward 7, precinct 1—5935 square feet of land with buildings thereon, at 122-124 South street, 78 Summer street, 115-120 South street and 86-88 Summer street, assessed to John E. Campbell and sold to Katherine T. Campbell for \$25.72.

Ward 7, precinct 1—24,000 square feet of land, lot 101, north side of Park street, assessed to Clarence G. Coburn and sold to Henry J. O'Dowd for \$15.15.

Ward 7, precinct 3—9300 square feet of land, being lots 10 and 11 on the east side of Dunfee street, assessed to Michael Stanton and sold to Cilimena H. Drake for \$17.31.

Ward 8, precinct 2—41,250 square feet, being lots 763 to 767 inclusive, and part of lot 762 on Manufacturers and Waterloo streets, assessed to Philip P. Connors and sold to Patrick A. Ryan for \$57.77.

Ward 8, precinct 3—4050 square feet of land at Princeton and Laurel streets, assessed to Thomas M. Kennedy and sold to Cilimena H. Drake for \$21.71.

Ward 8, precinct 1—7650 square feet of land on the east side of Walton street, assessed to Matvina O'Connor and sold to Frank A. P. Coburn for \$77.11.

Ward 8, precinct 1—3470 square feet of land with buildings at 45 Burr st., assessed to Weldon L. Work and sold to William H. McKean for \$34.64.

Ward 8, precinct 1—1757 square feet of land with buildings at 233 Plain street, assessed to Erasmus A. and Charlotte A. Bartlett and sold to Cilimena H. Drake for \$31.21.

Ward 8, precinct 2—2600 square feet of land with buildings at 232 West Manchester street, assessed to Erasmus and Charlotte A. Bartlett and sold to Cilimena H. Drake for \$21.92.

Ward 8, precinct 2—12,500 square feet of land, being lots 193 and 197 inclusive on the west side of Bolton street, assessed to Zephania Perusse and sold to Damase H. Laporte for \$27.35.

Ward 9, precinct 2—Seven acres of land on the east side of Woburn street, assessed to William L. Gifford and Albert E. Leon and sold to Eustache Christian for \$100.45.

Ward 9, precinct 2—5000 square feet of land, being lots 37 and 38 on the north side of Acton street, assessed to William H. West and sold to James T. Farnan for \$56.44.

Ward 9, precinct 2—5000 square feet of land, being lots 53 and 94 on north side of Acton street, assessed to William H. West and sold to James T. Farnan for \$56.44.

Ward 9, precinct 2—Thirteen acres of land on the east side of Woburn street, assessed to William L. Gifford and Albert E. Leon and sold to Eustache Christian for \$100.45.

Ward 9, precinct 2—5000 square feet of land, being lots 37 and 38 on the north side of Acton street, assessed to William H. West and sold to James T. Farnan for \$56.44.

Ward 9, precinct 2—5000 square feet of land, being lots 53 and 94 on north side of Acton street, assessed to William H. West and sold to James T. Farnan for \$56.44.

SAYS 11 AMERICANS LOST

AVONMOUTH, England, July 1, 12.35 p. m.—There were 11 Americans among the 19 members of the crew who lost their lives in the sinking of the Leyland line freight steamer *Armenian* by the German submarine U-38 off Treenhead, Cornwall, on Monday. Some members of the crew were killed outright when the German torpedo struck the ship.

Carried 1422 Mules

When sunk by the German submarine, the *Armenian* was carrying a cargo of 1422 mules from Newport News to Avonmouth, the animals to be used by the French armies in Belgium and France. The vessel had a crew of 72 men and carried 96 men as multiple-tenders.

The submarine was first sighted by the crew at the wheel and though the ship was pushed to the limit, the mosquito craft rapidly overhauled her and commenced shelling. The *Armenian* efforts to keep her stern to the submarine were futile.

Ordered to Surrender

The faster vessel circled the freighter and the German commander, speaking through a megaphone ordered the *Armenian* commander to surrender or he would sink the ship.

The skipper of the Leyland liner struggled hard to evade the submarine but the latter dropped a shell through a skylight into the steamer's engine room, putting the engines out of action. The *Armenian* then surrendered.

Lifboats Lowered

Lifboats were lowered and the crew and some 70 mule tenders, nearly all Americans, scrambled into them.

As one of the boats was being lowered a shell from the submarine cut the falls of the boat. The occupants were spilled into the water and, presumably, were drowned.

Five boats loaded with survivors got away. The submarine then fired two torpedoes into the *Armenian*, and the vessel sank within 30 minutes.

The survivors rowed around in the boats till Tuesday morning, when a steam trawler picked them up and landed them at Avonmouth.

Survivors of the sinking of the *Armenian* arriving here say that the German submarine ran close to the drowning men who had been thrown into the water by a capsizing boat, but made no attempt to rescue any of them.

AWAIT FURTHER DETAILS

WASHINGTON, July 1.—Officials of the Washington government expect to receive today the first details concerning the torpedoing of the mule-laden British freight steamer *Armenian* which was sunk off the coast of Cornwall last Monday by the German submarine U-38 with the loss of nearly a score of Americans, most of them multiple-tenders.

Such advices as have been received did not indicate how many Americans had been lost or the circumstances under which the vessel had been sunk. Until detailed information on the latter point is available, Secretary Lansing who returned today from Avonmouth, his staff and others after the sinking of the ship, are expected to indicate the course of the state department.

President Wilson, who is at Cornish, N. H., has been advised of the situation.

May Aid Further Complications

In many quarters the sinking of the vessel was regarded as likely to add further complications to the correspondence pending between Germany and the United States over the question of submarine warfare. Officials attached most importance to the action of the *Armenian* at the time she was encountered by the German submarine.

If the vessel, attempting to escape, failed to need a warning shot from the submarine, not only the vessel but the crew would be subject to the risks of a subsequent attack.

Report 'Second Shot'

The position of the United States has been that citizens engaged in the carrying of contraband who are on board ships that resist capture or attempt to run a blockade are not entitled to the protection of the American government. One cablegram to the department spoke of a second shot fired at the wireless house of the *Armenian*, which gave rise to the impression that the first shot may have been fired in warning. On the other hand, if the information which is expected to be received through American consular efforts who talk with the survivors, proves that the *Armenian* made no effort to resist capture and was torpedoed without warning and without removing the members of the crew to a place of safety, officials thought the case would be almost parallel with that of the *Lusitania*.

The United States has contended for the principle that an unarmed and unresisting ship must not be destroyed until passengers and crew have been removed to a place of safety, as provided in the Declaration of London and the general rules of international law.

The Vessel's Status

The question of what effect chartering of the *Armenian* either directly or indirectly, by the British government would have on the vessel's status caused much speculation today. There is no official statement from the state department, no explicit rules concerning the treatment of chartered vessels in time of war, but from various cases in the past the general practice has been to regard vessels as part of the military or naval forces of a belligerent only when manned by commissioned or naval officers and when the vessel is on the naval list of a belligerent.

Peaceful Merchantman

Collectors of American ports have had orders to prevent the departure of foreign military officers on board ships transporting horses or mules from the United States and similarly clearance has been refused to all British vessels which were armed. Officials were inclined to believe that the chartering of the vessel by the British government would not affect materially the merits of the case because the character of the vessel was that of a peaceful merchantman when it left the shores of the United States and the crew, therefore, was entitled to be removed to a place of safety before the ship was destroyed.

First Since Lusitania

The case of the *Armenian* constitutes the first since the sinking of the *Lusitania* in which American lives have been lost. The expectation here has been that Germany's reply to the last American note would make some concessions that would insure the safety of American citizens on the high seas and especially upon passenger vessels.

Comparatively little attention has been given to the case of Americans on board belligerent ships which primarily carried freight and contraband.

The new aspects developed by the sinking of the *Armenian* have been the subject of widespread discussion since it was pointed out in various quarters that the incident was most likely to

draw forth some definite expression on the attitude which the United States will take concerning the association of American citizens with the carriage of contraband on ships chiefly devoted to such trade.

MURDER ON ELM STREET

Continued

out under the bed in which he had slept, John Demos, a mill hand, between 45 and 50 years of age, was found murdered in a tenement occupied by the victim and four other men at 2 Elm place last night. The murder was committed with a knife or some sharp instrument with which the man's body was hacked.

John Comatos, a companion of the dead man, is being held in custody by the police as a suspect, the police claiming that traces of blood have been found upon his clothing.

The gruesome discovery of the body was made by Arthur George, a close friend of the dead man and an occupant of the same tenement who returned home about 9.30 o'clock after visiting friends on Fayette street.

Comatos Held

An all night investigation by the police brought out what is believed to be significant developments, and Comatos, who also resided in the tenement with the dead man, is being held on suspicion. Medical Examiner Meigs and City Physician Tighe, upon examining the hands of this man, found small particles of blood under the cuticle of the finger nails, and bloody streaks were noted under each nail when the nails were expelled.

Comatos stated that his nose had bled yesterday. It was further brought out at the examination of the man that Demos, while at the Lowell General hospital to undergo an operation, wore a belt about his body containing about \$500. This belt could not be found last night.

Weapons Missing

Although the police subjected the tenement in which the men resided to a thorough search, no fragments of weapons were found, and it was noted with which about 15 stab wounds had been inflicted was missing. A knife was found in the coat pocket of the dead man and two others were found in a trunk in the room, but none of these contained the slightest trace of blood. A loaded revolver was taken from the trunk. The police, when notified, immediately sent a squad of officers to the scene and an investigation was begun.

Cuts on Body

The man's body was literally covered with long deep incisions, undoubtedly inflicted with a very sharp knife or a stiletto. About 16 cuts of various sizes were distributed over the upper part of the body, the back, chest, face and chin being deeply scarred. One deep incision directly over the man's heart was probably the thrust that caused his death.

The room in which the body was found showed no signs of a struggle with the exception of the bed, the clothes of which were in disorder. Subsequent inquiries among other tenants of the block failed to bring out any evidence of a struggle, as nobody had heard any unusual noise coming from the tenement.

Scene of Murder

The room in which the murder was most likely committed, was a small bedroom occupied by the dead man. The sleeping apartment was of a size usually found in large tenement blocks with a single window. The walls were covered with pictures and trophies of all descriptions, but everything about the room appeared to be in good order with the exception of the bed clothes.

The man was found with his head drawn up against the wall of the room with his lower limbs stretched out under the bed. His arms were thrown outward, the shirt sleeves being open and rolled up.

Discoverer Tells Story

According to the story of Arthur George, who discovered the body, Demos had come home from work about 6 o'clock last night as usual. He had been employed in the spinning department of the Boot mills for about twenty years. George and the murdered man were roommates for some time until George Capopoulos and John Comatos, who were visiting in the Greek district, got home. The latter two and purchased provisions while away, and they were handed to Demos, who prepared the supper. During the supper, George said, the men talked and joked together. He returned to the house about 9.30 and upon entering the tenement he found all the doors open and the lights out. After striking a light he found the body of Demos lying in the bedroom.

Instead of at once notifying the police, George in his excitement first went back to the home of his friend, Pappas, in Fayette street, and told him of his discovery. Pappas, who speaks English fluently, accompanied him to the police station and notified Captain Atkinson, who immediately despatched Lieut. Duncan, Sgt. Ryan, Inspector Walsh and Chief Officer Noyes to the scene. Supt. Welch, Lieut. Martin Maher, Inspector David Petrie and Officer Quinlan arrived at the house shortly after.

Comatos Missing

When the police arrived, Comatos and Capopoulos, who were last seen talking to the victim, were missing, but they showed up shortly after 11 o'clock. When acquainted with the news of the murder, both manifested surprise, and seemed willing enough to answer all the questions presented them by the police. George, Comatos and Capopoulos in turn were taken into a small bedroom and questioned by the police, but their statements did not disclose anything of importance. Later they were taken to police headquarters where they were put through a more rigid examination.

Victim Married

From questions put by the police it was learned that Demos came to this city about seven years ago, and for the past two years he has worked at the Boot mills. He was between 48 and 50 years of age, and had a wife living in Greece. American officials reported that Demos had been in the Lowell General hospital for an operation which he had recently undergone at that institution. According to a statement made by one of his roommates, the man intended to return to his native country as soon as he had completely recovered from the effects of the operation.

Always Got Along Together

In answer to a question by one of the inspectors, George said that the men always got along happily together and there was never any quarreling. The living apartments of the men were

INDUSTRIAL AND STORE NEWS

In Iowa the great bulk of wage earners average between \$12 and \$15 a week.

Sick benefits to the amount of \$1,355,000 were paid by American labor unions last year.

The Trades & Labor council will hold an important meeting in the union quarters in Middle street tonight.

According to official reports there are fewer guides among miners than any other class of workmen.

There are 250 teachers and students of the Aberdeen university, Scotland, on service for their king and country.

The local plant of the Bigelow-Hartford Carpet Co. will shut down July 3 for two weeks. This is the annual stocktaking period.

Tobacco workers in Germany are receiving \$150 a week for unemployment and 50 cents for support of families of those drafted for war.

Today's storm caused a postponement of the complimentary excursion to Nantasket beach tendered the lady

very tidy, considering the fact that there is no woman in the house.

Comatos Changed Shirt

Before going out last evening, Comatos wore a clean outer shirt, but did not change the undershirt on which the blood streaks were found. When questioned at the house before being taken to the police station, he showed signs of excitement from his fellow roommates, and told a straightforward story. Capopoulos was very nervous and talked in a high pitched voice in answer to the questions of the police.

George was visibly affected by his friend's death, but did everything he could to help the police. Pappas who went to the station with George to notify the police headquarters later in the evening acting in the role of interpreter when needed.

News of Murder

The news of the murder spread rapidly, and in a short time after the discovery of the body of Demos, the large crowd leading into the tenement was packed with people. Elm street was also crowded with persons waiting for news of the crime, and the newsboys down street announced the murder, with the result that a good many papers were sold.

Nicholas Stathes, who resided with the murdered man up until about five months ago, was interviewed by a Sun

representative this morning. Stathes, who now resides in a tenement below the apartments occupied by the five men, said he advised the murdered man many times against carrying large sums of money on his person. Demos had a number of friends in this city, said Stathes, and whenever they advised him to deposit his money in a bank he seemed to get angry and would walk away. Last night about 9.30 Demos dropped in to Stathes but did not stay long, excusing himself by saying he had to hurry and prepare some eatables for today's dinner. He did not see him after that time.

TEN MORE MINES CLOSED

JOPLIN, Mo., July 1.—Ten more lead and zinc mines among the heaviest producers in the Joplin district were closed today as a result of the miners' strike which began last Monday.

More than 40 mines in Webb City and Joplin are now shut down.

SUBMARINE H-3 FLOATED

SAN FRANCISCO, July 1.—United States submarine H-3 which was floated into yesterday after being wedged between the rocks near Point Sur light house since Tuesday night, arrived here today. It was said the H-3 would be drydocked to determine if any damage was done to her hull.

SCENE FROM "HER OWN WAY"
Featuring Florence Reed, at the B. F. Keith Theatre Today, Friday and Saturday

AMUSEMENT NOTES

B. F. KEITH'S THEATRE

The plays of the late Clyde Fitch were invariably set in an atmosphere of society of the higher type. "Her Own Way" deals exclusively with people of prominence, and as shown in the Metro production of the piece at the B. F. Keith theatre, the latter half of this week, beginning today, it will prove to be quite as powerful as any produced at this theatre. It set an example in good form that was followed by every prominent producing manager of the dramatic stage. The important details connected with a fashionable wedding, a children's party, and a home reception are examples in their way of what is good form and they are brought out to the screen in minute detail. A woman is informed by a schemer that her sweetheart has lost his life. Her family is on the verge of financial collapse, and to avoid this threatened reduction to poverty, she agreed to marry the wealthy schemer. Just as the ceremony was to take place her sweetheart returned and forbade the marriage. It is an excellent film production, and the Metro company, tomorrow night, in honor of the 42nd anniversary of the battle of Gettysburg, a University of the most celebrated character actors on the present day stage and so wonderful in his personality and so marked

MERRIMACK SQUARE THEATRE

The famous Irish-American comedy, "Chimmie Fadden," featuring Victor Moore in the leading role, is one of two remarkable features booked by Manager White for the program at the Merrimack Square theatre today, Friday and Saturday. "Chimmie Fadden" is a Paramount picture, produced in the excellent style, replete with intensely interesting situations and human interest, and with settings that place the final touch of perfection and make it a masterpiece of photo-dramatics. Victor Moore is one of the most celebrated character actors on the present day stage and so wonderful in his personality and so marked

SLEEPYTIME TALES

BY VIRGINIA VALE

FOR THE LITTLE READERS OF THE SUN

SPOT AND THE CAMERA

Once upon a time there was a dog by the name of Spot and he belonged to a boy named Frank. Spot and Frank had a great many nice times together for Frank was very fond of Spot. Frank was given a camera for his birthday, and when he received it he shouted: "Hurrah, hurrah, now I can take Spot's picture and send it to Uncle Frank." His uncle had given him the dog when it was a little puppy and Frank wanted his uncle to see how Spot had grown and what good care he had had. Frank got his camera and took Spot out into the yard, fixed him in a good pose and then started away to take the picture. He turned around, and there was Spot right behind him, wagging his tail. Again he posed the dog but Spot would not stay posed but followed Frank the minute he walked away. Spot seemed to think it was some new game they were playing and jumped around and around, barking and wagging his tail in great delight.

At last Frank got a little cross with Spot and speaking very sternly, told him to lie down. Spot put his head between his paws and looked quite sober and was fairly still, so that Frank had a chance to quickly press the bulb of the camera and take his picture. Spot heard the click, jumped as though he had been shot and ran as fast as he could for the house and crawled under the bed, and it was a long time before Frank could coax him to come out. Spot ran out into the yard and walked up to the camera which Frank had left on the grass. He sniffed at it and walked carefully around it to see if he could make out what it was.

Just then Frank called: "Spot, Spot," and Spot lifted up his head and started to walk toward his master. As Spot started away he stepped on the bulb and snap went the camera. Frank went over to it, picked it up and said: "Spot, I do believe you have taken your own picture."

Sure enough, Spot had stepped on the bulb just at the right time and had taken a fine picture of himself, with his head lifted up just as he started to answer Frank's call. Frank's uncle laughed when he received the picture and wrote Frank that he knew Spot would grow to be a very smart dog, but he never expected that he would learn to be a photographer.

timely new program of songs will be offered with the usual commands. The crowds that flock to Canobie on this day the theatre will in all likelihood be well filled at both performances.

Commencing Monday, July 5, the remainder of the week the theatre will be turned toward motion pictures, the management having been fortunate in securing what is acclaimed by all to be the greatest motion picture masterpiece ever attempted; Hall Caine's immortal play, "The Christian," portrayed by the pick of the famous stage graph players with Earle Williams as John Storm and Edith Storey as Glory Quayne. No bigger offering in photo-play could have been secured by the Canobie Lake theatre and on account of the story and play being so well known everywhere tremendous patronage will undoubtedly result all week long.

LAKEVIEW PARK

There is always something doing in the amusement line at Lakeview park, and the popular feature of it is that there is no charge made for the theatre. Various sensational circus acts that appear at the legitimate stage. This week the management has booked for appearance here one of the best acrobatic acts on the vaudeville stage, the Dayton family, who are in all and are presenting one of the best acts of its kind ever shown in Lowell. The Dayton family appear on the outdoor stage at Lakeview park, and again at 9 p. m. and will be seen twice daily for the remainder of the week. Next week the management has booked the Dayton family who are a sensational globe rolling stunt. All the acts there is the usual excellent picture show, both afternoon and evening. Various other kinds of amusements to be found at Lakeview, among them dancing, bowling, bathing and boating. There is also an excellent restaurant under the management of George Kenney.

MATRIMONIAL

Mr. Joseph A. Kinney and Miss Frances V. Bradley were married at 6:30 o'clock yesterday afternoon in the parochial residence of the Immaculate Conception church, Rev. Lawrence P. Tighe, O. M. I., officiating. The bride was handsomely gowned in white chiffon trimmed with shadow lace and wore a beautiful bouquet of white roses. The bridesmaid, Miss Elizabeth Bradley, a sister of the bride, wore blue chiffon and a white picture hat and carried sweet peas. Mr. Chester J. Bradley, a brother of the bride, was the best man. After the ceremony a reception was held at the home of the bride's parents, Mr. and Mrs. Simon Bradley at 234 Boylston street. After a wedding tour, Mr. and Mrs. Kinney will be at home to their friends at 173 Stevens street.

LEES-GODDARD

A pretty wedding took place yesterday afternoon at the home of Mr. and Mrs. Lee Goddard, 127 Alken avenue, when their daughter, Mary, was united in marriage to Mr. George Lees by Rev. Forester Macdonald, pastor of the Fifth Street Baptist church. The bride wore white silk and carried white roses. The bridesmaid, Miss Alice Goddard, a sister of the bride, wore pink crepe de chine and carried pink roses. Mr. William Clark was the best man and the flower girls were Miss Alice Goddard, a sister of the bride, and Miss Alice Whiteside. Mr. and Mrs. Lees will reside at 224 Cumberland road after a brief honeymoon.

MONAHAN-GILL

Mr. Patrick H. Monahan and Miss Mary E. Gill were united in the bonds of matrimony at the parochial residence of St. Patrick's church at five o'clock yesterday afternoon. The bride wore white marquisette over white silk and carried white roses. Miss Anne L. Gill, a sister of the bride, was bridesmaid and wore a gown of embroidered Swiss muslin and carried pink roses. A reception to relatives was held after the ceremony at the home of the bride's brother, Mr. Jas. Gill, 122 Wamsanlanet street, where the couple will reside upon returning from a wedding trip.

ROBINSON-ROFFE

Mr. Paul A. Robinson of East Chelmsford and Miss Margaret A. Roffe were married last evening at the home of the bride's parents, Mr. and Mrs. Fred D. Roffe, 16 Carter avenue, by Rev. A. L. Lincoln, pastor of the Kirk Street Congregational church. They plan to enjoy their honeymoon by a cruise to the Maine coast in Mr. Robinson's 35-foot motor boat, Margaret A. and return about August 1. The bride wore a gown of white crepe de chine trimmed with Irish point lace and carried a bouquet of lilies of the valley and bridal roses. The bridesmaid, Miss Webster, was bridesmaid and wore pink crepe de chine and carried pink roses. Mr. Fred G. Roffe, a brother of the bride, was best man. After Aug. 1, Mr. and Mrs. Robinson will be at home to their friends at 15 Carter avenue.

BOLAND-BIRKENHEAD

Mr. Edward S. Boland and Miss Mabel E. Birkenhead were united in marriage at 7 o'clock last evening at the parochial residence of St. Patrick's church by Rev. Timothy Callahan. The bridesmaid was Miss Anna Birkenhead, a sister of the bride, and the best man was Mr. John Boland, a brother of the groom. Following the ceremony a reception was held at the home of the bride's parents, Mr. and Mrs. Birkenhead, 272 W. After July 15, Mr. and Mrs. Boland will reside at 341 Broadway.

BETTS' BODY FOUND

BALDWINVILLE, July 1.—The body of Fred C. Betts, aged 33, for whom there had been a search for three days, was found yesterday floating on the surface of Otter river by William O'Brien and John Connor.

Open an account in The Lowell Five Cent Savings Bank. Interest begins Saturday, July 3rd.

FRANCE FIGHTING WAR

England "Laying Down," Says Dorchester Man, Back From Europe—In London During Raid

BOSTON, July 1.—William D. Taylor of Dorchester, who has been touring Europe for the past four months placing orders for army shoes, has just returned to this city. He has had unusual opportunity to study conditions regarding the war, and secured reliable first-hand information, he says. Among other opinions he expressed yesterday was that England was "laying down" and placing the great burden of fighting upon the shoulders of the French nation.

"It is really France and not England that is fighting this war," he declared. "France has given all its men, England only an army of volunteers. England claims to have three-quarters of a million men in France fighting in the British army. France has several millions. An English war office bulletin that I saw stated that Belgium was guarding 17 miles of trenches, England 31 and France 512 miles."

He said that in Paris there was none left but children and old men. "The cafes and restaurants in Paris close every night at 8 o'clock," he said. "There is no business to speak of. This month France will call out the class of 1917, 16-year-old men. The class comprises about 500,000 youths. Germany has called her 19-year-old boys. England does not seem to warm up to it much. They do not seem to realize it."

He said the English had full confidence in the ultimate victory of the allies. He said he was in London during the Zeppelin raids and no great damage was done by the Germans, and the

THE SPELLBINDER

It was Laura Jean Libbey, I believe, who once wrote a heart-puncturing novel, entitled "Lovers Once but Strangers Now." If Laura Jean, however, she may have been, were in Lowell today he or she would enjoy hugely the latest film in our city hall movies, also entitled: "Lovers Once but Strangers Now," with Mayor Murphy and Commissioner Morse as the leading characters.

Only one short year ago the mayor and the street commissioner were falling on each other's necks at every opportunity, figuratively, of course. Mr. Morse said he didn't care how much he was knocked so long as the mayor got credit for his great accomplishments, or words to that effect, while it is recalled that it was the mayor who presented a very readable account of the street work of the past year, to the reporters, with a personal tribute to Commissioner Morse.

Now it's different, and, barring the pawtucket bridge matter, on which they appear to be sewed together, His Honor, it would appear, never loses an opportunity to "get after" or in the picturesque language of the commissioner himself, to apply "the gaff" to Commissioner Morse, to get by him. No Arizona cowboy ever followed the trail of a redskin more resolutely than does the mayor follow the street commissioner these days.

And in getting after Commissioner Morse the mayor has several times exposed things that are far from being to his own credit as a public and paid official of the city.

For instance, speaking of the cost of sewer work, Mayor Murphy said: "I have been here 14 months and I haven't seen it yet."

Of course, His Honor has been there 18 months instead of 14, but one can't blame him for trying to forget some of it. But what an admission from a paid official, who is supposed to be cognizant of the work and the cost of work not only in his own department but in all others. The municipal council is ordered by the charter to determine the policies to be pursued and the work to be undertaken in each department, and now comes the mayor after 18 months in office and states that he does not know the cost of sewer work, and he has never before inquired what it might be.

His Honor in his attack upon the cost of the sewer department made the statement that the work can be done by contract at 33 1-3 per cent less than it is being done by the men of the sewer department. A few weeks ago he declared himself vigorously to the labor men as opposed to contract work of all kinds. Now he is denouncing it. If His Honor believes that the city can build sewers 33 1-3 per cent cheaper by contract than by day labor, why doesn't he attempt to save all that money? As a member of the municipal council, he is empowered to advocate a change of policy in the sewer department. If His Honor believes that sewer work can be done 33 1-3 per cent cheaper by contract, will he kindly figure out how much might be saved by doing the Pawtucket bridge work by contract? If the \$2 per day sewer employee is a municipal extra, what is the \$2 per day bridge laborer? If the \$2 per day sewer employee is an extravagance, how about the several higher priced clerks and other employees whose salaries he has been increasing since becoming head of the public safety department? Why wait for the 2nd year?

Where appears to be an attempt to place the responsibility for not knowing the cost of sewer work upon the city engineer. But the mayor and Commissioner Morse know or should know that the city engineer gets his actual cost figures from the street department office after the work is finished. When the sewer department puts in a street, its cost is reckoned by the total cost of each job being sent to the engineer, who bases his sewer assessments on the abutters therefrom. He's not the man to blame. It is customary to call upon the engineer for estimates of cost before the work of constructing a sewer is started and even before the appropriation is made. But this estimate is only an approximation as the engineer cannot tell just what difficulty may be encountered in the progress of the work. During the argument over sewer costs the mayor asked Commissioner Morse how much it costs per foot to put in a sewer. A foolish question, as one sewer may cost ten times as much as another. Commissioner Morse had no standard cost per foot for sewers and he had never averaged them.

Then Commissioner Morse attempted to show something done by the city administration and he fell down on the attempt.

Commissioner Morse, speaking of contract work vs. departmental labor, said: "There's a comfort station down in Paige street built by contract and it cost \$5000 more than the estimate."

The involuntary vacation tendered the employees of the Hartford-Bigelow Carpet company will be all right if not made permanent.

Money deposited on or before Saturday, July 3, in the Lowell Five Cent Savings Bank will bear interest from that date.

Work is booming at every department of the U. S. Cartridge company and new buildings are being rushed to permit an extension of several departments.

Cholera morbus is putting on its kicking clothes. Don't be without a bottle of Dows' Diarrhoea and Cholera Syrup in the house. All druggists.

The Oak Leaf club closed its whist season last evening at the home of Della Barnes, 23 Andrews street, with a large attendance. Prizes were awarded as follows: Ladies first, Jennie Kennedy; second, Gertrude Beyer; gentlemen, M. H. Thoman; second, Michael Shenick. After the whist the following musical program was presented: Matthew Phelan, L. T. Finlay and Jeanette Coleman; vocalists, John Murphy and John Alexander; Albert J. Hughes was the accompanist.

the non-existence of ledge and the contract provided that the cost of removing any ledge would be additional. That accounts for the \$3000. It was anticipated before the contract was signed.

And, as if ordained by that ironical curse known as Fate, Mayor Murphy's next duty after participating in that meeting of the municipal council Tuesday was to attend the graduating exercises of Elliot Woods' commercial college, where he was obliged to sit all evening directly under a huge class motto bearing the significant words, "BUSINESS EFFICIENCY."

Calling For Bids

Recently the purchasing agent called for bids for the construction of granite sidewalks and got a bid of \$1.48 per cubic yard, the lowest price ever known in Lowell, a price which some contractors say is an impossibility. That's not the purchasing agent's lookout, however; the sidewalks will have to be built and built right within that price.

If the purchasing agent can get such good results from granite, why not give him a chance on the cement and steel to be used in the Pawtucket bridge? This would not be a matter of contract labor and would in no way deter Lowell laborers from getting plenty of work. On the contrary, it would give Lowell steel and cement men an opportunity to make a little money and give the city the benefit that is supposed to come from competition. Perhaps if the steel were sold by bid the successful competitors would "place the steel," without making it necessary to figure such cost in the item for supervising the work.

Why Not Mr. Mayor?

Said His Honor at Tuesday's meeting: "Instead of putting in sewers to help our building men, let us give some relief from a positive nuisance in Wiggville, where people have been putting up with it for a number of years."

As my old friend Bill Rafferty would remark: "Very true, Mr. Mayor, very true." But by the same token, why spend a lot of money on the extension of Dummer street to help out a few building men, when the money thus to be spent could be used to relieve this long-existing nuisance in Wiggville? And relative to this nuisance which the Wiggville people have been putting up with for years, it will be recalled that the people of Wiggville have been crying to the mayor for relief for the 18 months that he has been in office, and they cried in vain until just as the campaign is about to open when His Honor suddenly takes a most benign interest in them.

And by the way, Mr. Mayor, if as you state this has been a long-existing nuisance in Wiggville, why did you and your colleagues last year force a \$35,000 sewer upon Pawtucketville which was neither needed nor desired by the people of that section, and ignore this long-existing nuisance? Why didn't you build the needed sewer in Wiggville a year ago and permit the Pawtucketville matter to wait until it was asked for by the people of Pawtucketville?

The Tax Rate

It is understood that in order to correct the fast-soaring tax rate a movement is being considered to increase valuations throughout the city; not among down town property where such increases usually fall, but generally, in the residential districts as well as those devoted to business, among the smaller property owners as well as among the heavier taxpayers. The city engineer has stated that the rate will continue to be extremely high until it is not quite as lofty as it would be otherwise. Property owners are painfully aware of the fact that with valuations as they are at the present time it is impossible to get anything near the assessed value of a piece of property, in the market, and hence such a movement, if it is true that it is contemplated, would be decidedly reprehensible.

Votes and No Votes

The members of the municipal council are flitting with the new Pawtucket bridge which while badly is not imperatively needed; because the bridge means votes and no votes. They are considering to the best of their ability the imperatively needed high school building which is another matter of votes and no votes.

They are strongly talking up the proposition to extend Dummer street, a matter of doubtful feasibility, with Worthen street so close by, using the argument that the extension will remove certain unsightly property adjacent to city hall, forgetting the fact that its removal will disclose still more unsightly property in the rear.

The Dummer street matter means votes and no votes.

But they are consistently avoiding any approach to the work of constructing a contagious disease hospital, which the law says must be constructed immediately, for this proposition is a matter of no votes, exclusively.

On all the other propositions, for every vote lost there will be several gained, the gains outnumbering the losses substantially, but in the case of the hospital they will not gain a single vote under any circumstances while they stand to lose votes wherever they may decide to locate it for nobody wants the institution in the vicinity of his home or place of business.

Thus they are "ducking" the hospital matter and are getting close to the time limit. When finally forced to show their hand, the members in all probability, will select a site and let it go at that, assuring the remonstrants that they are naming the site simply to cover the law, and that the future governments can settle on the finality of their selection.

Business Quiet Yet Rushing

In most lines of business, quietness and inactivity, inconsistent, but not so in the police industry, for while within the past month or more there have been more arrests for drunkenness and more arrests of women for drunkenness, than in a similar period in years, little mention has been made of the fact. The law relative to the disposition of drunks is being rigidly enforced but it would appear that the law relative to selling to drunks is being violated with impunity. Every day the police court record shows a large gathering of them, young and old, and sometimes it is necessary to "double-up" in the cells. You will be told perhaps, that the big chief's hands are no longer tied and that he is enforcing the law rigidly. It certainly is a fact that the law relative to the arresting of drunken men and women is being rigidly enforced, in some cases overdone, where drunks might get to their homes in safety, if allowed to by the over-zealous police, but you haven't heard of any arrests for selling to drunks or selling to minors, and you haven't heard anyone state that the large number of drunks is due to the present administration as was said of the former government when the number was less than at present.

More Consistency

Since the Pawtucket bridge matter came up Mayor Murphy has been opposed to competitive bidding on that \$5000 proposition, but at Tuesday's meeting of the municipal council His Honor felt that the matter of restoring the tablets at the Memorial building should be let out by competitive bidding. Commissioner Putnam was authorized to prepare specifications and to open bids on the work. On this little matter of two or three thousand dollars it is quite necessary to have bids in order, and presumably in the interest of economy. But there's no competition on that \$50,000 job of building a new bridge, nor even on the job of supervising the construction and placing the steel.

No Lights on City Auto

It was a good thing, perhaps, that Traffic Officer Ed Flanagan had "gone out duty Monday evening or something in the nature of a sensation might have occurred in connection with the white way celebration in Middlesex street. Officer Flanagan may be depended upon to perform his duty at any time and under all circumstances, and hence had he remained at the depot a little longer Monday night he would have been placed in the embarrassing position of being obliged to arrest or at least to "fall down" the mayor or of the city and the superintendent of police, for spectators along the Middlesex street white way were started at seeing the city's new police auto being driven along Middlesex street by Supt. Welch with Mayor Murphy and Secretary Cull as passengers, with a light on it front or back, at 9:30 o'clock or thereabouts. Such carelessness on the part of our law-enforcing superintendent of police, or his assistants, is certainly a disgrace. The distinguished party to hide their light under a bushel, as it were, lest the phantoms of the crowd might discover them. Speaking of the superintendent's new auto, all who read the papers recall the arguments advanced for its purchase. Among its varied uses is said to be one which was not made public at the time of the purchase, namely that of scouring the city for the purpose of "keeping tabs" on patrolmen. According to report such has become one of the principal uses of the new auto. Thus it will come in quite handy during the coming mayoralty campaign for visiting the officers on their respective routes to ascertain "how things are going," a labor of love accomplished on foot during the last campaign.

Some time ago when a horse was stolen a city-owned auto was borrowed and police officers used it in successfully chasing the horse-thief. If I remember rightly Supt. Welch in an interview in the morning paper used this case to illustrate how useful an auto would be in the police department in catching horse and auto thieves. On Tuesday night about 9:30 o'clock two young men stole a Ford car in Shattuck street and went away with it. The new police auto purchased for just such cases remained inactive in the police station stable all night while a house officer telephoned

TOWN OF DRACUT NEWS

Past Officials Asked to Refund Overdrawn Salaries—Various Appropriations Made

At a special town meeting held in Dracut last evening and called for the purpose of discussing loan orders for town departments, Auditor Conant Udell informed the meeting that two selectmen and last year's auditor overdraw the amount of their salaries, and only one of these officials has returned his overdrawn pay. Selectman Mozley stated that requests had been made to the officials to make due return of the money overdrawn, but to date nothing has been forthcoming. John W. Peabody moved that the sum of \$20 be appropriated to be used for the purpose of collecting the amounts due the town from the officials in question. Mr. Peabody's motion prevailed. This particular situation has no precedent in Dracut.

The meeting was held in Grange hall and was well attended. The money voted will be raised by direct appropriation by loan, George H. Stevens, as moderator, called the meeting to order and read the warrant.

Article one, to borrow a sum of money not to exceed \$1500 for the month department, taken up and Supt. Thomas P. Carrell of the month department stated that the annual appropriation of \$1014 had a "joker" attached. He referred to the words "exclusive of receipts" as the joker. These words, he said, prevented him from spending the revenue derived from pet sales, which was an amount to more than the loan asked for.

As to the loan proposition connected with the moth loan, James Cunningham stated that recent legislation required all current expenses to be paid by direct appropriation and he thought banks would refuse to make loans to meet current expenses. It was voted to raise the money by direct appropriation.

Under article two the sum of \$1000 was raised and appropriated to pay interest on loans.

Article three asked that a loan of \$500 be made to be used to defray expenses connected with the inspection of meats.

James Cunningham said he had visited the state board of health and learned, he said, that the town of Dracut was paying an exorbitant amount as compared with other towns. He said that town figures obtained from the auditor's books he was greatly impressed with the belief that the inspecting of meat was a costly one. In January the bill of one inspector was \$18.70, said the speaker, and despite the fact that on account of the extreme quarantine conditions during the month and in March when the inspector's bill amounted to \$31.90, there was very little doing in the slaughterhouse at this particular time.

Mr. Cunningham stated that on the basis of hours worked and the money expended as shown by the bill rendered, the town was paying an abnormally high figure.

Dr. William S. Eaton, inspector of meats and animals, spoke briefly upon the article, quoting the law relative to the town being required to employ one or more inspectors.

Norman L. Tenny thought that to curtail the slaughtering and inspection of animals would be to discourage the men engaged in that business and these should be protected, instead of being driven out of business.

While Mr. Cunningham offered an amendment to raise only \$200, the sum of \$500 as originally called for was raised and appropriated.

The sum of \$350 was appropriated to replenish the forest warden's department. The meeting refused an appropriation of \$120 for the installation of telephones in the homes of four regular police officers.

It was voted to pay Florence Gliman the sum of \$18 for services rendered as teacher in 1907. An article asking for a loan for the scaler of weights and measures was given the marble heart. An article concerning an appropriation for the establishment of voting precincts was also assigned to silent halls.

Taking all in all, however, it looks like a good year for Dracut.

BATTLE IN THE AIR MAN FELL 65 FEET

BRITISH AVIATOR TELLS OF DESTROYING GERMAN CRAFT AFTER FIERCE DUEL

PARIS, July 1. 8.35 a. m.—A race by which he destroyed a German aeroplane near Ypres is described by Mark Hesson, a British aviator, in the Journal. The battle took place nearly 6500 feet in the air.

"When the enemy machine sighted me it immediately took to flight," said Hesson. "I dashed off in pursuit. After about ten minutes' rapid flight I came up with him and flew above him. The duel began at once."

"After fighting for some time without result, I adopted a stratagem which I have always found successful and let the aeroplane dive almost vertically. I had fallen, also descended in a gliding flight. I then sighted my machine suddenly and shot above him at a distance of about only 15 feet. Then we resumed the duel. One of my shots hit the gasoline tank of the aeroplane, and the machine burst into flames, crashing to the earth. The pilot and observer both were killed."

ANGELO POUGH DROPPED SIX STORIES AND SUSTAINED ONLY A FEW SLIGHT BRUISES

BOSTON, July 1.—Angelo Pough, 40 years old, a laborer living at 41 Fleet street, North End, is the luckiest man in the world according to himself, for yesterday afternoon he fell 65 feet from the sixth story of a building and sustained only a few slight bruises.

Pough was working on a building under construction at 136 Massachusetts avenue. As he stepped by a tub of mortar on the sixth floor staging, he lost his balance and started heading downward. He struck the staging of the fifth floor, and then dropped again.

During his 65-foot fall Pough did not miss a staging. He hit every one, and bounced down to the next one, until, 65 feet from where he fell, he struck the cell ceiling.

His horrified comrades rushed up to find Pough conscious, although rather weak. He was hustled in an ambulance to the City hospital, and his comrades waited for word of his death. But no such word came. For after staying at the hospital a few hours Pough was discharged. The hospital nurse said he had sustained only a few bruises on the legs and arms.

LITTLE OF EVERYTHING

MAGNETIC PROGRAM ARRANGED FOR SACRED HEART "AT HOME" NEXT SATURDAY

One looking over the long and varied list of attractions of the well planned "At Home" of the Sacred Heart church next Saturday, July 3, may well wonder if it will leave anybody at home in the parish and outside of it, for those who could resist such a magnetic program would indeed have strong will power. A superficial glance at the list of attractions reveals a vast pocket edition of the Panama Pacific exposition with the South common midway and a country fair thrown in for good measure. There will be dancing, band concert, beautiful illuminations, vaudeville fireworks, a marathon race, all manner of athletic sports for men, women and children, aerial flights, hair raising thrillers on imported novelties and everything that tends to cultivate a good Fourth of July spirit in the hearts of good Americans.

The athletic program will be run off in the afternoon, and the evening festivities will open at 7 o'clock with a vocal concert by 40 trained voices under the direction of James Cusick. In the list of soloists are some of Lowell's most talented performers, George "Babe" Rogers and James Shugrie, the famous cabaret artists will sing solos. John McMahon, Sadie Kenney, John Townsend, Catherine Sharkey and Ed McNulty will also appear as soloists. The concert will open with an overture of the new and popular selections while the finale will embrace the older compositions, concluding with the singing of The Star Spangled Banner.

SUN BRIEVITIES

All up for the Fourth! 178—They don't answer. Best printing: Tobin's, Asso. Bldg. The Sun gets the cream of the town news.

Another murder. Let no guilty man escape.

The commissioners do not play bridge very well.

Who's going to win that prize for the best decorated home?

Fast Merrimack street seems to be specializing in fruit stores.

J. F. Donohoe, Donovan bldg., real estate and insurance. Telephone.

About time the gangs here and there sat up and took notice.

If your teeth trouble you see Dr. Gagnon, 166 Merrimack street.

The weather man is evidently not in favor of the city's half holiday.

It is remarkable what boldness some children show in stealing flowers.

The Kaiser evidently has not yet heard of the equipment of the O. M. I. Cadets.

That double lights or more of the electric light be provided at Merrimack square.

Of course the people of Lawrence, Haverhill and Nashua will be here by tens of thousands to witness our great celebration.

The involuntary vacation tendered the employees of the Hartford-Bigelow Carpet company will be all right if not made permanent.

Money deposited on or before Saturday, July 3, in the Lowell Five Cent Savings Bank will bear interest from that date.
